

Network Administration and Cyber Security - AAS

West Burlington campus

The Networking Administration and Cybersecurity program offers hands-on experience with installation, maintenance and administration of PC networks. Students will spend time working on security principles and router, switch and firewall configuration. The program offers the latest equipment and software, plus experience with Microsoft and Linux operating systems. Students will leave with the skills and knowledge industry requires.

During the second semester, students will take NET-101 IT Fundamentals, where they have the opportunity to earn CompTIA IT Fundamentals certification.

The [IT Technician Diploma](#) is awarded after successful completion of the second semester.

Students will also take NET-153 Advanced Networking during the second year, which includes the CIW Network Technology Associates exam. The CIW NTA certificate is awarded after successful completion of this exam.

See [Program Handbook](#) for additional information.

*Diploma can be earned one time.

Where will this take me?

Network Administrator
Network Technician
Network Installer
