Mission & Accreditation

MISSION:

Southeastern Community College provides accessible, quality programs and services which promote student success and economic vitality.

VISION:

Southeastern Community College, a visionary leader in lifelong learning, embraces diversity, transforms lives, strengthens communities, and inspires individuals to excellence.

VALUES:

Excellence:

We are committed to the highest standards in all aspects of teaching and learning.

Integrity:

We encourage honesty, respect and personal accountability among and between students, staff, and stakeholders.

Stewardship:

We are effective and vigilant stewards of our financial, physical, and human resources.

Continuous Improvement:

We promote evidence-based decisions and systems within a culture of empowerment and teamwork.

Southeastern community College is an Affirmative Action/Equal Opportunity Employer. Southeastern Community College is a publicly supported community college serving Iowa counties of Merger Area XVI.

The college makes every effort to ensure the accuracy of the content of this catalog, but reserves the right to make changes at any time without prior notice. This catalog is for informational purposes and does not constitute a contract.

Published through the Office of Academic Affairs.

Southeastern Community College is accredited by the Higher Learning Commission.

Southeastern Community College is accredited by the Iowa Department of Education.

Southeastern Community College is a member of:

- The American Association of Community Colleges
- Association of Community College Trustees
- Iowa Association of Community College Trustees
- Iowa Association of Community College Presidents
- League for Innovation in Community Colleges

Admissions Information

The rules, policies, procedures, and fees described herein may be changed by the authorities of this institution without advance notice or commitment to such original rules, policies, procedures, and fees to which change is deemed necessary.

General Admissions Policy

The basic expectation of students entering the college credit program is a desire to learn. The college provides educational opportunities for a wide variety of achievement levels and has established realistic entrance standards for each level. These standards may include mandatory placement.

Board Policy 107

BOARD POLICY TYPE: **PHILOSOPHY & GOALS**

POLICY TITLE: **Nondiscrimination Statement**

It is the policy of the Southeastern Community College not to discriminate on the basis of race, color, national origin, sex, disability, age, employment, sexual orientation, gender identity, creed, religion, and actual or potential family, parental, or marital status in its program, activities, or employment practices. If you have questions or complaints related to compliance with this policy, please contact the Director of Human Resources (employment concerns) at 319-208-5063 or the Vice President of Student Affairs (student concerns) at 319-208-5049, 1500 West Agency Road, West Burlington, Iowa 52655, equity@scciowa.edu or the Director of the Office for Civil Rights U.S. Department of Education, John C. Kluczynski Federal Building, 230 S. Dearborn Street, 37th Floor, Chicago, IL 60604-7204, Telephone: (312) 730-1560 Facsimile: (312) 730-1576, TDD 800-877-8339 Email: OCR.Chicago@ed.gov. Nondiscrimination statement is pursuant to requirement by Iowa Code §§ 216.6 and 216.9, Titles VI and VII of the Civil Rights Act of 1964 (42 U.S.C. §§ 2000d and 2000e), the Equal Pay Act of 1973 (29 U.S.C. § 206, et seq.), Title IX (Educational Amendments, 20 U.S.C. §§ 1681 – 1688), Section 504 (Rehabilitation Act of 1973, 29 U.S.C. § 794), and Title II of the Americans with Disabilities Act (42 U.S.C. § 12101, et seq.).

Students with Disabilities

Southeastern Community College (SCC) is committed to providing an accessible environment that supports students with disabilities. Accommodations are available to ensure equal access to educational opportunities. At SCC, our accessibility staff work with students to develop and coordinate services/needs for individuals. SCC's policy requires you to contact the accessibility staff to discuss your specific needs and provide necessary information and supporting documentation so appropriate accommodations can be secured. The Accessibility Office is located in room 109 on the West Burlington campus and room 206 on the Keokuk campus. You can reach the accessibility staff by calling (319) 208-5167 (West Burlington campus) and (319) 313-1985 (Keokuk campus). Information about accommodations is also available online at <https://www.scciowa.edu/academics/disserv.aspx>.

Mandatory Placement

www.scciowa.edu (319) 208-5000

Southeastern Community College has adopted mandatory placement standards for mathematics and, English. All students must complete ALEKS (math) and the Writeplacer module in Next Generation Accuplacer. Because additional placement scores are needed for English, students have the option to complete the Next Generation Writing and Next Generation Reading modules in Next Generation Accuplacer, or they may submit their ACT or SAT scores in English and reading. The Next Generation Accuplacer (Writeplacer, Next Generation Writing, and Next Generation Reading) and ALEKS (math) tests are given free of charge. To schedule a time to test in Keokuk call 319-313-1943 or in West Burlington call 319-208-5155. Students with scores older than two years will need to test again. Students with scores below an established level are strongly encouraged to enroll in developmental course(s) in their first term of enrollment. Several career, technical and health education programs also have minimum standards for admission and/or acceptance.

Program and course admission standards are available in the Admissions Office, West Burlington (319)208-5155, admissionwb@scciowa.edu or Keokuk (319)313-1923, admissionskeo@scciowa.edu

Specific Admissions Requirements: Arts and Sciences/Career and Technical Education Curricula

The minimum requirements for admission as a student to programs in Arts and Sciences, Career and Technical, and Health divisions include graduation from an approved secondary school or its equivalent. Determining equivalency of a secondary school diploma shall be consistent with the practice employed by the three state institutions for higher education in Iowa. Requirements could also include a demonstrated interest, aptitude and the ability to benefit from coursework offered by the curricula.

Health Career Programs

Students entering health career programs are expected to maintain a high standard of ethical and professional behavior throughout their courses of study. Characteristics of honesty, integrity, commitment, safety and confidentiality are essential for program success. It is also expected that students will maintain regular attendance in classroom and clinical assignments.

Students must maintain a high degree of professional behavior with patients and families during clinical assignments. All students will be required to pass a mandatory background check. In addition to meeting the admissions requirements for the college, students entering health career programs must meet additional program admissions requirements. All health career programs require students to earn a grade of "C" (2.0 GPA) or above in all coursework within the program for which they are applying. In addition, students must have standardized placement scores completed within 24 months prior to the date of enrollment.

Admissions/Enrollment Prior to High School Graduation

SCC can help high school students get a jump start on college, a career and increase skills levels for employment. High school students and students participating in homeschooling who meet

requirements as outlined in Senior Year Plus legislation have the opportunity to take college courses prior to high school graduation. Eligible courses are outlined in agreements between each area high school and SCC.

Upon successful completion of the enrolled course(s), students will earn both high school and college credit. Postsecondary credits earned are transferable to other colleges and universities depending on degree requirements at that institution. Contact a high school counselor for additional information regarding these opportunities.

Application Procedures - Credit Courses

Specific Procedures for Students Applying for Admission

Applications for Admission are accepted at any time and may be submitted online at www.scciowa.edu. Application forms can also be distributed or mailed from the Admissions Office. Enrollment is limited in certain courses and programs. In order to receive full consideration, students are encouraged to have all entrance requirements completed and available to the Admissions Office at the earliest possible date, including Application for Admission and transcripts of all previously earned academic credit (high school, high school equivalency, or college). Students are also required to complete a new student orientation, available online.

An admissions committee may evaluate an application to determine admission to particular programs.

Transfer Students

Students who wish to transfer from another college are eligible to apply for admission. Students transferring to Southeastern Community College from other institutions will have their credits evaluated on an individual basis. All transfer students are advised to consult with the Registrar's Office at (319) 208-5022 (registrar@scciowa.edu) well in advance of the beginning of each term so that transfer status may be established.

International Students (F-1 Status)

International students who apply from abroad or who would like to transfer from other institutions in the United States to Southeastern Community College must have a high school diploma or equivalent. Students must submit an Application for Admission, high school/college transcripts and must also provide financial documentation showing proof of funds available to cover the cost of tuition, books, room, board, etc. SCC is authorized under Federal law to enroll non-immigrant students. For more information, please contact the International Program Office at (319) 208-5010 or international@scciowa.edu

Non-Native Speakers

All applicants to Southeastern Community College whose native language is not English are required to submit scores from the Test of English as a Foreign Language (TOEFL) or Accuplacer-ESL with their application for admission and supporting academic documents. Students must demonstrate proficiency in the English language by obtaining a satisfactory score on the Accuplacer-ESL or TOEFL ESL. For more information, please contact Admissions.

Satisfactory Academic Progress - Financial Aid Including Military Benefits

Students who receive financial assistance from Title IV, state or institutional funds must make satisfactory academic progress as described below to remain eligible to receive financial aid. Students will have their records reviewed at the end of each award period (semester) to determine if "satisfactory progress" is being maintained. The standards for satisfactory academic progress include a minimum cumulative completion rate of 67%, a minimum cumulative GPA of 2.00, and completion of the academic program in 150% of the published length of the program. Failure to maintain these standards can result in dismissal, which is termination from receiving further financial aid. If a student is placed on dismissal and a special circumstance exists, the student may submit an appeal. More information on satisfactory academic progress and the appeal process is available at: <https://www.scciova.edu/admissions/costaid/finaid/sap.aspx>

Satisfactory Academic Progress Guideline for Military Education Benefits

Southeastern Community College is required to establish and monitor academic progress standards for enrolled students receiving military education benefits. This policy ensures that any student who receives or applies for military education benefits is making progress toward a degree. In order to maintain eligibility for military education benefits, a student must meet the standards of at least a 2.0 GPA. Failure to meet these requirements may result in the loss of education benefits.

Programs affected by standards requirements are:

- Chapter 33 (Post 9/11)
- Chapter 31
- Chapter 35
- Chapter 30
- Chapter 1606
- Federal Tuition Assistance
- Iowa National Guard Service Scholarship

Minimum Veteran's Administration Academic Progress Standards

A student's academic progress is assessed after each term. A student is expected to earn a minimum cumulative grade point average (GPA) of 2.0.

Veterans Administration Probation

A student will be placed on Veterans Administrative Probation the first term that the student fails to meet the minimum standard outlined above. A student placed on Veteran Administration Probation: Students eligible to receive Veterans Administration benefits must achieve at least a 2.0 semester GPA for the probationary term.

www.scciova.edu (319) 208-5000

A probationary student who has earned at least the minimum semester GPA required, but does not meet the minimum cumulative GPA requirement of 2.0, will continue to be on Veterans Administration Probation.

Veterans Administration Suspension

A probationary student who fails to earn the minimum semester GPA of 2.0 will be placed on Veterans Administration Suspension.

A student on Veterans Administration Suspension:

- Is not eligible to receive Veterans Administration benefits.
- Is required to complete a one-term absence (not including the summer semester) and may be re-admitted on probation.

The student will remain on probation until they meet the minimum requirement of a 2.0 semester GPA. Once a cumulative GPA of 2.0 is met the student will be removed from probation. If the student does not meet the minimum requirement of a semester GPA of 2.0 during this probationary term, the student will, once again, be placed on suspension.

Reinstatement

It is the responsibility of the student to notify the Veterans Certifying Official that their coursework meets the minimum standards.

Appeals of Veterans Administration Suspension

A student may submit a written appeal if there are extenuating circumstance such as serious illness, death of a relative, job changes, etc. that prevent the student from meeting the minimum standards. Documentation will be expected; please notify the Veterans Certifying Official as soon as possible.

President's List

Students who have attempted 12 or more credit hours and achieved a grade point average of 4.0 in a Fall or Spring term are honored by being named to the President's list.

Graduation Requirements

General Information

A student who intends to graduate from Southeastern Community College must file a Request to Graduate application. This application should be completed when registering for the last anticipated semester of classes. Under Self-Serve on Hawknet please click on the Graduation overview tab. Degree, diploma and certificate requirements stated in the Southeastern Community College catalog at the time of a student's initial enrollment will remain in effect for that student until graduation. If changes occur in graduation requirements subsequent to initial enrollment, the student may elect to graduate under the most recent degree or diploma requirements. The ability to graduate under the requirements of an older catalog is subject to a five-year limitation. The final determination of graduation requirements rests with the Registrar.

It is the responsibility of the student to know and observe the requirements of their curriculum and the rules governing academic work. Although a Student Success Advocate will attempt to help the student make informed decisions, the final responsibility for meeting the requirements for graduation rests with the student.

Graduation from Southeastern Community College shall be certified by the issuance of a degree, diploma, or certificate. No student shall be issued an award who has not earned a cumulative grade point average of at least 2.0 in their program at SCC.

If a student receives information from a Student Success Advocate which may have an impact upon the student's graduation requirements or application of credits toward graduation, the student is advised to secure the information in writing. It is further advised that this documentation be retained by the student.

Commencement

Commencement is an integral part of a student's experience in college. SCC's commencement is held at the conclusion of the spring semester for any student of the college who has completed all the necessary requirements for a degree, diploma, or a certificate. Additionally, any student of Southeastern Community College is eligible to participate in commencement if there is a clear indication made to the Registrar by the student at the beginning of the spring semester that necessary requirements will be completed prior to the beginning of the next fall semester.

Graduation with Honors

Qualifying students are recognized as meeting the requirements of Graduation with Honors at commencement ceremonies. To qualify for this recognition, a student's cumulative grade point average must be 3.75 or above as of the end of the fall semester. A minimum of 15 semester hours must have been completed at Southeastern Community College. A student with a GPA below 3.75, but above a 3.50, may qualify at the end of the

spring semester if they receive spring grades which are high enough to raise their GPA to 3.75 or above at the end of the spring semester. It is the responsibility of the student to notify the Registrar of this possible last-minute designation.

Assessment Philosophy

Assessing student academic achievement at Southeastern Community College is a process of documenting student learning within the domain of general education requirements and within career education programs that go beyond traditional course grades. The purpose of assessment is to promote and document continuous educational improvement throughout the institution. The data gathered will be used to make adjustments within courses and/or programs when deemed necessary. Assessment data will also provide valuable information for use in the college's strategic planning and program review processes. The assessment of students' knowledge of course content, general education and career education objectives will also allow the college to become more articulate in its communication efforts with internal and external constituents regarding how well the college is accomplishing its mission and goals/objectives.

General Education Statement

The goal of Southeastern Community College is to instill within its degree graduates a body of knowledge, skills, and attitudes upon which they can build to be contributing members of society. To accomplish this, associate degree requirements are established which meet a diversity of interests associated with comprehensive community college students. Southeastern Community College requires that the Associate of Arts (AA) degree and the Associate of Science (AS) degree includes courses in the following areas:

- Communication
- Social Science
- Humanities
- Mathematics
- Science
- Cultural Awareness

SCC is committed to ensuring that students graduating with associate degrees have attained skills in the following areas:

- Communication
- Civic Awareness
- Critical Thinking
- Cultural Awareness
- Quantitative & Scientific Reasoning

The College Experience Course Policy

SCC requires first time degree-seeking students to take SDV-108 The College Experience during their first semester. This course is required for graduation. Exceptions to this requirement include:

- Transfer students with an official transcript(s) from a previous institution(s) who have earned a minimum of 24 credits with a cumulative GPA of 2.0 or higher (cumulative GPA encompasses all attempted credits, not just those earned).
- Transfer students with an official transcript from a previous institution who have taken a similar course with a grade of C- or better.

- Students who were previously enrolled at SCC (excluding high school concurrent enrollment) who have earned a minimum of 12 credits with a cumulative GPA of 2.0 or higher.

General Education Requirement Groups:

Communication

- ENG English
- SPC Speech

Humanities

- ART Art
- LIT Literature
- Foreign Language — FLS Spanish, FLR Russian
- HIS History
- HUM Humanities; MUS, MUA Music
- PHI Philosophy
- DRA Drama
- REL Religion

Social Sciences

- ECN Economics
- GEO Geography
- HIS History
- POL Political Science
- PSY Psychology
- SOC Sociology

Math and Science

- MAT Mathematics
- BIO Biology
- CHM Chemistry
- ENV Environmental Science
- PHY Physics
- PHS Physical Science

Cultural Awareness

- ART Art
- DRA Drama
- ENG English; FLS Foreign Language Spanish
- HIS History; HUM Humanities
- MUS Music
- PHI Philosophy
- REL Religion
- SOC Sociology

Credit earned toward satisfaction of one group requirement may not be applied toward satisfaction of a second group requirement.

Academic Awards

Requirements for each of the college's curriculum must be satisfactorily completed prior to an individual being eligible to receive an award from SCC. One of the following will be awarded to a student who completes the specified requirements:

- Associate of Arts degree
- Associate of Science degree
- Associate of Applied Science degree
- Diploma
- Certificate

Associate of Arts Degree

The Associate of Arts degree is primarily intended for those students who plan to transfer to a four-year college or university. A transfer student should always consult with the four-year institution to determine application of particular courses toward his/her degree objectives. All candidates for the Associate of Arts Degree must meet the following requirements:

1. Earn a minimum of 15 of the last 20 semester hours of credit in resident classes at Southeastern Community College. (If a student completed at least 30 credit hours at SCC and then transfers to another college, the student is eligible to transfer up to 30 credit hours back from that college to earn this degree under the Reverse Credit Transfer Program.)
2. Earn a minimum cumulative grade point average (GPA) of 2.00 at SCC.
3. All general education group requirements necessary for the associate of arts degree must be selected from transfer course offerings.
4. Each of the following minimum general education group requirements must be met:

SDV-108	1 credit hr.
Communication (ENG-105, ENG-106, and SPC-101 or SPC-112)	9 credit hrs.
Humanities*	9 credit hrs.
Social Sciences*	12 credit hrs.
Science & Mathematics*	10 credit hrs.
Cultural Awareness	3 credit hrs.
Electives*	16 credit hrs.
Minimum Total:	60 credit hrs.

* *Select courses from at least two different disciplines in this area. In the Science and Mathematics group, at least one lab science and one mathematics course must be taken.*

Associate of Science Degree

The Associate of Science degree is primarily intended for those students who plan to transfer to a four-year college or university. A transfer student should consult with the four-year institution to determine application of particular courses toward their degree objectives. All candidates for the Associate of Science degree must meet the following requirements:

1. Earn a minimum of 15 of their final 20 semester hours of credit in resident classes at SCC. (If a student completed at least 30 credit hours at SCC and then transfers to another college, the student is eligible to transfer up to 30 credit hours back from that college to earn this degree under the Reverse Credit Transfer Program.)
2. Earn a minimum cumulative grade point average (GPA) of 2.0 at SCC.
3. All general education group requirements and specialty area requirements necessary for the Associate of Science degree must be selected from transfer course offerings.

