

# Medical Coding and Billing Diploma

---

West Burlington Campus

## Program Information

Our medical coding and billing program provides the latest information related to medical coding, chart auditing and insurance reimbursement. Students in our medical coding classes learn the theory of medical coding, gain an understanding of medical coding fundamentals and incorporate this by using a laboratory practicum to work medical coding reports. The students will be trained in ICD-10, CPT, and HCPCS coding language. The medical billing and coding field continues to grow as new government regulations influence physician reimbursement. \*Certificate can be earned one time.

For specific information regarding program rules and expectations, please view the [Medical Coding and Billing Handbook](#).
