

Construction Technology - Building Construction Diploma

The Construction Technology – Carpentry program combines the National Center for Construction Education and Research (NCCER) curricula with the Associate of Applied Science degree requirements, meshing illustrated instructional material with structured classroom activities.

This program emphasizes four levels of carpentry, with each building on the previous level. During the summer term between the students' first and second year, a paid internship is required, giving students real-world experience with a local construction company.

The [Building Construction certificate](#) is awarded after successful completion of first semester courses.

Where will this take me?

Carpenter
Concrete Finisher
Construction Materials Sales Representative
Estimator
Construction Materials Supplies Coordinator
Finish Carpenter
Framer
Roofer

Instructor and Staff