- Each of the following minimum general education group requirements must be met:

SDV-108	1 credit hr.
Communication (ENG-105, ENG-106 and SPC-101 or SPC-112)	9 credit hrs.
Humanities*	6 credit hrs.
Social Sciences*	6 credit hrs.
Science & Mathematics*	20 credit hrs.
Cultural Awareness	3 credit hrs.
Electives*	15 credit hrs.
Minimum Total:	60 credit hrs.

* *Select courses from at least two different disciplines in this area. In the Science and Mathematics group, at least one lab science and one mathematics course must be taken.*

Associate of Applied Science Degree

The Associate of Applied Science degree is intended for those students who are enrolled in a two-year career education program which prepares the student with the skills and competencies necessary to enter the workforce upon degree completion. The standard length of all career education curricula leading to an Associate of Applied Science degree is a minimum of four semesters. All candidates for the Associate of Applied Science Degree must meet the following requirements:

- Earn a minimum of 15 of the last 20 semester hours of credit in resident classes at SCC. If a student completed at least 30 credit hours at SCC and then transfers to another college, the student is eligible to transfer up to 30 credit hours back from that college to earn this degree under the Reverse Credit Transfer program.
- Earn a minimum cumulative grade point average (GPA) of 2.00 in the AAS degree curriculum at SCC.
- General education courses required for the associate of applied science degree must be selected from courses listed in the approved program curriculum. A minimum of 15 semester hours of general education requirements must be taken with at least one course from each of the three areas: Communication; Social Sciences and/or Humanities; Mathematics and/or Science.
- Satisfactory completion of all core and general education requirements as specified for the curriculum selected. The standard length of all career education curricula leading to an associate of applied science degree is a minimum of four semesters.

Diploma

The diploma shall be awarded to a student who has satisfactorily completed an approved Career and Technical Education program. A diploma may be a component of, and apply toward, subsequent completion of an AAS. All candidates for a diploma must meet the following requirements:

- Earn a minimum of ten of the last 13 semester hours of credit in resident classes at SCC.
- Earn a minimum cumulative grade point average (GPA) of 2.0 at SCC in the diploma curriculum.
- General education courses and elective credits required for a diploma are listed in the approved curriculum for that diploma.
- Satisfactory completion of all general education and core requirements as specified for the diploma program.

Certificate

A certificate of completion may be awarded to a student who has satisfactorily completed a course of study prescribed by the institution that is designed to prepare students for entry-level employment. The certificate may be a component of, and apply towards, subsequent completion of a diploma or AAS. All candidates for a Certificate must meet the following requirements:

- All requirements must be met through earned SCC credits or through approved action by the registrar.
- Earn a minimum cumulative grade point average (GPA) of 2.0 in the certificate curriculum at SCC.
- General education courses, if required, are listed in the approved curriculum for that certificate.
- Satisfactory completion of all core, general education and/or elective requirements as specified for the certificate program.

Arts and Sciences Transfer Programs

The Arts and Sciences Transfer Program provides courses of study which will readily transfer to most colleges and universities. Students planning to earn a baccalaureate degree may begin coursework at SCC and complete the general education requirements for most majors with the completion of an Associate of Arts degree or Associate of Science degree. Iowa community colleges and Iowa regent universities (University of Iowa, University of Northern Iowa, and Iowa State University) have developed an articulation agreement to assist in the transfer process. SCC also has articulation agreements with other colleges and universities. Students should consult with an SCC enrollment specialist at either West Burlington (319) 208-5010, admissionswb@scciowa.edu or Keokuk (319) 313-1923, admissionskeo@scciowa.edu to determine the transfer of coursework since many majors require specific classes. Students may also be referred to faculty for questions regarding specific majors.

Steps to Assist in the Transfer of Credit

Students who intend to transfer credits earned at SCC toward degree requirements at another college are urged to observe the following steps. Students should:

1. **THINK** carefully about personal interests and abilities. Students will then be in a better position to make decisions regarding educational goals, and SCC will be able to better assist the student in accomplishing those goals.
2. **MEET** with an SCC enrollment specialist to discuss educational plans and select courses for each term.
3. **CONTACT** the transfer college to obtain information necessary for a successful transfer. Students should be aware that many majors require specific coursework at SCC.
4. **DISCUSS** any change in educational plans with an SCC enrollment specialist. Never rely on rumors about what will or will not transfer. Always meet with an enrollment specialist or the transfer institution and get the facts.

To be assured of an ideal transfer, it is very important for students to know both their chosen majors and transfer colleges as soon as possible. Most transfer colleges provide information on their websites for transfer students.

To see more information on articulation agreements currently in place or how any SCC courses transfer, go to the SCC website www.scciowa.edu/academics/transfer.

Graduation Requirements for Associate of Arts Degree

To graduate with an Associate of Arts degree, students must have a 2.00 grade point average or above and have successfully completed sixty (60) semester hours of credit in courses as designated below. In addition, students must meet the requirements specified in the following categories:

	Required Credit Hours
THE COLLEGE EXPERIENCE

Licensure Information - Emergency Medical Services

National Certification

All students in the EMS programs are trained to the current national EMS standards. At the completion of the course each student will be eligible to sit for a National Register of EMT's certification exam. Successful completion of that exam will allow for reciprocity to any state.

State Licensure

Please visit the [State EMS Agency Map](#) on the NREMT.org website.

SCC makes every effort to verify the information provided on requirements for licensure is accurate and up-to-date, however, these requirements are subject to change at any time. Students who will be seeking licensure are strongly encouraged to review the licensure or certification requirements at the appropriate website, linked below where available, for the state in which they intend to practice.

Southeastern Community College has determined its curriculum meets the state educational requirements for licensure in the following states:

Iowa	Illinois	Missouri
Alabama	Maine	Ohio
Alaska	Maryland	Oklahoma
Arizona	Massachusetts	Oregon
Arkansas	Michigan	Pennsylvania
California	Minnesota	Rhode Island
Colorado	Mississippi	South Carolina
Connecticut	Montana	South Dakota
Delaware	Nebraska	Tennessee

Indiana	New York	Washington
Kansas	North Carolina	West Virginia
Kentucky	North Dakota	Wisconsin
Louisiana		Wyoming
American Samoa	Guam	Puerto Rico
District of Columbia (Washington DC)	Northern Mariana Islands	US Virgin Islands

Medical assistants in Iowa are not required to possess a certification, registration, or license to work as a medical assistant.

While the state does not require a license or certification, you may need to obtain certification to get a job as a medical assistant or to get a promotion in medical assisting. You can obtain certification as a medical assistant from either the American Associate of Medical Assistants (AAMA) or the American Medical Technologists (AMT). To get the credential, in most circumstances, you will have to attend a school that is accredited in medical assisting. The courses at these schools will qualify you to take either the Certified Medical Assistant (CMA) exam or the Register Medical Assistant (RMA) exam. Obtaining the CMA or RMA credential will provide employers with proof of having obtained skills at the nationally accepted standard level.

Visit [tests.com](https://www.tests.com) for [Information to become Certified/Registered](#) as a Medical Assistant. Tests.com also has a [Medical Assistant Practice Exam](#) to help you study.

In Iowa, there is no governing body that oversees medical assistant. It is up to the individual employers to ensure their medical assistant hires are capable of performing the job.

Licensure Information - Nurse Aide

The Nurse Aide Certificate (CNA) program prepares the student in basic patient care and to provide physical support to assist patients with daily living activities, and how to assist nurses and other health care professionals in settings including care facilities, nursing home, private homes, and more.

The CNA program is approved by the Iowa Department of Inspections and Appeals. Upon successful complete of the Nurse Aide course, students are eligible to take the Iowa skills and written exam. Upon successful completion of the course and the Iowa skills and written exam, students are placed in the Iowa Direct Care Worker Registry.

The CNA program is approved in Iowa. CNA's from other states that wish to apply to be on the Iowa Direct Care Worker Registry must [apply online for registration](#).

Licensure Information - Respiratory Care

SCC's Respiratory Care program was created to meet the need for respiratory care professionals locally and in the surrounding communities.

The Southeastern Community College Respiratory Care Program, CoARC #200462, located in West Burlington, Iowa offers and Associate of Applied Science Degree and is accredited by the Commission on Accreditation for Respiratory Care (www.coarc.com). The Iowa Board of Respiratory Care and Polysomnography evaluates the qualifications of applicants for licensure and grants licenses to those who qualify. The Board establishes rules and regulations to ensure the integrity and competence of licensed respiratory care practitioners and investigates complaints for unprofessional conduct. The Board is the link between the consumer and the licensed respiratory care practitioner and, as such, promotes the public health, welfare, and safety. Licensees are responsible for meeting all licensure requirement and should review the rules carefully and frequently.

Programmatic Accreditation: The Associate of Applied Science in Respiratory Care program (200462) is accredited by the Commission on Accreditation for Respiratory Care (CoARC). Please review the [programmatic outcomes](#).

National Credentialing

Upon successful completion of the CoARC approved A.A.S. Respiratory Care program, students are eligible to apply for the credentialing exams offered by the National Board for Respiratory Care (NBRC). Successful candidates earn the Registered Respiratory Therapist (RRT) credential.

State Licensure

SCC makes every effort to verify the information provided on requirements for licensure is accurate and up-to-date, however, these requirements are subject to change at any time. Students who will be seeking licensure are strongly encouraged to review the licensure or certification requirements at the appropriate website, linked below where available, for the state in which they intend to practice.

Automotive Technology - Automotive Mechanics

Diploma

The Automotive Technology program is an Automotive Service Excellence (ASE) certified program. This certification assures the student that the program meets the standards set by National Automotive Technicians Education Foundation (NATEF) regarding equipment, tools, scheduling, instructors and curriculum.

In order for a technician to become ASE certified, they must have two years experience in addition to passing tests in the various areas of automotive repair. However, by attending the SCC Automotive Technology program, students may take these tests at any time during their education. If a student passes these tests, they will become ASE certified pro-tem upon graduation. After just one year of experience in the field, they become officially ASE certified.

The **Automotive Technology AAS** is awarded after successful completion of two full years.

*Diploma can be earned one time.

Please view the [technical standards](#) for this course.

Automotive Collision Repair and Refinish Technology

- Auto Body Diploma

The Automotive Collision Repair and Refinish Technology Associate of Applied Science program combines state-of-the-art equipment with an Inter-Industry Conference on Auto Collision Repair (I-CAR) curriculum, equipping students with the technical and professional skills required to pursue a career in the ever-changing collision repair industry. I-CAR techniques and procedures are the industry standard for collision repair professionals. Students will gain hands-on technical experience in SCC's state-of-the-art lab facility. Students will use the latest tools and equipment to perform repair methods related to mechanical, electrical, refinishing, structural, non-structural and calibration.

After successful completion of the first two semesters, students will earn the Automotive Collision Repair and Refinish Diploma. Students will complete an internship with an industry partner where the student will have the opportunity to apply the technical training and theory instruction in an automotive collision repair or related industry setting.

This program may equip students with numerous industry-recognized certifications including:

- I-CAR Pro-Level 1, 2, and 3 Non-Structural Certification
- I-CAR Pro-Level 1, 2, and 3 Refinishing
- I-CAR Pro-Level 1 Structural
- ASE Student Certifications
- S/P2 Lift Safety
- S/P2 Collision Repair and Refinish Safety
- S/P2 Collision Repair and Refinish Pollution Prevention
- National Emission Standards for Hazardous Air Pollutants (NESHAP)
- Other Manufacturer Specific Certifications

Automotive Collision Repair and Refinish Technology

- AAS

The Automotive Collision Repair and Refinish Technology Associate of Applied Science program combines state-of-the-art equipment with an Inter-Industry Conference on Auto Collision Repair (I-CAR) curriculum, equipping students with the technical and professional skills required to pursue a career in the ever-changing collision repair industry. I-CAR techniques and procedures are the industry standard for collision repair professionals. Students will gain hands-on technical experience in SCC's state-of-the-art lab facility. Students will use the latest tools and equipment to perform repair methods related to mechanical, electrical, refinishing, structural, non-structural and calibration.

After successful completion of the first two semesters, students will earn the [Automotive Collision Repair and Refinish Diploma](#). Students will complete an internship with an industry partner where the student will have the opportunity to apply the technical training and theory instruction in an automotive collision repair or related industry setting.

This program may equip students with numerous industry-recognized certifications including:

- I-CAR Pro-level 1,2 and 3 Non-Structural Certification
- I-CAR Pro-Level 1,2 and 3 Refinishing
- I-CAR Pro-Level 1 Structural
- ASE Student Certifications
- S/P2 Lift Safety
- S/P2 Collision Repair and Refinish Safety
- S/P2 Collision Repair and Refinish Pollution Prevention
- National Emission Standards for Hazardous Air Pollutants (NESHAP)
- Other Manufacturer Specific Certifications

Please view the [technical standards](#) for this course.

Construction Technology: Carpentry Emphasis - Building Construction Certificate

The Construction Technology – Carpentry program combines the National Center for Construction Education and Research (NCCER) curricula with the Associate of Applied Science degree requirements, meshing illustrated instructional material with structured classroom activities.

This program emphasizes four levels of carpentry, with each building on the previous level. During the summer term between the students' first and second year, a paid internship is required, giving students real-world experience with a local construction company.

*Certificate can be earned one time.

Healthcare Technology Management - Diploma

The Healthcare Technology Management program will prepare students to seek a variety of entry-level positions in the biomedical and healthcare technology management industry. Students will engage in coursework related to biomedical information systems, electronics, networking, troubleshooting, digital and mechanical systems, database fundamentals, and safety and compliance. An emphasis on medical applications, operations, and procedures is embedded within the various program courses. The program includes instruction in instrument calibration, design, installation, and testing, as well as safety, maintenance, and equipment repair procedures. Students will garner the skills and working knowledge to perform medical equipment maintenance services characterized by repair or module replacement; repair of general medical equipment malfunctions; adjustment of medical equipment utilizing common and special purpose tools and electronic test equipment; conduct preventive maintenance checks and services; and conduct calibration, verification, certification and electrical safety tests. Students will be placed in an internship where they will be able to apply all of the skills learned throughout the duration of the program.

Students who complete the two-year program will complete a certification course that will prepare them for the Certified Associate in Biomedical Technology (CABT) credential.

The Healthcare Technology Management Diploma will be earned after a student completes the first two semesters of the program.

Industrial Controls, Automation, and Robotics Technology - Basic Electrical Maintenance Certificate

The Industrial Controls, Automation, and Robotics Technology pathway provides students with technical skills in maintaining and troubleshooting electrical and mechanical systems used in the industry. Mechanical and electrical theory are covered throughout the program, including how to troubleshoot and repair industrial systems. Instruction is delivered in a format designed for flexibility and customization based upon the desired career path of each individual student.

The [Basic Electrical Maintenance Certificate](#) is awarded after successful completion of this course and is taught in the Fall semester.

The [Electrical Maintenance Technology Diploma](#) is awarded after successful completion the certificate course above.

*Certificates and diploma can be earned one time.

Industrial Controls, Automation, and Robotics Technology - AAS

The Industrial Automation, Controls, and Robotics Technology program provides students with technical skills in maintaining and troubleshooting electrical and mechanical systems used in the industry. Mechanical and electrical theory are covered throughout the program, including how to troubleshoot and repair industrial systems. Instruction is delivered in an open lab format designed to be flexible and accommodating. This program is designed to prepare technicians to troubleshoot, repair, and service computerized control systems and robotic devices in manufacturing environments. Students will gain knowledge and apply skills in advanced electrical, electronic, and robotics systems. Students will apply networking skills, integral to working with automated equipment, encompassing robotic components, sensors, controllers and computers to support autonomous work.

The [Basic Electrical Maintenance Certificate](#) is awarded after successful completion of first semester courses.

Welding - Basic Welding Processes Certificate

The Welding program is designed to give students a solid foundation in the principles, practices and usage of both gas and electric welding in the industrial setting. Students get ample practice in welding skills, brazing and flame cutting. Instruction emphasizes production fabrication techniques, maintenance and repair procedures, blueprint reading, properties of metals and inspection methods, among other aspects of the welding trade.

SCC is an accredited American Welding Society (AWS) testing facility. Students will have the opportunity to obtain AWS Certifications.

There are several levels of welding certificates, a diploma and an associates of applied science degree. See the links below for details.

The [Basic Welding Processes certificate](#) is awarded after successful completion of WEL-111, WEL-160, WEL-186 and WEL-192.

The [Advanced Welding Processes certificate](#) is awarded after earning the Basic Welding Processes certificate and successful completion of WEL-130, WEL-164, WEL-172, WEL-197 and MAT-702.

The [Welding diploma](#) is awarded after successful completion of the first two semesters. (This is equivalent to the Advanced Welding Processes certificate and successful completion of ENG-110.)

The [Advanced Manufacturing Welding Processes certificate](#) is awarded after earning both Welding Processes certificates and successful completion of WEL-182, WEL-198, WEL-292, WEL-235 and WEL-720.

The [Welding AAS degree](#) is awarded after successful completion of all five semesters.

*Certificates and diploma can be earned one time.

Please view the [technical standards](#) for this course.

Welding - Advanced Manufacturing Welding Processes Certificate

The Welding program is designed to give students a solid foundation in the principles, practices and usage of both gas and electric welding in the industrial setting. Students get ample practice in welding skills, brazing and flame cutting. Instruction emphasizes production fabrication techniques, maintenance and repair procedures, blueprint reading, properties of metals and inspection methods, among other aspects of the welding trade.

SCC is an accredited American Welding Society (AWS) testing facility. Students will have the opportunity to obtain AWS Certifications.

There are several levels of welding certificates, a diploma and an associates of applied science degree. See the links below for details.

The [Basic Welding Processes certificate](#) is awarded after successful completion of WEL-111, WEL-160, WEL-186 and WEL-192.

The [Advanced Welding Processes certificate](#) is awarded after earning the Basic Welding Processes certificate and successful completion of WEL-130, WEL-164, WEL-172, WEL-197 and MAT-702.

