

Industrial Maintenance Technology - Electrical Maintenance Technology Certificate

The Industrial Maintenance Technology pathway provides students with technical skills in maintaining and troubleshooting electrical and mechanical systems used in the industry. Mechanical and electrical theory are covered throughout the program, including how to troubleshoot and repair industrial systems. Instruction is delivered in a format designed for flexibility and customization based upon the desired career path of each individual student.

The Electrical Maintenance Technology certificate is awarded after successful completion of this course and is taught in the Fall semester.

The [Mechanical Maintenance Technology certificate](#) is a companion course taught in the Spring semester.

The [Industrial Maintenance Technology diploma](#) is awarded after successful completion of both of the certificate courses above.

*Certificates and diploma can be earned one time.