- Secondary Education Transfer Major: AA
- Social Work Transfer Major: AA
- Sociology Transfer Major: AA

Criminal Justice Transfer Major - AA

The Criminal Justice Transfer Major is designed to prepare students for careers in several areas of the administration of justice. Program graduates find jobs with local police departments, sheriff's offices, the state highway patrol, federal/state narcotics agencies, correctional institutions and state and local probation and parole agencies.

NOTE: Students who have a criminal background history may complete the program. However, these students will have serious difficulty obtaining an internship or employment.

SCC has established 2+2 articulation agreements with four-year institutions for this transfer major. Depending upon where you want to transfer, your SCC coursework may differ from the sample given. Contact your enrollment specialist to explore which courses you should take.

*Students enrolled in the online program will make the following substitutions during Fall Semester II:

- CRJ-133 for CRJ-132
- SOC-212 for HUM-114

The following courses are required for the Criminal Justice Transfer Major: CRJ-100, CRJ-120, CRJ-130, CRJ-132, CRJ-141, SOC-110, SOC-240, MAT-156, POL-111 SOC-230, HUM-114, PSY-111, SCI-123, SDV-108, ENG-105, and ENG-106. The other courses are suggested and may be substituted; please consult with a Student Success Advocate.

Early Childhood Education - AAS

The Early Childhood Education program is designed to prepare students to secure one of the many careers available in early childhood education. Graduates of the program may work with children from birth to eight years of age in a variety of settings such as child care centers, preschools, child development homes, or public and private schools. Students may elect to complete either the Educator Licensure/Transfer Pathway or the Child Care Management Pathway of the Early Childhood Education AAS. Students who intend to teach in a Pre-K through third-grade setting will need to transfer to a teacher licensure institution. In addition, this program addresses the competencies and functional areas necessary for students to begin the assessment and testing process for the Child Development Associate (CDA) Credential administered by the Council for Early Childhood Professional Recognition. See http://www.cdacouncil.org/storage/documents/TransitionGuide_1-3-13.pdf for additional CDA Credential requirements by the Council.

Students who successfully complete ECE-103, ECE-133, ECE-243, and either ECE-221, ECE-158, or ECE-159 will be equipped with the competencies and functional areas necessary to pursue the CDA Credential.

The [Child Development-Infant/Toddler certificate](#) is awarded to students who successfully complete SDV-108, ECE-103, ECE-133, ECE-221, ECE-170, and ECE-243.

The [Child Development-Preschool certificate](#) is awarded to students who successfully complete SDV-108, ECE-103, ECE-133, ECE-158, ECE-170, and ECE-243.

The [Parent Educator certificate](#) is awarded to students who successfully complete ECE-103, ECE-170, and ECE-123.

The [Early Childhood Education diploma](#) is awarded to students who successfully complete the first year of the program.

Early Childhood Education: Childcare Management Pathway - Diploma

The Child Care Management Pathway of the Early Childhood Education Associate of Applied Science Degree is designed to address the National Association for the Education of Young Children (NAEYC) competencies so students will be prepared to work in licensed and accredited child care centers or pre-school settings. Students may work in a management capacity as well as the courses will prepare them for the administrative functions of managing a child care facility.

This Pathway will expose students to classroom settings and content related to curriculum design; child health, safety and nutrition; community organizations and resources; strategies to build relationships with parents and students; program administration and management; and child development.

Students who successfully complete ECE-103, ECE-133, ECE-243, and either ECE-221, ECE-158, or ECE-159 will be equipped with the competencies and functional areas necessary to pursue the CDA Credential.

Students who successfully complete SDV-108, ECE-103, ECE-133, ECE-221, ECE-170, and ECE-243 will be awarded the [Child Development-Infant/Toddler Certificate](#).

Students who successfully complete SDV-108, ECE-103, ECE-133, ECE-158, ECE-170, and ECE-243 will be awarded the [Child Development-Preschool Certificate](#).

Students who successfully complete ECE-103, ECE-170, and ECE-123 will be awarded the [Parent Educator Certificate](#).

Early Childhood Education - Bridge to Educator Licensure

The Early Childhood Education Bridge to Licensure will allow a student who completes the [Early Childhood Education - Child Care Management Pathway](#) an opportunity to complete additional general education courses that will then allow a student to continue onto a university to complete a baccalaureate degree resulting in educator licensure. The Bridge may be taken simultaneously to enrollment in the Pathway, or the courses may be taken after completion of the Pathway. An articulation agreement has been established to ensure a smooth transfer to Iowa Wesleyan into the Elementary Education Teacher Education Program.

Early Childhood Education: Educator Licensure/ Transfer Pathway - Diploma

The [Early Childhood Education](#) program is designed to prepare students to secure one of the many careers available in early childhood education. Graduates of the program may work with children from birth to eight years of age in a variety of settings such as childcare centers, preschools, child development homes, or public and private schools. Students may elect to complete the Educator Licensure/Transfer Pathway of the Early Childhood Education AAS. Students who intend to teach in a Pre-K through third-grade setting will need to transfer to a teacher licensure institution. In addition, this program addresses the competencies and functional areas necessary for students to begin the assessment and testing process for the Child Development Associate (CDA) Credential administered by the Council for Early Childhood Professional Recognition. See http://www.cdacouncil.org/storage/documents/TransitionGuide_1-3-13.pdf for additional CDA Credential requirements by the Council.

Students who successfully complete ECE-103, ECE-133, ECE-243, and either ECE-221, ECE-158, or ECE-159 will be equipped with the competencies and functional areas necessary to pursue the CDA Credential.

*Diploma can be earned one time.

Elementary Education Transfer Major - AA

The Elementary Education AA degree transfer major prepares students with a foundation in education principles, theory and practice, and exposes them to complex problems and relations in the field of education. Teachers play an essential role in fostering the intellectual and social development of children in their formative years. Using a variety of active learning approaches, teachers help students understand abstract principles, solve problems and develop critical thought process. Teaching grades K-6 educators provide the tools and the environment for their students to develop into responsible citizens.

All students must clear a background check to be enrolled in education classes.

This degree is designed for students to complete the first two years of a four-year teaching degree program, earning their Associate of Arts. Students then transfer to an accredited teacher's education program at a public or private four-year college or university.

Accounting: Certificate, Diploma, and AAS

Love working with numbers? Possess solid organizational skills? Get confident running balance sheets, financial statements, income tax analyses and cost accounting with SCC's Accounting program.

[Accounting Certificate](#)
[Accounting Diploma](#)

Business Administration - AAS

The Business Administration program is designed for students who wish to specialize in business, entrepreneurial, or sport management careers. Choose from four pathways: [Business Office Management](#), [Entrepreneurship](#), [Legal Office Management](#), or [Sport Management](#). Each pathway is supported by coursework that offers skills and hands-on training in the chosen field. Topics include leadership, teamwork, communication, social media, event management, and developing your professional image.

Diploma and certificate options are available and can be earned separately or in conjunction with this AAS degree. You also have the opportunity to participate in Business Professionals of America with the chance to attend state and national conferences.

[Office Technology certificate](#) awarded after ADM-103, ADM-117, ADM-181, SMM-108.

[Office Support certificate](#) awarded after ADM-120, ADM-162, ADM-181, ADM-230.

[Office Professional diploma](#) awarded after completion of all courses listed in Fall I and Spring I of [Business Office Management](#) or [Legal Office Management](#) pathway.

[Management & Leadership Development certificate](#) awarded after ADM-188, BUS-131, MGT-170, SOC-114.

[Selling Strategies certificate](#) awarded after MKT-110, BUS-180, MKT-140, SMM-108.

[Small Business Startup certificate](#) awarded after BUS-135, BUS-138, BUS-150, SMM-108.

*Certificates can only be earned one time.

Business Administration - Business Office Management Pathway: AAS

The Business Office Management Pathway includes a strong foundation of business-focused courses and other career topics including leadership, computer applications, communication, teamwork, project development, social media, and developing your professional image.

Coursework in this option prepares you for Microsoft Office Specialist® certification. You also have the opportunity to participate in Business Professionals of America with the chance to attend state and national conferences.

[Office Technology certificate](#) awarded after ADM-103, ADM-117, ADM-181, SMM-108.

[Office Support certificate](#) awarded after ADM-120, ADM-162, ADM-181, ADM-230.

[Office Professional diploma](#) awarded after completion of all courses listed in Fall I and Spring I of [Business Office Management](#) or [Legal Office Management](#) pathway.

Business Administration Entrepreneurship Pathway - AAS

The Entrepreneurship Pathway of the Business Administration AAS includes courses that will expose students to the foundations of entrepreneurship. Entrepreneurship is the engine that drives the US economy, and every business was started by an entrepreneur. Whether your goal is to start a restaurant, accounting firm, or the next big on line social media blockbuster, this program is for you. Learn what it takes to be an entrepreneur, how to finance your startup, develop your business plan, and increase your chances for success.

[Management & Leadership Development certificate](#) awarded after ADM-188, BUS-131, MGT-170, SOC-114.

[Selling Strategies certificate](#) awarded after MKT-110, BUS-180, MKT-140, SMM-108.

[Small Business Startup certificate](#) awarded after BUS-135, BUS-138, BUS-150, SMM-108.

Business Administration - Legal Office Management Pathway: AAS

The Legal Office Management Pathway includes a strong foundation of legal specialty courses and other career topics including leadership, computer applications, communication, teamwork, project development, social media, and developing your professional image.

Coursework in this option prepares you for Microsoft Office Specialist® certification. You also have the opportunity to

participate in Business Professionals of America with the chance to attend state and national conferences.

Office Technology certificate awarded after ADM-103, ADM-117, ADM-181, SMM-108.

Office Support certificate awarded after ADM-120, ADM-162, ADM-181, ADM-230.

Office Professional diploma awarded after completion of all courses listed in Fall I and Spring I of Business Office Management or Legal Office Management pathway.

Business Administration - Sport Management Pathway: AAS
The Sport Management Pathway of the Business Administration Associate of Applied Science degree will provide students with the training necessary for one of many careers in the rapidly growing sport and recreation industry. This program will prepare students to work with professional teams, marketing firms, finances, colleges and universities, community recreation departments, health clubs, and fitness centers. Students will complete an internship where students will experience the sport industry firsthand through engaging with these work-based learning opportunities. Students will be placed with local, regional, or national organizations within the sport industry and gain real world experience to apply to their future careers. Students will complete the courses required to apply to the Board of Educational Examiners to obtain the Iowa Coaching Authorization which will allow an individual to serve as a coach within the public school setting of Iowa. These courses include PEC-101, PEC-116, PET-105, and PEC-120.

Business Transfer Major: AA

Looking to transfer to a four-year institution majoring in Business? Read more about our Business Transfer Major.

Accounting - Certificate

The Accounting program is designed to provide students with the necessary knowledge and skills for entry-level accounting positions. The program will also take the student through balance sheets, financial statements, income tax analysis and cost accounting.

This program is offered in West Burlington, Keokuk, and online. Keokuk students will be required to enroll in courses at either the West Burlington campus, online, or both to complete this program.

The Accounting certificate is awarded after successful completion of first semester courses.

*Certificate can be earned one time.

Accounting - Accounting Assistant Diploma

The Accounting program is designed to provide students with the necessary knowledge and skills for entry-level accounting positions. The program will also take the student through balance sheets, financial statements, income tax analysis and cost accounting.

The second year of the Accounting program is comprised of advanced level courses to increase the skill level of the student and thus contribute to potentially more rapid advancement upon employment.

This program is offered in West Burlington, Keokuk, and online. Keokuk students will be required to enroll in courses at either the West Burlington campus, online, or both to complete this program.

The [Accounting certificate](#) is awarded after successful completion of first semester courses.

The Accounting Assistant diploma is awarded after successful completion of the first and second semester courses.

*Certificate and diploma can be earned one time.

Business Administration: Sport Management Pathway

- AAS

The Sport Management Pathway of the Business Administration Associate of Applied Science degree will provide students with the training necessary for one of many careers in the rapidly growing sport and recreation industry. This program will prepare students to work with professional teams, marketing firms, finances, colleges and universities, community recreation departments, health clubs and fitness centers. Students will complete an internship where students will experience the sport industry firsthand through engaging with these work-based learning opportunities. Students will be placed with local, regional, or national organizations within the sport industry and gain real world experience to apply to their future careers.

Business Administration - Office Professional Diploma

The Business Administration program is designed for students who wish to specialize in business, entrepreneurial, or sport management careers. Choose from four pathways: Business Office Management, Entrepreneurship, Legal Office Management, or Sport Management. Each pathway is supported by coursework that offers skills and hands-on training in the chosen field. Topics include leadership, teamwork, communication, social media, event management and developing your professional image.

Diploma and certificate options are available and can be earned separately or in conjunction with this AAS degree. You also have the opportunity to participate in Business Professionals of America with the chance to attend state and national conferences.

Office Professional diploma awarded after completion of all courses listed in Fall 1 and Spring 1 of Business Office Management or Legal Office Management pathway.

*Certificates and diploma can be earned one time.

Business Administration - Office Support Certificate

The Office Support Certificate provides students with an entry-level skill set related to the functions of an office setting. Students will learn necessary keyboarding skills and the proper use of various computer programs critical to a career in business. Students will have the opportunity to job shadow various positions within different business settings so they may gain real-life exposure to the career opportunities available to them upon completion of their program of study.

Students enrolled in the ESL Pathway will learn critical English-speaking skills in addition to the technical skills needed for successful entry into the workplace.

Students enrolled in the Professional Pathway will learn more advanced technical skills related to the functions of an office setting. Coursework in this option prepares you for Microsoft Office Specialist® certification. You also have the opportunity to participate in Business Professionals of America with the chance to attend state and national conferences.

Office Support certificate awarded after CSC-110, ADM-117, ADM-120 or ESL-105, ADM-162, ADM-181 or ESL-102, ADM-230 or ESL-108, WBL-155.

*Certificates can be earned one time.

Animation for Television, Film, and New Media - AAS

The Animation for Television, Film, and New Media program will prepare students to enter into a wide variety of careers in computer generated animation for the information, entertainment, gaming and film industries.

Students will use state-of-the-art technology in SCC's Animation Lab located on the West Burlington campus.

The program will prepare students with instruction related to the fundamentals of film, art, computers and new media communications. Skills in storytelling, 3-D animation, production, modeling, texturing, rendering and lighting, motion graphics, stop motion, technical and character animation and demo reels will be emphasized.

This broad-based instructional program will also feature training in a number of industry-specific software applications, including Toon Boom Harmony, Photoshop, Blender, Maya, 3DS Max, ZBrush, Substance Painter, Premiere Pro and After Effects.

Fine Arts Transfer Major - AA

The Fine Arts Transfer Major prepares students who plan to transfer to a four-year college to earn a degree in the visual arts. Students take core drawing and design courses and can choose from a painting or a photography path. Students interested in this program should possess a strong interest in the visual world and a desire to produce art work using traditional as well as non-traditional media as modes for self-expression. Fine Arts majors with a bachelor's degree may find careers in design, illustration, recreational therapy, and teaching at art centers and private studios. As well as Studio Technicians, Arts administration, Art history, Arts education, Design 3d/2d, Fine art/Studio art, Media arts, Architecture, or will use this path to seek an MA or MFA degree.

Music Transfer Interest

A.A. students with a Music Transfer Interest enroll in a mix of humanities requirements, core music coursework, and music electives. Classes focus on vocal and instrumental music, music history, and music theory. This Transfer Interest prepares students to transfer to study music education, business, therapy, media, or performance. Upon graduation students should expect to enter a 4-year program as a junior.

Exercise Science and Kinesiology Transfer Major - AA

The Exercise Science and Kinesiology Transfer Major Associate of Arts Degree and Associate of Science Degree are designed for students transferring to Iowa Regents Universities to study a variety of related undergraduate majors.

Students who pursue this major will have the opportunity to learn the necessary content and skills for upper-level classes at the transfer institution and to be successful in their desired field after graduation.

Possible undergraduate majors and Bachelor's degree options:

- Athletic Training
- Diet and Exercise
- Exercise Science
- Exercise Trainer/Fitness Trainer
- Kinesiology
- Health and Human Performance
- Nutrition
- Public Health and Wellness
- Strength and Conditioning
- Athletic Coach/Scout
- Health Education Specialist

Students should become familiar with the specific course requirements of the four-year institution to which they plan to transfer as institutions vary.

The following courses are required for the Exercise Science Associate of Arts Transfer Major: BIO-151, BIO-168, BIO-173, MAT-156, BIO-105, PHY-162, SDV-108, ENG-105, and ENG-106. The other courses are suggested and may be substituted; please consult with a Student Success Advocate.

Medical Assistant - Diploma

Admissions standards apply to this program. Please contact the Student Support Center for more details.

Admission Requirements

- Complete and attain minimums in standardized scores within 24 months of review for acceptance into the program:
 - ACT
 - Reading: 19
 - Math: 19
 - SAT
 - Reading/Writing: 330
 - Math: 510
 - Next-Gen ACCUPLACER:
 - Reading: 248
 - ALEKS:
 - Math: 14

Additional Requirements

- Pre-Requisite: BIO-163; Essentials of Anatomy and Physiology.
- Students will be required to pass a mandatory background check.
- Students will be required to submit (at their own expense) a completed physical examination form and immunizations for health care providers.
- Current certification in CPR-Basic Life Support for Healthcare Providers**.
- Current certification in Mandatory Reporter-Adult & Child Abuse**.
- Satisfy "Essential Functions" guidelines.
- Return of Handbook consent forms as directed in orientation.

**Certifications may be obtained at Southeastern Community College. Students should work with a Student Success Advocate for the appropriate courses and dates to obtain these certifications.

All health career programs require students to earn a grade of "C" (2.0) or above in all coursework within the program. All other eligibility requirements must be met.

Medical Coding and Billing - Medical Billing Certificate

Our medical coding and billing program provides the latest information related to medical coding, chart auditing and insurance reimbursement. Students in our medical coding classes learn the theory of medical coding, gain an understanding of medical coding fundamentals and incorporate this by using a laboratory practicum to work medical coding reports. Admissions standards apply to this program. Please contact the Student Support Center for more details.

Admission Requirements

- Complete and attain minimums in standardized scores within 24 months of review for acceptance into the program:
 - ACT
 - Reading: 19
 - Math: 19
 - SAT
 - Reading/Writing: 330
 - Math: 510
 - Next-Gen ACCUPLACER:
 - Reading: 248
 - ALEKS:
 - Math: 14

The students will be trained in ICD-10, CPT and HCPCS coding language. The medical billing and coding field continues to grow as new government regulations influence physician reimbursement.

*Certificate can be earned one time.

For specific information regarding program rules and expectations, please view the [Medical Coding and Billing Handbook](#).

Medical Coding and Billing - Patient Access Associate Certificate

The Patient Access Associate program prepares students for the front line of healthcare services for patients entering a hospital or clinic. Students will learn customer service skills, medical terminology, registration and scheduling skills, specifics of revenue cycle, and use of electronic health records, HIPAA training and other standards of care, and different types of insurance offerings. The Patient Access Associate will assist patients to effectively navigate health appointments with providers or services. Upon successful completion of the four courses contained in the program the student will earn the Patient Access Associate Certificate.

Nurse Aide - Certificate

This course is comprised of the state approved curriculum and laboratory module with the skills component. The class includes 32 hours of clinical training in a long-term care facility, 20 lab hours and 36 hours lecture. Students must attend a minimum of 30 clinical hours and 15 lab hours in order to pass the class. The course also includes a module on confidentiality, professionalism and communications. Clinical schedule will be arranged by the instructor and dates given to the students on the first day of class and may include weekend hours.

The application packet provides an overview of requirements, checklist, and other information.

Agriculture, Modern Food Production and the Environment - Modern Food Production Certificate

The Agriculture, Modern Food Production, and the Environment program provides students with the opportunity to prepare for a lifetime of learning through classroom and internship positions limited only by students' initiative and imagination. This program prepares students to serve the food production and processing industries through operation of feed mills, fertilizer plants, elevators, retail farm supply stores, and farm equipment dealers. The program is also designed to provide improved skills in the areas of crop and livestock production, agriculture equipment and farm business management.

Students may choose to pursue the Pathway most relevant to their desired career. Pathways include Agriculture Business, Agronomy and Row Crop Operations, Animal Science, Conservation and Natural Resources, and Specialty Crop.

In Spring I semester students must take at least 9 credit hours from the elective grouping AGA-376, AGB-331, AGC-420, AGS-225, and AGS-226.

In Fall II semester, students must take at least 6 credit hours from the elective grouping AGA-158, AGB-437, DRF-113, AGN-130, AGB-466, AGC-936, AGS-270, AGS-319, AGT-250, and AGS-331.

In Spring II semester, students must take eight to nine credit hours from the elective grouping AGB-451, AGM-155, AGM-203, AGP-333, AGN-244, AGS-216, AGS-242, and PHS-165 and two courses from the elective grouping ECN-130, PSY-111, HUM-287, and SOC-114.

The Modern Food Production Certificate is awarded after successful completion of first semester courses.

The Agriculture, Modern Food Production and The Environment Diploma is awarded after successful completion of the first two semesters.

*Modern Food Production certificate can be earned one time.

*The Agriculture, Modern Food Production and the Environment diploma can be earned one time.

Agriculture, Modern Food Production and the Environment - Diploma

The Agriculture, Modern Food Production, and the Environment program provides students with the opportunity to prepare for a lifetime of learning through classroom and internship positions limited only by students' initiative and imagination. This program prepares students to serve the food production and processing industries through operation of feed mills, fertilizer plants, elevators, retail farm supply stores and farm equipment dealers. The program is also designed to provide improved skills in the areas of crop and livestock production, agriculture equipment and farm business management.

Students may choose to pursue the Pathway most relevant to their desired career. Pathways include Agriculture Business, Agronomy and Row Crop Operations, Animal Science, Conservation and Natural Resources, and Specialty Crop.

In Spring I semester students must take at least 9 credit hours from the elective grouping AGA-376, AGB-331, AGC-420, AGS-225, and AGS-226.

In Fall II semester, students must take at least 6 credit hours from the elective grouping AGA-158, AGB-437, DRF-113, AGN-130, AGB-466, AGC-936, AGS-270, AGS-319, AGT-250, and AGS-331.

In Spring II semester, students must take eight to nine credit hours from the elective grouping AGB-451, AGM-155, AGM-203, AGP-333, AGN-244, AGS-216, AGS-242, and PHS-165 and two courses from the elective grouping ECN-130, PSY-111, HUM-287, and SOC-114.

The [Modern Food Production Certificate](#) is awarded after successful completion of first semester courses.

The Agriculture, Modern Food Production and The Environment Diploma is awarded after successful completion of the first two semesters.

*Modern Food Production certificate can be earned one time.

*Modern Food Production diploma can be earned one time.

Computer Aided Design Technology: Career Pathway - AAS

The Computer Aided Design (CAD) program provides students with the skills necessary to create detailed product and assembly drawings, as well as architectural blueprints. Students learn the process of visualizing and developing models in two and three dimensional environments. Several software programs are introduced and used to provide students with hands-on experiences with the tools utilized in the workforce. Students will earn an OSHA 10 General Industry credential upon completion of the first semester of the program.

Students may choose between two pathways in the CAD program: Career Pathway or Transfer Pathway.

The Career Pathway provides students with the skill set needed to go directly into the industry. Students are introduced to the CAD field during their internship. Successful completion of the CAD AAS program prepares the student for their full-time career.

Please view the [technical standards](#) for this course.

Computer Aided Design Technology - AAS

The Computer Aided Design (CAD) program provides students with the skills necessary to create detailed product and assembly drawings, as well as architectural blueprints. Students learn the process of visualizing and developing models in two and three dimensional environments. Several software programs are introduced and used to provide students with hands-on experiences with the tools utilized in the workforce. Students will earn an OSHA 10 General Industry credential upon completion of the first semester of the program.

Students may choose between two pathways in the CAD program: Career Pathway or Transfer Pathway.

The Career Pathway provides students with the skill set needed to go directly into the industry. Students are introduced to the CAD field during their internship. Successful completion of the CAD AAS program prepares the student for their full-time career.

The Transfer Pathway provides students with the education and technical skills and hands-on training needed to transfer to a four-year university for an advanced degree.

In Fall I semester, students have the option of taking MAT-120 and MAT-134 together, or MAT-702.

Please view the [technical standards](#) for this course.

Engineering Transfer Major - AS

The Engineering Transfer Major prepares students who plan to transfer to a four-year college to earn a degree in an engineering field. Students take core courses in math, science, and computer programming. Students interested in this transfer major should possess an interest in applying problem-solving skills in real world settings. Students may subsequently pursue four-year degrees in a variety of engineering fields, including mechanical engineering, electrical engineering, civil engineering, and aerospace engineering. Engineering majors with a bachelor's degree may find engineering careers in a variety of industries, such as computer hardware, transportation, and infrastructure. They may also find employment in industrial design.

Information Technology Management - IT Technician Diploma

This program offers hands-on experience and practical application of installation maintenance and administration of computer networks in a business atmosphere. Students will spend time working on how to manage a department, including create a budget, handling conflicts and managing projects.

Students graduating from this program should be capable of managing a department and have excellent IT skills. Students will also take the CompTIA IT Fundamentals Certification at the end of the Spring I semester.

The IT Technician Diploma is awarded after successful completion of the second semester.

*Diploma can be earned one time.

Southeastern Community College values diversity in all its forms. Please visit <https://www.scciowa.edu/non-discrimination-statement.aspx> to view our non-discrimination statement. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit SCC's financial aid website at <http://www.scciowa.edu/admissions/costaid/finaid/gainemp.aspx>

Course Descriptions

A brief narrative description of each course offered by Southeastern Community College is found in this section. Descriptions also contain the course number, course title, number of lecture and laboratory hours, and the number of semester hours of credit granted upon successful completion of each course.

The Iowa community colleges have developed a systematic numbering system for all the credit courses they offer. The goal of this common course numbering system is to facilitate transfer and articulation processes for community college students in Iowa.

ABC Discipline Prefix of Program or Subject 123

- 000-099-Developmental courses.
- 100-899-Courses intended to meet specific requirements for certificates, diplomas, and degrees in career and technical and transfer programs.
- 900-999-Generic focus courses such as special topics, OJT, internships.

Course Prerequisites

The instructor of any course (other than health careers classes and ENG-105) may waive any stated prerequisite of the course when, in the judgment of the instructor, the student can demonstrate sufficient evidence to justify enrollment.

Course Offerings

If there is sufficient demand, courses may be offered more frequently than announced. Insufficient demand or unforeseen staffing problems may result in the cancellation of announced offerings. Southeastern Community College reserves the right to alter the course offerings and/or course content without further notice. Students are advised to consult the schedule of classes available in Student Services and on the SCC website. Student Success Advocates can answer any further questions.

Accounting (ACC)

ACC-102

WORKPLACE ACCOUNTING

Lec 3 Credit 3

This course serves as an introduction to accounting that is used directly in the operation of small to mid-sized businesses. Topics covered will include an introduction to general ledgers, payroll accounting, computerized accounting, and tax accounting as well as inventory management and cost accounting.

ACC-111

INTRODUCTION TO ACCOUNTING

Lec 3 Credit 3

An introduction to financial accounting theory and practice, with an emphasis on the accounting cycle and computer application thereof. This course is designed for non-business majors.

ACC-131

PRINCIPLES OF ACCOUNTING I

Lec 4 Credit 4

This first course covering the principles of accounting introduces the basic terms, concepts and procedures of accounting. The course is intended for students who will major in accounting or have chosen a career which requires extensive use of accounting information. During the course, the focus will be on the completion of the accounting cycle, including the preparation of journal entries, posting to the ledger, and the preparation of adjusting entries, financial statements and closing entries at the end of the accounting period. Special attention will also be given to special journals and subsidiary ledgers, the information needed to account for merchandising businesses, and the special accounting procedures related to cash, receivables, payables and systems of control.

ACC-132

PRINCIPLES OF ACCOUNTING II

Lec 4 Credit 4

The second course in the Principles of Accounting continues to study the terms, concepts, principles and procedures of financial accounting. This course will begin with a continuation of the first semester's focus upon the accounting methods required by specific accounting problems. Later in the semester, the focus will change to consider the different accounting methods prescribed for partnerships or corporations and to the analysis of financial statements. Prerequisite: ACC-131.

ACC-142

FINANCIAL ACCOUNTING

Lec 3 Credit 3

An introduction to financial accounting theory and practice with emphasis on the use and interpretation of financial statements.

ACC-146

MANAGERIAL ACCOUNTING

Lec 3 Credit 3

This course is designed as a broad, yet practical course in managerial accounting procedures. After preliminary consideration of the three cost elements of raw materials, labor and factory overhead, the costing concept will be applied to both job-order and process costing. Though the course will focus

upon the procedures needed for manufacturers, consideration will also be given to service and merchandising entities. Finally, these procedures will be utilized for managerial decision making through Cost-Volume-Profit analysis, standard costing, analysis of variances and budget analysis. Prerequisite: ACC-131 or ACC-142.

ACC-161

PAYROLL ACCOUNTING

Lec 3 Credit 3

Payroll accounting emphasizes the methods of computing wages and salaries, the methods of keeping records and the preparation of government reports. Extensive coverage of federal and state laws impacting payroll accounting is provided. During the course of the semester, students will explore numerous manual and computerized payroll systems. Corequisite: ACC-131 or ACC-142.

ACC-231

INTERMEDIATE ACCOUNTING I

Lec 3 Lab 2 Credit 4

This first course in Intermediate Accounting examines the generally accepted accounting principles applied in income determination and balance sheet presentation. The primary purpose is the preparation of financial statements in a meaningful, understandable and adequate manner for the external user. After a preliminary review of the basic accounting process, the content and format of the income statement and balance sheet, the course material will specifically consider the balance sheet classifications of cash, temporary investments, receivables, inventories, plant and intangible assets. Prerequisite: ACC-132 or ACC-142.

ACC-232

INTERMEDIATE ACCOUNTING II

Lec 3 Lab 2 Credit 4

A continuation of ACC-231, this course will continue to examine the generally accepted accounting principles as applied to income determination and balance sheet preparation. The course will specifically consider the classification, recognition and valuation of current liabilities, bonds and other long-term liabilities, stockholders' equity, dividends, dilutive securities and their effect on earnings per share, leases, pensions and income taxes. The course will conclude with coverage of the Statement of Cash Flows. Prerequisite: ACC-231.

ACC-261

INCOME TAX ACCOUNTING

Lec 3 Credit 3

Coverage of income tax returns for individuals, including filing requirements, gross income inclusions and exclusions, dependency requirements, itemized deductions, etc.

ACC-311

COMPUTER ACCOUNTING

Lec 3 Credit 3

Studies payroll records and payroll taxes imposed by state and federal agencies. The course will focus on computerized accounting records, including general ledger, accounts receivable, accounts payable, depreciation and payroll systems.

ACC-332

COMPUTER ACCOUNTING - QUICKBOOKS

Lec 2 **Credit 2**

This course is designed to apply the fundamental accounting principles in a computerized environment by using the text/workbook combined with computerized standard accounting software package. Also electronic spreadsheets will be explored. A prior knowledge of accounting is required and knowledge of Windows will be helpful. It is necessary that each student be able to set aside lab time to complete assignments, either in the computer labs or a similar computer with computerized standard accounting software package. Prerequisite: ACC-131 or ACC-142. Prerequisite or Corequisite: ACC-111.

Administrative Professional (ADM)

ADM-103
OFFICE TECHNOLOGY
Lec 1 **Lab 2** **Credit 2**

This course provides in-depth and practical use of calendaring/scheduling systems, voice recognition software, advanced email functions and the Internet as a research tool. Common office technology including video conferencing, projection, copiers, faxing, scanning, transcription, 10-key calculating and multi-line phone systems will be presented and practiced in multiple settings.

ADM-112
KEYBOARDING
Lec 2 **Lab 2** **Credit 3**

This is a fundamental course in the technique of keyboarding and document creation. Touch keying of letters, numbers and symbols of the keyboard is taught. Correct keying techniques are practiced. This class is designed for any student who wants to type quickly and learn how to create documents for school and personal use.

ADM-117
KEYBOARDING AND DOCUMENT PRODUCTION
Lec 2 **Lab 2** **Credit 3**

A fundamental course in developing keyboarding skills for business and personal use. Students use Microsoft Word to learn proper formatting of office letters and memos, business and academic reports, tables, newsletters, flyers and graphics. Proper keyboarding technique, accuracy and speed building are emphasized.

ADM-120
ADVANCED DOCUMENT PRODUCTION
Lec 1 **Lab 4** **Credit 3**

Students use Microsoft Word to create office documents and apply advanced formatting and production techniques including mail merge, header/footer manipulation, report generation and custom formatting. Standard formats of advanced tables, agendas, minutes, itineraries, news releases, resumes and medical and legal documents are learned, and online collaboration is introduced. This class continues to emphasize proper keyboarding technique, accuracy and speed building. Prerequisite: ADM-117.

ADM-133
 www.scciova.edu (319) 208-5000
BUSINESS MATH AND CALCULATORS**Lec 3** **Credit 3**

This course will focus on the use of 10-key calculators to review arithmetic fundamentals and solve common business problems, including banking, payroll, weights and measurements, percentage, commissions, discounts, mark-ups, interest, borrowing by business, consumer credit, sales taxes, property taxes, income taxes, and insurance. Prerequisite: Meet minimum test score requirements.

ADM-162
OFFICE PROCEDURES
Lec 3 **Credit 3**

This course provides an understanding of the concepts, skills, procedures and professional image needed for employment in an office environment. Introductory topics include operational and supervisory functions, telephone and teleconference procedures, scheduling, travel arrangements, meeting and event planning, mail and shipping procedures and ethics and professionalism. Students use problem solving techniques and decision making experiences in a team environment.

ADM-172
REMOTE OFFICE MANAGEMENT
Lec 3 **Credit 3**

This course practices concepts and skills needed for remote office management. The course will focus on the roles and responsibilities of both the remote employee and the remote manager. Topics learned include virtual meeting management, mobile communications, and time management. The technical aspects of the course includes the use of secure cloud storage, online collaboration and production of ADA compliant documents and fillable forms.

ADM-180
ADMINISTRATIVE MANAGEMENT
Lec 3 **Credit 3**

This course is a study of administrative management including organization, site location, office layout, environment, communication processes, job analysis, job evaluation, salary administration, performance appraisal and employer/employee relations. The concepts and practices in this course are designed for students interested in office management or employee supervision.

ADM-181
RECORDS AND DATABASE MANAGEMENT
Lec 2 **Lab 2** **Credit 3**

This class emphasizes the principles and practices of effective records handling. Management of records is performed according to the Generally Accepted Recordkeeping Principles of ARMA International. The record life cycle is covered including creation, storage, retrieval, maintenance and disposition of both manual and computerized database systems.

ADM-186
LEGAL DOCUMENTS
Lec 1 **Lab 2** **Credit 2**

This is a specialized course in which legal documents are studied. Emphasis is on creating and completing legal documents electronically. Transcription skills are refined with a

concentration on legal documents. Legal terminology is applied throughout the course. Prerequisite: ADM-117.

ADM-188

PROJECT AND EVENT MANAGEMENT

Lec 2 Lab 2 Credit 3

Using a project-based approach, this course is designed for business and management/marketing majors, entrepreneurs, administrative staff, and those that are organized, resourceful and enjoy multitasking. Project management, business/event promotion and critical thinking skills will be developed. Technology will be used to coordinate essential activities including travel and event logistics, budgeting, video conferencing, scheduling and the creation of promotional materials.

ADM-198

LEGAL TERMINOLOGY

Lec 1 Lab 2 Credit 2

This course is a study of the basic terminology used in a legal office. Emphasis will be placed on legal terminology definitions and on a study of court cases that pertain to the topics being covered.

ADM-204

LEGAL OFFICE PROCEDURES

Lec 3 Credit 3

This course is an introduction to the career of Administrative Legal Professional based on the Basic Manual for the Lawyer's Assistant written by NALS, the association for legal professionals. Students consider career paths, study the court system, review communication skills, learn how to keep the law library current and review ethical guidelines for legal office workers.

ADM-230

INTEGRATED OFFICE PROJECTS

Lec 1 Lab 4 Credit 3

This course is designed to enhance and reinforce software skills through project-based activities by extensive use of integrating applications. Students complete projects that represent what is required in an actual business environment. This class will develop teamwork, creativity, decision making and critical thinking skills as will be experienced in the office setting. Software used includes Microsoft Word, Excel, Access, PowerPoint, Publisher and the Internet. Continued emphasis on proper keyboarding technique, accuracy and speed building. Prerequisite: ADM-120.

ADM-297

CERTIFICATION PREPARATION

Lec 0 Lab 2 Credit 1

Students will prepare for certification in Microsoft Office applications using online tutorials and practice designed to simulate the certification process. Certification exams will be offered as part of this class.

Associate Degree Nursing (ADN)

ADN-145

ROLE TRANSITION

Lec 1 Credit 1

This course allows associate degree nursing students to explore the role expectation of the registered nurse and facilitate the transition from practical nursing to registered nursing. An emphasis is placed on health education and advanced application of the nursing process. Prerequisites: Successful completion of Practical Nursing Diploma or LPN license. Co-requisite: ADN-221.

ADN-221

PHARMACOLOGY II

Lec 2 Credit 2

This course focuses on concepts of pharmacology with special emphasis on the role of the nurse in developing a comprehensive approach to the clinical application of drug therapy through the use of the nursing process. Understanding how drugs work and their relationship to expected outcomes and possible adverse reactions is explored. Recognition of safe dosage ranges, potential interactions, patient factors that affect drug actions and safe administration techniques are included. The education of clients about their drug therapies is a crucial component. Prerequisites: Successful completion of Practical Nursing Diploma or LPN license. Minimum grade of C in the following courses: PSY-121, PNN-311, PNN-535 and ENG-105. Corequisite: ADN-145.

ADN-311

RN ISSUES AND TRENDS

Lec 1 Credit 1

This course assists the associate degree nursing student to begin the transition to an autonomous nursing practice. Career development, opportunities and challenges of the registered nurse are explored in relation to changing health care trends. Principles of leadership and management are introduced. Prerequisite: ADN-641.

ADN-641

NURSING III

Lec 9 Lab 1 Clinical 15 Credit 14.5

This course integrates concepts and strands previously presented in the curriculum. A systematic approach is utilized in planning and providing nursing care to individuals, families and groups across the lifespan. This course emphasizes selected acute and complex alterations in health and includes advanced content related to maternal-child care. An opportunity is provided for students to expand their theoretical knowledge, to broaden the application of critical thinking to the nursing process and to develop their nursing skills in clinical settings. Prerequisites: ADN-145 and ADN-221. Corequisite: PSY-111.

ADN-642

NURSING IV

Lec 9 Clinical 15 Credit 14

This course integrates concepts and strands previously presented in the curriculum. A systematic approach continues to be utilized in planning and providing nursing care to individuals, families and groups across the lifespan (pediatrics, adult and geriatrics). This course emphasizes selected acute and complex alterations in health and includes advanced content related to mental health. An opportunity is provided for students to expand their theoretical knowledge, to extensively apply critical thinking to the nursing process and to continue to refine their nursing skills in clinical settings. Prerequisite: ADN-641. Corequisite: ADN-311.

Agronomy (AGA)

AGA-158

SOIL FERTILITY

Lec 3 Credit 3

This course explains the phenomena involved in making and keeping a soil in its most economical, productive state. Students learn why soils must be managed differently due to differences in origin and make up. Prerequisite: AGA-154 or AGA-182.

AGA-181

INTRODUCTION TO CROP SCIENCE

Lec 3 Credit 3

Basic structure and function of plants, origin and classification, growth and development. Fundamentals of photosynthesis, plant water use, plant nutrition and genetics that regulate plant growth, development and responses to the environment.

AGA-182

INTRODUCTION TO SOIL SCIENCE

Lec 3 Credit 3

Introduce students to the mysterious world of soils. It is designed for students in agriculture and related sciences. The course provides a broad viewpoint to match the varied backgrounds and interest of students. Its coverage is made so broad to meet the needs of students who will take only one course in soils, as well as those who will use it as a base for more advanced study of specialized areas in soil science.

AGA-376

INTEGRATED PEST MANAGEMENT

Lec 2 Lab 2 Credit 3

Course describes the basics of field scouting for corn and soybean crops for weeds, insects, diseases and disorders, as well as, a variety of management practices to manage those ailments.

AGA-390

INTRODUCTION TO RENEWABLE RESOURCES

Lec 3 Credit 3

This course will provide an overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. This history and organization of resource management and concepts of integrated resource management will be covered.

Farm Management Business (AGB)

AGB-235

INTRODUCTION TO AGRICULTURE MARKETS

Lec 3 Credit 3

Presents basic concepts and economics principles related to markets for agricultural inputs and products. Reviews current marketing problems faced by farms and agribusinesses, farm and retail price behavior, structure of markets, food marketing channels, food quality and food safety and the role of agriculture in the general economy. Analyzes the implications of consumer preferences at the farm level. Introduces hedging, futures and other risk management tools.

AGB-330

FARM BUSINESS MANAGEMENT

Lec 3 Credit 3

Applies business and economic principles of decision making and problem solving in the management of a farm business. Covers cash flow, partial, enterprise and whole farm budgeting. Reviews information systems for farm accounting, analysis and control. Examines obtaining and managing land, capital and labor resources. Provides alternatives for farm business organization and risk management.

AGB-331

ENTREPRENEURSHIP IN AGRICULTURE (ONLINE)

Lec 3 Credit 3

This course relates specifically to management of agriculture farms and businesses. Course content emphasizes budget planning, record keeping, record analysis, agricultural finance/credit, and machinery and land management. Management exercises simulating farm activities and decisions are incorporated. Computers are used to aid in the completion of these management exercises.

AGB-336

AGRICULTURAL SELLING

Lec 3 Credit 3

Presents basic concepts and economics principles related to markets for agricultural inputs and products. Reviews current marketing problems faced by farms and agribusinesses, farm and retail price behavior, structure of markets, food marketing channels, food quality and food safety, and the role of agriculture in the general economy. Analyzes the implications of consumer preferences at the farm level. Introduces hedging, futures and other risk management tools.

AGB-437

COMMODITY MARKETING

Lec 3 Credit 3

Commodity Marketing examines basis, fundamental and technical price analysis, commodity futures, futures options, alternative cash contracts, sources and uses of marketing information and relevant agricultural marketing strategies.

AGB-451

AGRICULTURAL LAW

Lec 3 **Credit 3**

This course explores the body of federal and state laws and regulations governing agriculture-related operations. The course specifically addresses legal issues that students will likely face in agriculture-related careers. The course pulls from a wide body of substantive law, including case law, statutory law and administrative law. A primary focus of the course will be to review the legal framework governing agriculture-related decision-making by firms, families and individuals from a real-world perspective. The course begins with a general review of the legal system and instruction on how to find legal materials as it pertains to the agricultural industry.

AGB-466
AGRICULTURAL FINANCE (ONLINE)**Lec 3** **Credit 3**

This course is a study of the terminology and tools of agricultural finance. It emphasizes the preparation of financial statements, cash flows, budgets and bookkeeping principles. It also discusses financial risk strategies and credit costs.

AGB-930
AGRICULTURE SEMINAR**Lec 1** **Credit 1**

This course is designed to enable the student to gain practical experience in the areas of farm equipment maintenance, equipment adjustment and operation, crop scouting for weeds, insects and diseases, and weed and insect management. It will be taught on an arranged basis at the SCC West Burlington campus as time and weather influence the operations necessary.

Agricultural Miscellaneous (AGC)

AGC-216
CAREER SEMINAR**Lec 2** **Credit 2**

This course is designed to help students explore and discover the many opportunities that are available in the profession of agriculture and related industries both nationally and internationally.

AGC-420
ISSUES IN AGRICULTURE**Lec 3** **Credit 3**

This course provides students the opportunity to collect, discuss, interpret, and defend current economic, environmental and social issues that affect the production of agricultural commodities.

AGC-936
OCCUPATIONAL EXPERIENCE**Lec 0** **OJT 12** **Credit 3**

An "on-the-job" experience at a local business. The business will provide a training sponsor in cooperation with an instructor/coordinator from the college staff. Hands-on experience in observing and demonstrating the knowledge and skills developed in the classroom. Course may be repeated once for a maximum of 6 credit hours.

Horticulture (AGH)

AGH-131
GREENHOUSE MANAGEMENT (ONLINE)**Lec 3** **Credit 3**

Manage greenhouse air, water, soil and light for most efficient use of resources. Pest management, plant rotation and scheduling for flower sales are included.

AGH-221
PRINCIPLES OF HORTICULTURE**Lec 2** **Lab 2** **Credit 3**

Provides an introduction to horticulture covering the basic knowledge and skills associated with growth and development of plants including fruits, vegetables, turf grass and ornamentals.

Agricultural Mechanics (AGM)

AGM-151
FARM EQUIPMENT ADJUSTMENT**Lec 0** **Lab 4** **Credit 2**

Students will utilize the operator's manual to find information concerning the operation, lubrication and adjustment sections. Combine operations will be addressed as follows: perform initial calibration settings for wheat, corn and soybeans; determine type and amount of losses of grain and make adjustments to minimize those losses; and utilize the GPS unit to create GIS referenced yield data.

AGM-155
FARM EQUIPMENT MANAGEMENT**Lec 2** **Credit 2**

This course deals with fitting farm equipment to the farming unit and the repair of farm equipment.

AGM-203
AGRICULTURAL WELDING**Lec 1** **Lab 2** **Credit 2**

This course provides an introduction to welding technology with an emphasis on safety, operating procedures, and assessment of MIG and arc welds and oxyacetylene cuts.

Natural Resources (AGN)

AGN-130
SOIL AND WATER CONSERVATION**Lec 2** **Lab 2** **Credit 3**

Emphasis will be on environmental practices as they relate to conservation management of our natural resources. Students will discuss soil erosion, water quality and soil and water management. Lab work required. Prerequisite: AGA-154 or AGA-182.

AGN-244
WILDLIFE MANAGEMENT

Lec 2 Lab 2 Credit 3

Students learn proper wildlife management through carefully planned and maintained reserves, preserves and refuges. Management techniques presented include those for game, non-game and aquatic animals.

Precision Agriculture (AGP)

**AGP-333
PRECISION FARMING SYSTEMS**

Lec 3 Credit 3

Provides an overview of precision farming concepts and the tools of precision farming (OPS, GIS and VRT). Introduces the use of each of these tools within the processes of a precision farming system. Provides hands-on activities in the use of these tools. Discusses economic and environmental benefits.

**AGP-340
FOUNDATIONS OF GIS AND GPS**

Lec 2 Lab 2 Credit 3

This course will enable the students to use and demonstrate the principles of GPS, GIS, remote sensing and precision application equipment. Soil sampling, farm mapping, combine yield monitoring and developing Geographic Information System databases will be explored. Students will be exposed to computers and the use of precision agriculture software. Laboratory work will be used to increase the understanding of key concepts.

**AGP-421
APPLICATIONS OF GIS**

Lec 1 Lab 2 Credit 2

The course will take students into advanced concepts in GIS and give hands on experience in the practical applications of a geographical information systems. Students will be enrolled in selected GIS short courses online and required to design a GIS project from scratch. They will setup the parameters for the project, collect the data and format the final project. The project should be related to their career field.

Animal Science (AGS)

**AGS-113
SURVEY OF THE ANIMAL INDUSTRY**

Lec 3 Credit 3

Course studies ways domestic animals serve the basic needs of humans for food, shelter, protection, fuel and emotional well-being. Terminology, basic structures of the industries surrounding the production, care and marketing of domestic animals in the U.S. will also be studied.

**AGS-216
EQUINE SCIENCE**

Lec 3 Credit 3

This course is an introduction to concepts, practices and decisions necessary when managing horses through stages of their lives.

www.scciowa.edu (319) 208-5000

**AGS-225
SWINE SCIENCE**

Lec 3 Credit 3

Introduces principles, practices and decisions impacting swine production.

**AGS-226
BEEF CATTLE SCIENCE**

Lec 3 Credit 3

Introduces principles, practices and decisions impacting beef cattle production.

**AGS-242
ANIMAL HEALTH (ONLINE)**

Lec 3 Credit 3

Provides information about the cause, nature, prevention and treatment of common health problems of farm animals. Identifies animal behavior and developing a herd health program.

**AGS-270
FOODS OF ANIMAL ORIGIN (ONLINE)**

Lec 3 Credit 3

This is a general basic agri-food science course that deals with world food needs and available food supplies, types of food and nutritive value and use, and methods used and challenges involved in food production, transportation, preservation/processing, storage, distribution, marketing and consumption. The course covers both animal origin and non-animal origin food products.

**AGS-319
ANIMAL NUTRITION (ONLINE)**

Lec 3 Credit 3

A course in basic animal nutrition for swine and beef cattle. Feed utilization for maintenance/growth, reproduction and lactation is discussed. The formulation of rations on both a nutritional and economic basis as well as the substitution of ingredients will be covered.

**AGS-331
ANIMAL REPRODUCTION (ONLINE)**

Lec 3 Credit 3

This course is presented with the agriculture student in mind. The first unit, Physiology, addresses cellular digestion, reproduction, genetics and ecology. The second unit, Applications, teaches the practical application of animal science. The third unit instructs students in the interpretation of performance data for judging and evaluating livestock.

Animation (ANI)

**ANI-100
ART FOUNDATION FOR ANIMATION**

Lec 2 Lab 2 Credit 3

This course will provide students with knowledge of foundational art topics with a focus on how they are applied to animation. Concepts focusing on form, design, perspective, value, composition and color will be combined with lectures that explore the foundations of drawing fully realized characters and creating compelling environment compositions. This course is designed to introduce concepts that will help students become

Revised: 12/6/2023 9:07p.m.

better artists through demos, exercises, lectures and in-class critiques.

ANI-104

ANIMATION SOFTWARE IV

Lec 2 Lab 2 Credit 3

This course will provide students with an understanding of the visual effects and compositing workflows in animation. Students will create realistic visual effects using various simulation tools and techniques such as texture effects, particles and dynamics, motion tracking and match moving. Students will gain deeper knowledge of rendering to combine separate layers into a final image. Students will also learn advanced design principles as well as the social impact capable with motion graphics. Prerequisite: ANI-103.

ANI-110

INTRODUCTION TO 3D

Lec 2 Lab 2 Credit 3

This course focuses on 3D modeling, texturing, lighting and rendering to introduce and help students develop foundational skills in 3D computer graphics. Lectures and projects cover applications and tools used in the animation, film and game industries to prepare students to face both artistic and technical challenges when creating 3D works of art.

ANI-111

CHARACTER MODELING AND SCULPTING

Lec 2 Lab 2 Credit 3

This course will provide students with knowledge of foundational art topics with a focus on how they are applied to animation. Concepts focusing on form, design, perspective, value, composition and color will be combined with lectures that explore the foundations of drawing fully realized characters and creating compelling environment compositions. This course is designed to introduce concepts that will help students become better artists through demos, exercises, lectures and in-class critiques. Prerequisites: ANI-100 and ANI-110.

ANI-118

DESIGN FOR ANIMATION

Lec 2 Lab 2 Credit 3

This course will provide students with an advanced knowledge of animation design topics including prop, environment, background and character design. Concepts focusing on form, design, perspective, value and color will be combined with lectures on workflow techniques and troubleshooting. This course is designed to help students become better artists through demos, exercises, lectures and in-class critiques centered on resolving pipeline and design issues that may occur during the creation process.

ANI-120

INTRODUCTION TO ANIMATION

Lec 2 Lab 2 Credit 3

This course will provide students with an applied knowledge of the 12 principles of animation, namely: squash/stretch, anticipation, staging, straight ahead/pose to pose, follow through/overlapping action, slow in/out, arcs, secondary action, timing, exaggeration, solid drawing and appeal. Students will use a variety of techniques to help prepare them for animating in any medium. This course will be divided into demos, exercises,

lectures and in-class critique to help students develop an understanding of Animation Principles and Techniques.

ANI-121

CHARACTER ANIMATION 1

Lec 2 Lab 2 Credit 3

This course covers the processes and techniques used to animate believable and appealing body mechanics. Students will gain skills in the art of character animation while focusing on the application of the 12 principles of animation. Production workflows and techniques will be explored through practicing fundamentals while focusing on strong body and weight mechanics as well as good posing for animation. This course will be divided into demos, exercises, lectures and in-class critiques. Prerequisites: ANI-111, ANI-110 and ANI-120.

ANI-125

STORY DEVELOPMENT FOR ANIMATION

Lec 2 Lab 2 Credit 3

The purpose of this course is to introduce students to screenplay and story development for animation. The student will be introduced to the heroic myth, its story structure, and learn to relate it to modern screenplay construction through watching and analyzing screenplays. Fundamentals of cinema including framing, angles, cutting, camera movement and creating clear transitions will be explored as students are provided the opportunity to develop their own story ideas and learn the stages of a typical story development pipeline in animation. Upon completion of this course, students will have developed an individual story project through the animatic phase. Prerequisites: ANI-100 and ANI-120.

ANI-166

CAPSTONE AND DEMO REEL FOR ANIMATION

Lec 2 Lab 4 Credit 4

Following successful completion of animation core coursework, this course will provide the student with guidance in promoting their skills as an artist and entering the industry. Students will work to refine previously created projects or work on new projects to build a stronger, more professional body of work. By the end of this course students will have created a demo reel and an electronic portfolio that showcases their unique abilities. Prerequisites: ANI-212, ANI-222 and ANI-230.

ANI-212

CHARACTER RIGGING

Lec 2 Lab 2 Credit 3

This course will serve as a step-by-step introduction to character rigging. Emphasis is placed on creating character rigs through exploring bone creation and placement, setting up constraints, working with inverse and forward kinematics, skinning meshes to bones and creating controls for animation. Lectures include a mixture of rigging demonstrations and techniques to help students create rigs that will allow them to successfully animate characters. Prerequisites: ANI-111 and ANI-121.

ANI-222

CHARACTER ANIMATION 2

Lec 2 Lab 2 Credit 3

In this course, students will learn how to bring a character to life through the exploration of pantomime acting and animating dialogue. Lectures and demonstrations cover topics including

acting for animators, facial animation and lip-sync techniques. This course will be divided into demos, exercises, lectures and in-class critique to help students develop a better understanding of the subtleties of good animation while working towards producing demo reel-quality scenes. Prerequisites: ANI-111, ANI-121 and ANI-125.

ANI-230

ANIMATION PRE-PRODUCTION

Lec 2 Lab 2 Credit 3

In this course students will complete the pre-production phase of their animation project(s). Students will work as individuals or as a team to craft engaging stories and develop assets including props, characters, and environments for their animation projects. Emphasis is placed on the identification and utilization of individual strengths in the context of a production environment. Prerequisites: ANI-111, ANI-121, and ANI-125.

ANI-231

ANIMATION PRODUCTION

Lec 2 Lab 6 Credit 5

In this course students will complete the production and post-production stages of their animation(s). Character animation, effects, props, environments and audio will be finalized to bring stories to life. Through an exploration of the production process, students will continue to develop and deliver content. Through the exploration of the post production process, students focus on rendering, compositing and editing their final animation(s) to achieve polished pieces. Emphasis is placed on the identification and utilization of individual strengths in the context of a production environment. Prerequisites: ANI-212, ANI-222, and ANI-230.

ANI-932

ANIMATION INTERNSHIP

Lec 0 OJT 12 Credit 3

This course is designed to provide the student with a practical experience in computer animation prior to completion of the Associate of Applied Science degree. The internship is supervised by the program coordinator. This course is also designed to help students develop materials and skills necessary to obtain and maintain employment. Prerequisites: ANI-111, ANI-121, ANI-125, ART-138, ENG-221 or LIT-209.

ANI-941

ANIMATION STUDIO PRACTICUM

Lec 2 Lab 2 Credit 3

This course is designed to provide students with a practical experience in computer animation prior to completion of the Associate of Applied Science degree. The internship is supervised by the program coordinator. This course is also designed to help students develop materials and skills necessary to obtain and maintain employment. Prerequisites: ANI-111, ANI-121, ANI-125, ART-138, ENG-221 or LIT-209.

Architectural (ARC)

ARC-113

ARCHITECTURAL DRAFTING I

Lec 2 Lab 4 Credit 4

A course designed to provide a knowledge of residential house construction and house plans. The students are required to draw architectural plans that include foundations, floor plans, electrical plans, elevations, details and perspectives. Prerequisite: CAD-101, or instructor approval.

ARC-129

RESIDENTIAL/LIGHT COMMERCIAL DRAFTING

Lec 2 Lab 4 Credit 4

Designing and drawing a complete set of plans, including specifications, calculations and rendering for multi-family or similar two story buildings. Emphasis will also be placed on designing an energy-efficient structure. Prerequisite: CAD-101.

Art (ART)

ART-101

ART APPRECIATION

Lec 3 Credit 3

This course is a study of aesthetics as related to human expression, especially within the visual arts of painting, sculpture and architecture. This is a humanities-oriented course where art principles are examined as they relate to the production and interpretation of Western art in both historical and cultural contexts covering the Renaissance through post-modern periods. Students will form personal opinions about art by looking at art and evaluating art with methods taught in class.

ART-109

NON-WESTERN ART

Lec 3 Credit 3

A survey of art history from prehistoric to modern times of locations outside of Western civilization. Both period style and personal styles will be compared to the lifestyles of the area. Geographical emphases will be in Africa, Eastern and Southern Asia, Central and Native North America, South America and Australia. Class work will consist of discussion of art using slides, prints, videos, hands-on activities and field trips.

ART-120

2-D DESIGN

Lec 2 Lab 2 Credit 3

This beginning level course for either non-art or art majors allows the student to explore a variety of two dimensional media such as pencil, ink, pastel, watercolor, acrylics, etc., applied on paper and other types of surfaces. A variety of design styles and methods will be introduced using the various elements and principles of design.

ART-123

3-D DESIGN

Lec 2 Lab 2 Credit 3

This beginning level course for non-art or art majors allows the student to explore a variety of three dimensional media making constructions such as relief designs, mobiles and sculpture using a variety of media such as wood, metal, wire, paint, etc., and other media of the student's choice. A variety of design styles and methods will be introduced.

ART-133

DRAWING

Lec 2 Lab 2 Credit 3
A beginning drawing class in a variety of media using an assortment of subjects. The student will explore theories and concepts of drawing.

**ART-134
DRAWING II**

Lec 2 Lab 2 Credit 3
Development and techniques of a personal drawing style, a continuation of Drawing I with more emphasis on the student's individualized curriculum. Prerequisite: ART-133.

**ART-138
FIGURE DRAWING**

Lec 2 Lab 2 Credit 3
This course introduces the students to figurative drawing. We will focus on structure of the human figure and compositional representation through observation. An emphasis will be placed on refining skills of observation and proportioning of the picture plane. A dialogue on formal aspects covered in Drawing I will continue. Personal expression, approach and conceptual language will be covered through assignments and from a figurative historical perspective. Prerequisite: ART-133.

**ART-143
PAINTING**

Lec 2 Lab 2 Credit 3
A beginning painting course for non-art or art majors in a variety of media. A variety of subjects, theories and concepts will be considered.

**ART-144
PAINTING II**

Lec 2 Lab 2 Credit 3
Development and techniques of a personal painting style; a continuation of Painting I with emphasis on the student's individualized curriculum. Prerequisite: ART-143.

**ART-154
MIXED MEDIA**

Lec 2 Lab 2 Credit 3
This beginning level course allows students to explore art projects that combine a variety of media. The course emphasizes experimentation with conceptual approaches to art. Examples of projects include mixed media on paper, on canvas, handmade art books, assemblage and found object sculpture.

**ART-157
PRINTMAKING**

Lec 2 Lab 2 Credit 3
Introductory printing course with emphasis in basic printmaking techniques and processes. Printing proficiency in relief, stencil and/or intaglio prints will be pursued.

**ART-173
CERAMICS**

Lec 2 Lab 2 Credit 3
A beginning level course for either non-art or art majors exploring hand built pottery techniques and use of the potter's wheel.

**ART-174
CERAMICS II**

Lec 2 Lab 2 Credit 3
Advanced hand building and/or throwing techniques; larger scale or more in depth goals; projects may be more sculptural or one of a kind. Prerequisite: ART-173.

**ART-184
PHOTOGRAPHY**

Lec 2 Lab 2 Credit 3
This course introduces basic camera operations and equipment, processing and photographic print production for both the traditional and digital cameras. Topics include contrast, depth-of-field, subject composition, density control, film selection, proper exposure and aesthetics. Digital image scanning, current tools, technologies and software will be covered. Students will need to provide a non-automatic 35MM camera and photographic materials.

**ART-186
DIGITAL PHOTOGRAPHY**

Lec 3 Credit 3
Introduces students to the use, management and manipulation of photographs as a digital medium. Students will study Photoshop as a photographic editing tool and utilize critical analysis relating to ideas of photo editing and manipulation. Content will include the technical concepts of digital image editing and manipulation in the context of historical and contemporary theories of photography as an art form.

**ART-203
ART HISTORY I**

Lec 3 Credit 3
A survey of art history from prehistory to the Renaissance. Both period style and personal styles will be compared to the lifestyles of the period. Emphasis will be on artists and artforms of Western cultures. Class work will consist of discussion of art using slides, prints and field trips.

**ART-204
ART HISTORY II**

Lec 3 Credit 3
Continuation of ART-203 from Renaissance to post-modern.

**ART-208
INTRODUCTION TO NATIVE AMERICAN ART HISTORY**

Lec 3 Credit 3
This course is a general introduction and overview of Native American Art History. It will cover the establishment and development of the visual art from earliest tribes to current tribes. It will also promote awareness of the American Indian in cross-cultural and cross-disciplinary perspectives by studying the arts. The course will be taught by lecture and presentation of slides. Field trips to surrounding sites to view artifacts will be conducted when possible.

**ART-928
INDEPENDENT STUDY**

Lec 0 Lab 2-6 Credit 1-3
This course is intended to provide the students an opportunity to select a medium or concept and to explore it in greater depth than is possible in other art courses. Individual study projects will be determined by consultation between the student and instructor. A minimum of 32 hours of laboratory effort is required for each semester hour of credit. May be repeated for

up to nine (9) semester hours of credit. Prerequisites: Any three of the following: ART-120, ART-123, ART-133, ART-134, ART-143, ART-144, ART-154, ART-173, ART-174 and Instructor Approval.

Automation Technology and Robotics (ATR)

ATR-118 AUTOMATION SYSTEMS

Lec 1 Lab 4 Credit 3

This course explains the operation and integration of advanced automation components to PLC hardware and software in industrial control systems. Students will work with Allen Bradley Compact Logix 5000 PLC and RS Logix 5000, RS Linx and RS FactoryTalk View ME software. Students will also study how PLCs interface and setup HMIs, RFID, and barcode readers using Ethernet/IP networking control systems. Prerequisite: ELT-264

ATR-135 ADVANCED AUTOMATION AND ROBOTICS

Lec 1 Lab 4 Credit 3

This course introduces basic robot operation of industrial process automation and programmed machine movement. Students learn robot safety in automated work cells and safety integrated devices. Students also study machine iRVision and automated control systems integrated with robots. Prerequisite: ATR-118.

Automotive Technology (AUT)

AUT-106 INTRODUCTION TO AUTOMOTIVE TECHNOLOGY

Lec 1 Lab 2 Credit 2

This course will serve as an introduction to the complete automotive field, including safety, ASE certification, employment potential, customer service, employer/employee relations and the parts and service industry.

AUT-126 FUNDAMENTALS OF AUTOMOTIVE SERVICING

Lec 1 Lab 2 Credit 2

This course will familiarize students with basic scheduled maintenance. Proper usage of hand and power tools will be covered, as well as precision measuring systems and equipment. Prerequisite: AUT-106 with a minimum grade of C-.

AUT-166 AUTOMOTIVE ENGINE REPAIR

Lec 3 Lab 6 Credit 6

This course will introduce the internal combustion engine and the variety of designs in popular usage today. It also offers a general introduction to engine diagnosis and testing. The engine will be explored piece by piece, and the description and function of each part explained.

www.scciova.edu (319) 208-5000

AUT-190 HYBRID FUNDAMENTALS

Lec 1 Lab 2 Credit 2

This course will familiarize students with general hybrid history and benefits, basic safety precautions, specific maintenance procedures, location and description of hybrid components for hybrid vehicles. Prerequisite: ELT-295.

AUT-207 AUTOMATIC TRANSMISSIONS/TRANSAXLES

Lec 2 Lab 8 Credit 6

This course discusses automatic transmission and transaxle theory, components, operation and service.

AUT-244 MANUAL DRIVETRAINS I

Lec 1 Lab 4 Credit 3

This course will introduce the student to the concepts of front- and rear-wheel drive, four-wheel and all-wheel drive vehicles. Clutches, CV joints and universal joints will also be covered.

AUT-246 MANUAL DRIVETRAINS II

Lec 1 Lab 4 Credit 3

This course will provide the student with an understanding of differentials, as well as the major parts of a manual transmission. Inspection, maintenance, lubrication, disassembly and reassembly will be emphasized. Prerequisite: AUT-244.

AUT-405 AUTOMOTIVE SUSPENSION AND STEERING

Lec 2 Lab 6 Credit 5

This course will look closely at automotive suspension systems, manual, power and four-wheel steering and proper vehicle wheel alignment.

AUT-505 AUTOMOTIVE BRAKE SYSTEMS

Lec 2 Lab 6 Credit 5

This course will explain and demonstrate the principles of friction and the components and operation of hydraulic brakes, including power and anti-lock brakes. Prerequisite: AUT-126 with a minimum grade of C-.

AUT-610 AUTOMOTIVE ELECTRICAL I

Lec 2 Lab 4 Credit 4

This course will introduce to the student the theory and operation of basic electrical and electronic principles as a science. How the basics are applied to automotive electrical circuits and the proper procedures to diagnose and repair are covered. Lab sessions are spent turning theory into "hands-on" practice with meters and basic circuits.

AUT-625 AUTOMOTIVE ELECTRICAL II

Lec 4 Lab 8 Credit 8

This course will build on the electrical and electronic basics learned in AUT-610, Automotive Electrical I. The semiconductor will be explained and the application used in the automobile will be explored. The students will learn digital logic and computer functions and operations, which make today's automobiles run. Prerequisite: AUT-610.

**AUT-700
AUTOMOTIVE HEATING AND AIR CONDITIONING**

Lec 1 Lab 3 Credit 2.5

This course will cover heating, venting, and air conditioning theory, components and operation. Alternative refrigerants, retrofitting, troubleshooting and service procedures will also be covered.

**AUT-800
ENGINE PERFORMANCE**

Lec 4 Lab 8 Credit 8

This course will study the fuel and ignition delivery systems that make the internal combustion engine perform. The course covers early carburetion through fuel injection and point type ignition to distributorless ignition systems. The students will learn the diagnosis and repair techniques needed to repair the computer-controlled automobiles of today.

**AUT-911
INTERNSHIP**

Lec 0 OJT 16 Credit 4

Supervised work experience with an approved auto technology employer. Individual student eligibility will be determined by the instructor. Placement will depend on the student's skill level and the availability of appropriate training sites. Prerequisites: AUT-166, AUT-244, AUT-405, AUT-505, AUT-610, AUT-625 and AUT-800. The following courses must have a minimum grade of C-: AUT-106 and AUT-126. Corequisites: AUT-190, AUT-207, AUT-246 and AUT-700.

Business Computer Applications (BCA)

**BCA-152
COMPREHENSIVE SPREADSHEETS**

Lec 2 Lab 2 Credit 3

This course covers concepts of spreadsheets and their applications to business. Introductory topics include spreadsheet creation, data manipulation, file sharing and protection, formatting, use of functions and formulas, and charts. Advanced topics will include creating macros, filtering, importing and exporting data and numerical and trend analysis. Application to business situations will be emphasized. Prerequisite: CSC-110.

**BCA-157
INTERMEDIATE SPREADSHEETS**

Lec 2 Lab 2 Credit 3

This advanced course in electronic spreadsheets emphasizes the use of advanced features of a leading electronic spreadsheet software package in a Microsoft Windows environment. Topics to be covered include spreadsheet editing, working with multiple worksheets, creating a Web page from a spreadsheet, developing spreadsheet applications, creating and using macros, using data tables and scenario management, importing data and enhancing a spreadsheet with Visual Basic for Applications. Prerequisite: Must complete one of the following courses with a minimum grade of C-; CSC-110 or CSC-140.

Biology (BIO)

**BIO-105
INTRODUCTORY BIOLOGY**

Lec 3 Lab 2 Credit 4

Introductory Biology is a lecture and lab course designed for non-science majors or as a refresher course of those wishing to take higher-level biology courses. Topics include chemistry of life, molecular and cellular biology, genetics, evolution, plant, animal, and fungi classification and ecology.

**BIO-112
GENERAL BIOLOGY I**

Lec 3 Lab 2 Credit 4

First semester of Biology for majors. Intensive cellular and molecular approach to the study of biological principles with emphasis on biomolecules, cellular biology, genetics and evolution. Prerequisite or Corequisite: CHM-165.

**BIO-113
GENERAL BIOLOGY II**

Lec 3 Lab 2 Credit 4

Second semester of biology for majors. Topics covered include: taxonomy and a survey of invertebrate and vertebrate organisms, fungi and plants. Prerequisites: Must complete the following classes with a minimum grade of C: BIO-112 and CHM-165.

**BIO-138
FIELD ECOLOGY**

Lec 2 Lab 2 Credit 3

A study of ecology and conservation using various resources but including "A Sand County Almanac" by Aldo Leopold in conjunction with both field and lab work.

**BIO-151
NUTRITION**

Lec 3 Credit 3

This course explores nutrition as it relates to health, disease and stages of human development and life cycle. Emphasis is on essential nutrients, what they are and how they are used by the body. Food safety and food technology will be covered.

**BIO-157
HUMAN BIOLOGY**

Lec 3 Lab 2 Credit 4

Introductory course that focuses on the chemistry, histology, organization and function of major human body systems. It continues with a survey of human genetics, inheritance, evolution and ecology.

**BIO-163
ESSENTIALS OF ANATOMY AND PHYSIOLOGY**

Lec 3 Lab 2 Credit 4

This introductory course is designed for the student needing a one-semester combined anatomy and physiology course with laboratory. All systems will be covered with greater emphasis on the cardiovascular, respiratory, immune and urinary systems. This course also provides background for the more advanced courses, BIO-168 and BIO-173.

**BIO-168
HUMAN ANATOMY AND PHYSIOLOGY I**

Lec 3 Lab 2 Credit 4

The first of a two-semester sequence providing a comprehensive study of the anatomy and physiology of the human body for college transfer and/or allied health prerequisites. Topics include body organization; homeostasis; cytology; histology; and the integumentary, skeletal, muscular, nervous systems and special senses. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. Laboratory component includes anatomical studies using microscopy and dissection of selected organisms as well as the study of physiological concepts via experimentation. It is highly recommended that a student complete this series (BIO-168 and BIO-173) at SCC in order to maintain transferability to four-year institutions.

BIO-173**HUMAN ANATOMY AND PHYSIOLOGY II****Lec 3 Lab 2 Credit 4**

Second of a two-semester sequence continuing the comprehensive study of the anatomy and physiology of the human body for college transfer and/or allied health prerequisites. Includes the study of the endocrine, cardiovascular, lymphatic/immune, respiratory, digestive, urinary and reproductive systems. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. Laboratory component includes anatomical studies using microscopy and dissection of selected organisms as well as the study of physiological concepts via experimentation. Prerequisite: BIO-168 with a minimum grade of C.

BIO-186**MICROBIOLOGY****Lec 3 Lab 2 Credit 4**

A study of microbial populations and their relationships to the human in health and diseases.

BIO-217**SCIENCE OF MONSTERS****Lec 3 Credit 3**

Science of Monsters is a lecture course designed for non-science majors and explores basic principles of science in a novel format. A heavy emphasis is put on critical thinking and analyzing sources of information. Topics include chemistry of life, cryonics, genetics, diseases, vampirism, dragons, embryology, cloning and parasites. This course will also examine skepticism, eyewitness testimony and the cultural influence on the development of monster stories. Topics will be applied to discussion of things deemed monstrous in cinema, mythology and lore.

BIO-246**INTRODUCTION TO GENETICS****Lec 3 Lab 2 Credit 4**

Introduction to Genetics provides a basic knowledge concerning the transmission and expression of hereditary traits in cells, individuals and populations. Topics in the course will include the structural and functional features of genetic material, how genetic information is stored, coded and expressed in organisms as well as a discussion of the rapidly evolving research around genetics and its relevance to the student. At the end of the course, the student is expected to (a) understand and be able to

www.scciova.edu (319) 208-5000

discuss basic concepts of genetics and (b) to be able to carry out the typical genetic analysis on various samples including their own DNA in the lab.

BIO-248**INTRODUCTION TO BIOSCIENCE TECHNOLOGY****Lec 3 Lab 2 Credit 4**

An exploration of the expanding field of biotechnology and how it impacts science and society. Fundamental biological, chemical and mathematical principles as they apply to biotechnology are examined. Laboratory emphasizes essential methodologies employed in scientific inquiry and experimentation.

BIO-277**EVOLUTION****Lec 3 Credit 3**

The course is an introduction to evolution by natural selection. Topics include the origins of the Universe, Earth and life as well as Darwin and natural selection. Topics also include Mendel and genetics/DNA. The evidence for evolution is presented, as is an overview of the controversy over evolution in the United States.

BIO-912**CURRENT TOPICS****Lec 1-3 Lab 1-6 Credit 1-3**

This topical approach to the foundational concepts of biology examines theories and issues in biology as they relate to varying special topics selected by the instructor. Biological concepts and theories that may be covered in the course include, but are not limited to, the scientific method, biological molecules, cell biology, evolution, classification, genetics, ecology and environmental issues. Due to the nature of the course, the current issues will vary. Upon completing the course, the student will have a basic understanding of the issues raised (i.e. basic information about the biology involved) and an ability to critically analyze and discuss the issues. The student will also gain experience in utilizing library and/or Internet research resources. Depending on the credit taken, additional lab-like activities as appropriate to the topics studied will be integrated into the course.

Business (BUS)

BUS-102**INTRODUCTION TO BUSINESS****Lec 3 Credit 3**

An overview of contemporary business principles touching on all the major functional areas of business and trends that are shaping today's business environment. Understanding the fundamental pillars of the business environment -- globalization, technology and ethics -- is a crucial component in this course.

BUS-119**ENTREPRENEURIAL MINDSET****Lec 1 Credit 1**

This course points students toward a mindset of motivational thinking that is useful in any career. Course activities are used to practice creative problem solving, turn circumstances into advantage, and see possibilities where others see problems. Learn the benefits of actively engaging in your workplace to make things happen.

Revised: 12/6/2023 9:07p.m.

**BUS-121
BUSINESS COMMUNICATIONS**

Lec 3 Credit 3

Designed to help the student develop effective communication techniques necessary for general business messages. The course emphasizes application of these techniques through the composition and keyboarding of letters, memos, reports and some oral presentations.

**BUS-124
BUSINESS INNOVATION**

Lec 3 Credit 3

This course is designed to help students get in touch with the innovative business mindset required for success in the 21st century. Students learn to be contributors, catalysts and thinkers within the innovation process. They develop skills as individuals and the team skills needed to collaborate, using available creative resources to leverage ideas and concepts throughout the innovation process.

**BUS-130
INTRODUCTION TO ENTREPRENEURSHIP**

Lec 3 Credit 3

Emphasizes organizational development and human resource concepts and their applications to small business operations. Leadership development, management styles and decision making strategies are stressed.

**BUS-131
SMALL BUSINESS MANAGEMENT STRATEGIES**

Lec 3 Credit 3

This course emphasizes organizational development and human resource concepts and their applications to small business operations. Leadership development, management styles and decision making strategies are stressed.

**BUS-135
MANAGING THE ENTREPRENEURIAL VENTURE**

Lec 3 Credit 3

This course provides students with an introduction to entrepreneurship and new venture creation. Students will examine the characteristics of successful entrepreneurs and managerial functions such as promotions and sales planning, decision making, staffing, organizing and directing. Students will develop an understanding of how financial systems, record keeping and risk management contribute to entrepreneurial success.

**BUS-141
SMALL BUSINESS START-UP**

Lec 3 Credit 3

This course focuses on information, examples, forms and activities needed for a business startup and for development of a successful business operation. Topics include market research and assessment, naming a business, finding a location, determining asset needs and forecasting sales, identifying job tasks and determining human resource needs and writing a business plan. Prerequisite: BUS-135.

**BUS-150
E-COMMERCE**

Lec 3 Credit 3

This course will introduce the student to the basic elements of electronic commerce as a market where commercial activities are conducted. It will focus on business concepts and how to apply technology in order to be successful. Topics include market trends, globalizing a company, vendor solutions, storefronts, advertising, resource requirements and operational issues of launching a commercial presence in today's global electronic marketplace.

**BUS-180
BUSINESS ETHICS**

Lec 3 Credit 3

This course introduces philosophical ethical theory and its application to business decisions. It considers theories of economic justice, social responsibility of corporations, regulation, conflict of interest and obligations, ethics of advertising, product quality and safety, environmental responsibility, hiring practices and rights of employers and employees.

**BUS-184
BASIC LAW FOR ENTREPRENEURS**

Lec 3 Credit 3

Provides a broad, practical examination of basic business law frameworks related to a new venture. Consideration is given to law-sensitive issues of intellectual property, employment law, business disputes, contracts, products liability and white-collar crime. Students will explore key legal questions around going public, selling the company and bankruptcy.

**BUS-185
BUSINESS LAW I**

Lec 3 Credit 3

The legal environment of business. The study of contract requirements, personal property and bailments, as time permits.

**BUS-186
BUSINESS LAW II**

Lec 3 Credit 3

A continuation of BUS-185 in the area of: sales, principal agent relationships, commercial paper, creditors rights and secured transactions, real property and bankruptcy. Prerequisite: BUS-185.

**BUS-203
PROFESSIONAL DEVELOPMENT**

Lec 2 Credit 2

This course is designed to build student skills in setting goals, conversation, meetings, parliamentary procedure, business meals and travel, customer service, presentations, professional image, and writing cover letters and resumes. The course also requires attendance at leadership, civic and cultural events.

**BUS-290
EMPLOYMENT SEARCH/WORKPLACE SUCCESS**

Lec 1 Credit 1

A discussion of field experience problems and study of new occupational information will be presented. An internship paper covering the experience will be submitted. Corequisite: BUS-932.

**BUS-932
BUSINESS INTERNSHIP**

Lec 0 OJT 12 Credit 3

This course is designed to provide the Administrative Professional student with practical experience in a business office prior to completion of the Associate of Applied Science degree. The internship is an extension of the curriculum and provides meaningful experience related to the student's area of interest. The student is overseen by the program coordinator and by an appointed supervisor at the internship worksite. Corequisite: BUS-290.

BUS-936**BUSINESS CAPSTONE (ONLINE)****Lec 1 Credit 1**

This course is designed to serve as a capstone class for Business majors. Topics covered in the course will include resumes, interview skills and professionalism. In addition, each student will complete a case study in his/her particular area of interest including but not limited to accounting, management, marketing and economics. In lieu of a case study, a service learning or other project may be completed. A professional presentation of whichever activity is selected will be made. An end-of-program assessment will be taken as a part of this course. Prerequisite: Student must have completed at least 48 credit hours in Business Administration Degree or Program Coordinator Approval.

Computer Aided Drafting (CAD)

CAD-101**INTRODUCTION TO CAD****Lec 1 Lab 4 Credit 3**

An introduction to computer aided design and drafting. Actual hands-on experience in designing, drawing and dimensioning using CAD micro-based CAD software. The course presents logical step-by-step instruction about the CAD commands, mode settings, drawing aids, shortcuts and other valuable characteristics of CAD. Finished copies of the students' work will be made on a printer or plotter.

CAD-140**PARAMETRIC SOLID MODELING****Lec 1 Lab 4 Credit 3**

This course covers the basics of creating parts, modeling utilities, creating engineering drawings and creating assemblies using solid modeling software. Prerequisites: CAD-101 and CAD-277.

CAD-172**INTRODUCTION TO CAD - AUTO CAD (ONLINE)****Lec 1 Lab 2 Credit 2**

An introduction to computer aided design and drafting. Actual hands-on experience in designing, drawing and dimensioning using AutoCAD micro-based CAD software. The course presents logical step-by-step instruction about the AutoCAD commands, mode settings, drawing aids, shortcuts and other valuable characteristics of AutoCAD. Finished copies of the students' work will be made on a printer or plotter.

CAD-248**PARAMETRIC CAD II**

www.scciova.edu (319) 208-5000

Lec 1 Lab 4 Credit 3

A continuation of computer aided design (CAD) using SolidWorks software. The student will learn to create and print parametric solids as well as how to use SolidWorks to analyze objects. Prerequisite: CAD-140.

CAD-277**3-D DIMENSIONAL (3-D) MODELING I****Lec 1 Lab 4 Credit 3**

This course teaches parametric solid model CAD basics. Three-dimensional parametric concepts with design intent and solid CAD models will be built and edited. This course builds on previous basic drafting skills and focuses on using parametric solid modeling design software to develop technical drawings. Topics include patterns of features, editing, adding dimensions and creating simple assemblies. Prerequisite: CAD-101.

CAD-932**INTERNSHIP****Lec 0 OJT 16 Credit 4**

Students will engage in work experience with an approved Computer Aided Design employer. Individual student eligibility will be determined by the instructor. Placement will depend on the student's skill level and the availability of appropriate training sites. Prerequisites: CAD-101 and CAD-277 or Instructor Approval.

Computer Forensics (CFR)

CFR-100**INTRODUCTION TO COMPUTER FORENSICS****Lec 2 Lab 2 Credit 3**

This course deals with the preservation, identification, extraction, documentation and interpretation of computer data. Special computer skills and tools will be introduced. Legal concerns and ethical conduct will be emphasized. Knowledge in Linux OS and report writing required. Prerequisites: ENG-105 or Instructor Approval, NET-142, NET-314, NET-442 and NET-637.

Chemistry (CHM)

CHM-115**CHEMISTRY IN CONTEXT****Lec 3 Lab 2 Credit 4**

Students will learn basic general chemistry in the context of studying aspects of chemistry visible to a non-scientist in our society. Selected areas of chemistry such as water, fire, and our environment will be included, with an emphasis on the interface between chemistry and human everyday experiences. Prerequisite: MAT-062.

CHM-122**INTRODUCTION TO GENERAL CHEMISTRY****Lec 3 Lab 2 Credit 4**

This introductory course is intended for non-science majors or for science majors who need a background in chemistry before

taking College Chemistry I. Topics covered include properties of matter, measurements, atomic structure, chemical bonding and stoichiometry. Prerequisite: One year of high school algebra, MAT-062 or equivalent placement test scores. Please speak to an Enrollment specialist if you have completed high school algebra.

CHM-165 GENERAL CHEMISTRY I

Lec 3 Lab 2 Credit 4

The first semester of a traditional two-semester sequence. General Chemistry I provides an in-depth and integrated study of chemical principles, including terminology, measurements, unit conversions, atoms, elements, molecules, compounds, moles, stoichiometry, gases and gas laws, energy, electron configurations, periodicity and chemical bonding. Prerequisites: Must complete high school algebra or equivalent (math placement test scores or MAT-062). Take CHM-122 or BIO-252. Please speak to a Student Success Advocate if you have completed 1 year of high school chemistry, as that would also meet the prerequisite.

CHM-175 GENERAL CHEMISTRY II

Lec 3 Lab 2 Credit 4

The second semester of the traditional two semester sequence. General Chemistry II covers basic principles of intermolecular forces, colligative properties, reaction kinetics, chemical equilibria, acids and bases, precipitation reactions, spontaneity and electrochemistry. Prerequisite: CHM-165.

CHM-263 ORGANIC CHEMISTRY I

Lec 4 Lab 2 Credit 5

Fundamental principles of organic chemistry for premedical, pre-dental, pre-pharmacy, biochemistry, medical technology, forestry and home economics students, as well as liberal arts students who have a special interest in the sciences. These general principles are illustrated by preparation and study of typical representatives of the aliphatic and aromatic series including all common functional groups. Prerequisite: CHM-175 successful completion.

CHM-273 ORGANIC CHEMISTRY II

Lec 4 Lab 2 Credit 5

Continuation of Organic Chemistry I, with advanced synthesis, instrumental analysis and emphasis on biochemistry. Prerequisite: CHM-263 successful completion.

Computer Programming (CIS)

CIS-125 INTRODUCTION TO PROGRAMMING LOGIC WITH LANGUAGE

Lec 2 Lab 2 Credit 3

Introduction to computer programming with structured program development and module designs emphasized. Write programs related to several areas, including input/output, numerical

computation, iteration, recursion, data manipulation and interactive procedures.

CIS-161

C++

Lec 2 Lab 2 Credit 3

Students will examine the structure of typical C++ programs, explore the concepts of object-oriented programming and design business applications in C++.

CIS-332

DATABASE AND SQL

Lec 2 Lab 2 Credit 3

This course is an introduction to SQL as a database programming language to those already familiar with basic relational database concepts. Students will write executable SQL statements to create and maintain database objects.

CIS-366

GAME DEVELOPMENT I

Lec 2 Lab 2 Credit 3

Students will learn concepts related to mobile 2D game development and then apply what they learn to a variety of scenarios through examples and tutorials. The culmination of this course involves creating a fully functional 2D game. Prerequisite: CIS-125.

CIS-367

GAME DEVELOPMENT II

Lec 2 Lab 2 Credit 3

In Game Development II, students will learn to add depth and advanced functionality into their games. Multiplayer components will be added, along with support for other languages and analytics tools in order to collect data from player behavior. The difference in mobile marketplaces along with developer requirements will be explored and techniques for monetizing games investigated. Prerequisite: CIS-366.

CIS-504

STRUCTURED SYSTEMS ANALYSIS

Lec 2 Lab 2 Credit 3

This course will provide theory and practice in the complete process of systems analysis and design and the steps involved. Actual systems analysis and design lab practices will measure the student's understanding as well as provide an opportunity to apply concepts in project management. Prerequisites: ENG-105 or Instructor Approval, NET-122, NET-142, NET-442 and CIS-125.

CIS-749

IT PROJECT MANAGEMENT

Lec 2 Credit 2

This course will provide students with essential project management skills as part of their job duties. Upon successful completion, students will be able to manage small projects using essential project management concepts. Students will prepare for and take the CompTIA Project+ certification exam. Prerequisites: CIS-504 and MGT-101.

CIS-802

SOFTWARE DEVELOPMENT CAPSTONE

Lec 2 Lab 2 Credit 3

Requires application of knowledge gained from programming design in the analysis, design, scheduling and implementation of

a complete software application for mobile devices. This course should be taken in the student's final semester. Prerequisite: CIS-367. Corequisite: CIS-504.

CIS-810
EMERGING TECHNOLOGIES SEMINAR

Lec 1 **Credit 1**

This course will provide the student with the skills to research, evaluate and make recommendations about new products and emerging technologies. Students will explore and research changing technologies and will make professional presentations of their findings. Prerequisites: CIS-504, CFR-100, NET-101, NET-310, NET-627 and NET-637.

Communications (COM)

COM-102
COMMUNICATION SKILLS

Lec 3 **Credit 3**

This course is structured to develop the fundamentals of acceptable communication and technical expression relevant to the student's career requirements: reading, writing, listening and speaking. Prerequisites: Meet minimum placement test score requirements or a minimum grade of C- in ENG-061.

COM-140
INTRODUCTION TO MASS MEDIA

Lec 3 **Credit 3**

See www.iowacconline.org for more information.

Construction (CON)

CON-113
CONSTRUCTION PRINTREADING

Lec 1 **Lab 2** **Credit 2**

Stresses principles of interpreting trade blueprints and reading of specifications basic to all aspects of the trades. Deals with types of line, development and arrangement of views, dimensioning practices and invisible edges. Practical problems from prints suited to the particular trade will be incorporated.

CON-128
CONSTRUCTION MANAGEMENT ESTIMATING

Lec 2 **Lab 2** **Credit 3**

Interpretation of construction drawings and specifications. Introduction to estimating quantities, cost of materials and labor costs. Work methods, job planning, project scheduling and control, field administration and management procedures of contracting will be covered.

CON-147
CARPENTRY I

Lec 3 **Lab 6** **Credit 6**

This is a course designed to enable students to develop basic skills and knowledge in carpentry. Included in this course is the study of construction techniques with emphasis on basic safety, basic math, introduction to hand and power tools, basic rigging, fasteners, wood building materials, floor and wall systems, site preparation, concrete and reinforcement materials, concrete handling and forming foundations and flatwork. This course

www.scciowa.edu (319) 208-5000

will introduce the national OSHA safety standards for general construction and upon completion of this course students will receive the OSHA 10 hour General Construction certification.

CON-148
CARPENTRY II

Lec 3 **Lab 6** **Credit 6**

A course designed to further enable students to develop carpentry skills with emphasis on special floor, wall and roof systems, reading plans and elevations, field engineering principles, forming and water and damp proofing. Prerequisite: CON-147.

CON-149
CARPENTRY III

Lec 3 **Lab 6** **Credit 6**

A continuation of carpentry skills with emphasis on stair construction, reinforcing concrete, patented forms, interior finish: ceiling systems, exterior wall finishes, roofing applications and installation of cornices, gutters and downspouts. Prerequisite: CON-148.

CON-252
CONSTRUCTION ELECTRICITY

Lec 1 **Lab 4** **Credit 3**

This course introduces the requirements for and installation of residential and light commercial electrical systems. Emphasis will be placed on local and national Electrical Codes. Hands-on experience will include such activities as basic wiring of the service entrance, panel box, circuits, switches, receptacles, telephone and TV jacks, door chimes, smoke detectors and other similar electrical devices. This course is specifically designed for those students choosing a Construction or Design curriculum.

CON-262
COMMERCIAL CARPENTRY II

Lec 3 **Lab 6** **Credit 6**

A course of further carpentry with emphasis on finished stairs, introduction to supervision, laser instruments, supplements to ceiling systems, metal studs and drywall, interior finish: doors and windows, wall and floor specialties and cabinetry. Prerequisite: CON-149.

CON-270
MECHANICAL SYSTEMS

Lec 1 **Lab 4** **Credit 3**

A course designed to introduce students to the requirements of residential and light commercial plumbing, heating and ventilation systems. Emphasis will be placed on local and national code requirements. Study will include the building requirements to receive each system, determining the size of system components and the theory of size calculations. Hands-on experience will include such activities as working with DWV piping, water supply piping, plumbing fixtures, heat and vent ducting, heating controls and ventilation components.

CON-332
CONSTRUCTION MATERIALS AND RESOURCES

Lec 3 **Credit 3**

This course is designed as a comprehensive overview of the construction industry and materials used in the profession. It is a conceptual treatment of the construction-personnel production

system. Also included is a study of the materials of construction, their properties, manufactures, characteristics and applications.

CON-340

CONSTRUCTION SURVEYING

Lec 2 Lab 2 Credit 3

Leveling, topographic surveying, triangulation, horizontal and vertical angles, area, determination and other basic construction applications. Includes the layout of buildings and road curvatures, care and use of instruments.

CON-345

SOILS AND CONCRETE

Lec 3 Credit 3

This course is a study of the characteristics of soil and concrete. Such components as design, core samples, grain structure, compaction and strength test, mixes, treatments, reinforcement, "slump test", etc., will be covered as well as varied application and installation methods.

CON-350

INTERNSHIP

Lec 0 OJT 20 Credit 5

Provides the student with the opportunity to integrate classroom learning and experiences in a construction industry setting. Internship agreement must be completed before students may enroll. Prerequisite: At least two construction courses must be completed with a minimum grade of a C in each course.

Certified Professional Coder (CPC)

CPC-110

ESSENTIALS OF MEDICAL CODING AND BILLING

Lec 1 Lab 2 Credit 2

This is an introductory course which will introduce the student to the essential components of Medical Coding and Billing. The student will identify the basics of Electronic Health Records (EHR). Students will also learn the purpose, terminology, documentation requirements and functionality along with the legal and regulatory guidelines. This will include practice exercises to provide hands-on experience using EHR software to complete medical coding and billing tasks in the health care provider office setting. The course will also provide information on the uses of common brand and generic drug names. This information will help coders understand how to use medication information to identify situations in which further inquiry about comorbidities or complications may be necessary and ensure accurate reporting of chronic healthcare conditions. Corequisite: CPC-128.

CPC-121

INTRODUCTION TO MEDICAL PROCEDURAL CODING

Lec 5 Lab 1 Credit 5.5

This course prepares students for a career in medical coding in the medical office. Introduction to current procedural terminology (CPT) manual, HCPCS and medical coding compliance and guidelines. Corequisites: CPC-126 and CPC-128.

CPC-126

DIAGNOSTIC CODING

Lec 3 Lab 2 Credit 4

This course will prepare the student for application coding along with compliance as it is related to diagnostic coding. The student will be able to identify, assign, sequence and report all applicable diagnostic codes in accordance with the ICD-10-CM official guidelines. Corequisites: CPC-121 and CPC-128 with a minimum grade of a C.

CPC-128

INTRODUCTION TO MEDICAL INSURANCE AND BILLING

Lec 3 Credit 3

This course is designed to assist students in understanding the complexities of current insurance and billing procedures in the medical office or clinic setting. The student will obtain a sound foundation of the nuances, guidelines and requirements involved. The student will be familiarized with claims submission for major medical insurance/reimbursement programs. Corequisites: CPC-121 and CPC-126.

CPC-131

MEDICAL INSURANCE AND BILLING II

Lec 2 Lab 2 Credit 3

This course will discuss all aspects of insurance billing for today's health care plans. The latest information on HIPAA and OIG regulations, diagnostic and procedural coding, and office and insurance collection strategies will be covered, ensuring preparation for real-world situations. Also covered will be the importance of the medical insurance specialist's role in filing clean claims, solving problems that do occur and collecting overdue payments. Prerequisites: HSC-114, CPC-110, CPC-121, CPC-126 and CPC-128. Corequisites: CPC-151 and CPC-160.

CPC-151

MEDICAL PROCEDURAL CODING

Lec 4 Credit 4

This course will discuss in depth CPT and HCPCS guidelines and the assignment of codes. Modifier assignment, ICD-10 selection, medical necessity regulations, documentation guidelines, HIP AA law and chart auditing are also covered. Prerequisites: BIO-163, HSC-114 and CPC-121. Corequisite: CPC-160.

CPC-160

APPLICATIONS OF PROCEDURAL CODING

Lec 0 Lab 4 Credit 2

This course allows the student to apply knowledge of CPT, modifier assignment, HCPCS, ICD-10 selection, with medical necessity. Prerequisites: BIO-163, CPC-110, CPC-121, CPC-126, CPC-128 and HSC-114. Corequisites: CPC-131 and CPC-151.

CPC-170

PATIENT ACCESS TO HEALTHCARE

Lec 32 Credit 2

This course prepares the student for the front line of healthcare services for patients entering a hospital or clinic. This course places an emphasis on customer service skills, patient registration, patient scheduling, the fundamentals of the revenue cycle, billing and reimbursement, HIPAA and practical

experience and understanding of electronic health records.
Corequisites: HSC-114, MAP-401 and MAP-431.

CPC-820

MEDICAL CODING AND BILLING PRACTICUM

Lec 1 Lab 10 Credit 3.5

This course prepares the student for job readiness skills needed in their chosen career of medical coding and billing. The student will complete an online series of modules to get real-world coding experience and test medical coding proficiency using real, redacted medical record cases from multiple specialties. A mock certification examination will be taken. Prerequisites: Students must have completed all required program courses with a "C" or above in each course and earned a cumulative program GPA of 2.0 or above before the end of the final spring semester to be eligible to enroll.

Criminal Justice (CRJ)

CRJ-100

INTRODUCTION TO CRIMINAL JUSTICE

Lec 3 Credit 3

An introductory course in criminal justice designed to provide a philosophical and historical account of American criminal justice with emphasis on constitutional limitation.

CRJ-111

POLICE AND SOCIETY

Lec 3 Credit 3

An examination of the role of the police and corrections in American society and a discussion of prominent issues. The course will examine the various eras of policing and correctional agencies. The structure and style of various policing and correctional agencies will also be covered. Agency application of internal and ethical issues including use of force will be examined. Strategies and policies to improve policing and the correctional work environment will also be discussed.

CRJ-120

INTRODUCTION TO CORRECTIONS

Lec 3 Credit 3

Trace the history of corrections and describe the various methods society has used to deal with people who violate its rules. The course will show the relationship of corrections and agencies to the overall criminal justice system.

CRJ-128

VICTIMOLOGY

Lec 3 Credit 3

In this course, we will examine the field of victimology, including its scope and development, review the problems associated with victimization, examine the relationship between the victim and the offender, the victim and the criminal justice system and the victim and society. We will also discuss various practical applications and policies that have resulted from society's increasing concern about victims.

CRJ-130

CRIMINAL LAW

Lec 3

Credit 3

A study of the history, development and classification of substantive and procedural aspects of criminal law, defenses and criminal responsibility.

CRJ-132

CONSTITUTIONAL LAW

Lec 3 Credit 3

An analysis of the relationships between state legislations and the Bill of Rights. Includes the effect of the due process clause of the 14th Amendment on the application of the Bill of Rights to these states and Supreme Court decisions regarding the various state challenges.

CRJ-141

CRIMINAL INVESTIGATION

Lec 3 Credit 3

Fundamental methods of investigation, crime scene search, recording, collection and preservation of evidence, interview and interrogation, and case follow-up.

CRJ-932

INTERNSHIP

Lec 0 OJT 12 Credit 3

A practical work experience under professional supervision in a criminal justice agency. Prerequisite: Completion of Criminal Justice core or Permission of Instructor.

Collision Repair and Refinishing (CRR)

CRR-100

INTRODUCTION TO COLLISION REPAIR AND REFINISHING INDUSTRY

Lec 1 Lab 2 Credit 2

Students will be introduced to the history of the automotive industry, the collision repair process, tools and equipment, and terminology. Students will be introduced to safety in the collision repair industry using environmental safety practices and regulations. This course introduces students to safety practices and personal protective equipment standard to the industry. Vehicle lift and jack safety are introduced in this course.

CRR-106

FUNDAMENTALS OF COLLISION REPAIR AND REFINISHING

Lec 2 Lab 2 Credit 3

Students will learn to identify proper safety procedures in the shop, vehicle construction materials, parts and tools, mechanical systems, and paint refinish operations. Also, this course will provide instruction on damage analysis, developing a repair plan, estimating, and finding vehicle manufacturer collision repair procedures.

CRR-112

DISASSEMBLY AND REASSEMBLY

Lec 1 Lab 4 Credit 3

This course prepares the student with a comprehensive understanding of the process to disassemble and reassemble

a collision damaged vehicle. The student will demonstrate proper removal and re-installation of parts and panels. Part alignment will be taught, following OEM repair procedures. The various attachment methods are explained in the classroom and experienced in the shop. The protection of the parts and the vehicle, organization and storage of parts and panels as well as proper parts disposal are taught. The importance of part identification, matching, and ordering are included in the process. Prerequisite: CRR-106 or Instructor Approval.

CRR-117

SMALL DENT REPAIR

Lec 1 Lab 4 Credit 3

This course provides instruction to the student on how to repair small dents in automotive steel and automotive aluminum. Vehicle construction types and various attachment methods are explained in the classroom and experienced in the shop. Students are taught a process for small dent repair including surface preparation, dent removal techniques, application of body filler, proper sanding, and the application of paint primer. Tools and equipment for working with small dents are presented in the classroom and applied hands-on in the shop. Prerequisite: CRR-106 Fundamentals of Collision Repair and Refinishing or Instructor Approval.

CRR-123

INTRODUCTION TO AUTOMOTIVE REFINISH OPERATIONS

Lec 2 Lab 2 Credit 3

This course provides instruction to the student on how prepare a collision damaged vehicle for paint application. Identification of paint codes, preparation, mixing, and paint application are taught. Paint gun prep and cleaning are taught. Spray booth setup and maintenance are taught. Tools and equipment for refinish operations are presented in the classroom and applied hands-on in the shop. Students will learn proper detailing techniques along with appropriate vehicle inspection and removal of finish defects techniques used in the industry. Prerequisite: CRR-106 or Instructor Approval.

CRR-124

AUTOMOTIVE REFINISH OPERATIONS II

Lec 2 Lab 6 Credit 5

This course provides students a comprehensive understanding of refinish operations including, but not limited to sanding, feather edging, masking, and blending. Students will be exposed to the use of automotive foams and sealants. Color matching is explained for use with primers, base coat, color coat, and clear coats. Prerequisites: CRR-100, CRR-106, CRR-112, CRR-117, and CRR-123 or Instructor Approval.

CRR-205

WELDING IN COLLISION REPAIR

Lec 1 Lab 6 Credit 4

This course will serve as an introduction to MIG welding used in collision repair. Students will learn how to identify and perform proper welding techniques to repair steel and aluminum vehicles. Students have the opportunity to practice welding in the shop environment. Prerequisites: CRR-100, CRR-106, CRR-112, CRR-117, and CRR-123, or Instructor Approval.

CRR-220

PLASTIC REPAIR

Lec 1 Lab 4 Credit 3

This course provides instruction to the student on how to repair automotive plastic. The plastic repair process is defined. Identification of types of plastics and the characteristics of each are taught. Adhesive repairs and plastic welding are taught and are developed in the shop. Bumper repair for tears, scratches, and holes are presented and practiced in the shop. Prerequisites: CRR-100, CRR-106, CRR-112, CRR-117, CRR-123, or Instructor Approval.

CRR-455

AUTOMOTIVE GLASS REMOVAL AND REPLACEMENT

Lec 1 Lab 2 Credit 2

This course examines the types of movable glass and considerations for removal and replacement. Students will be exposed to common causes and effects of water and dust leaks. Wind noise and leak prevention techniques will be discussed. Appropriate diagnosis and repair procedures will be explained. Prerequisites: CRR-100, CRR-106, CRR-112, CRR-117, and CRR-123, or Instructor Approval.

CRR-505

STRUCTURAL REPAIR OPERATIONS

Lec 2 Lab 6 Credit 5

This course emphasizes the principles of measuring and the differences between electronic and fixture-type measuring systems. Students will learn to identify damage conditions through applying measuring principles. Vehicle construction material types will be discussed. New types of steels used in unitized vehicle structures and modern construction processes will be explored. Corrosion origins and prevention will be discussed with an emphasis on corrosion protection during and after repairs. Repair options available for external panel repairs will be applied. Prerequisites: CRR-100, CRR-106, CRR-112, CRR-117, CRR-123, CRR-124, CRR-205, CRR-220, and CRR-455, or Instructor Approval.

CRR-615

COLLISION REPAIR OF MECHANICAL SYSTEMS

Lec 1 Lab 6 Credit 4

This course provides instruction on the mechanical systems as they relate to collision repair. Cooling, air conditioning, brake, drivetrain, and steering and suspension are analyzed for damage and repair. Prerequisites: CRR-100, CRR-106, CRR-112, CRR-117, CRR-123, CRR-124, CRR-205, CRR-220, and CRR-455, or Instructor Approval.

CRR-755

DAMAGE ANALYSIS AND ESTIMATING

Lec 2 Lab 6 Credit 5

This course provides continued instruction on assessing collision damage and converting the information into an estimate and a repair plan. Students will receive instruction on an electronic estimating system and demonstrate skills utilizing one of the systems. Insurance operations are explored, including damage analysis for hail, fire, theft, and total loss. Students will prepare repaired panels for refinish operations. Process flow through the shop is introduced, beginning with the initial damage analysis; researching OEM repair procedures; writing of the estimate; producing the repair order; shop production; teardown; collision damage repairs; and preparing the repaired damage for

paint. Prerequisites: CRR-100, CRR-106, CRR-112, CRR-117, CRR-123, CRR-124, CRR-205, CRR-220, CRR-455, CRR-505, CRR-615, and CRR-775, or Instructor Approval.

CRR-775

COLLISION REPAIR DIAGNOSTICS AND RECALIBRATION

Lec 2 Lab 8 Credit 6

Electrical systems will be analyzed for damage and the development of repair plans. Electrical troubleshooting is explored and practiced in the lab. Electric and hybrid vehicle operating systems are taught along with shop safety techniques specifically developed for these vehicle types. Restraint systems including seat belts, airbags, and sensors are presented and explored in the lab. The inspection, repair, and recalibration of safety systems will be covered. Prerequisites: CRR-100, CRR-106, CRR-112, CRR-117, CRR-123, CRR-124, CRR-205, CRR-220, and CRR-455, or Instructor Approval.

CRR-855

AUTOMOTIVE REFINISH OPERATIONS III

Lec 2 Lab 6 Credit 5

This course will expose students to proper techniques to use when working with sealers, primer-sealers, basecoats, and clearcoats. Preparation of refinishing materials and application considerations will be discussed and applied in a hands-on lab setting. Students will learn various blending techniques to ensure proper overall appearance. Students will learn to adjust tint, hue, and chroma to obtain a blendable color match. Color theory, mixing toners, tinting, and the various considerations that affect color will be addressed using electronic paint formulation systems and other tools used in today's collision repair and refinish industry. Waterborne refinish materials and systems will be discussed with an emphasis on proper storage, waste disposal, and waterborne conversions. Prerequisites: CRR-100, CRR-106, CRR-112, CRR-117, CRR-123, CRR-124, CRR-205, CRR-220, CRR-455, CRR-505, CRR-615, and CRR-775, or Instructor Approval.

CRR-865

ADVANCED AUTOMOTIVE REFINISH OPERATIONS

Lec 1 Lab 8 Credit 5

Hazardous airborne pollutants will be studied and protective measures in the shop will be taught and demonstrated. Liquid and solid hazardous waste storage and disposal is examined in depth. Students will earn a National Emission Standards for Hazardous Air Pollutants (NESHAP) credential in this course. Students will demonstrate principles of perception of color, color evaluation, and appropriate tinting procedures. Prerequisites: CRR-100, CRR-106, CRR-112, CRR-117, CRR-123, CRR-124, CRR-205, CRR-220, CRR-455, CRR-505, CRR-615, and CRR-775, or Instructor Approval.

CRR-932

INTERNSHIP

Lec 0 OJT 16 Credit 4

Supervised work experience with an approved automotive collision repair or refinish employer. Individual student eligibility will be determined by the instructor. Placement will depend on the student's skill level and the availability of appropriate training sites. Prerequisites: CRR-100, CRR-106, CRR-112, CRR-117, CRR-123, CRR-124, CRR-205, CRR-220,

www.scciowa.edu (319) 208-5000

CRR-455, CRR-505, CRR-615, and CRR-775, or Instructor Approval.

Computer Science (CSC)

CSC-110

INTRODUCTION TO COMPUTERS

Lec 3 Credit 3

This course provides an introduction to computer concepts. The student will use the Windows operating system, presentation software, electronic spreadsheet software, database management software and word processing software. Microcomputer hardware and software as well as the processing concepts associated with each will be discussed. The course will also include information on file management, the Internet, virus protection and e-mail basics as applicable to the academic world as well as the business environment. Lab time outside of class is required to complete projects.

CSC-116

INFORMATION COMPUTING

Lec 2 Lab 2 Credit 3

This course presents the basic concepts of information systems and computer literacy. The course incorporates theory as well as hands-on practice which focuses on spreadsheets and database management systems (DBMS).

CSC-140

COMPUTER FUNDAMENTALS

Lec 3 Lab 2 Credit 4

This course is an introduction to the microcomputer in both hardware and software. The terminology, internal structure, board identification and associated peripheral equipment will be introduced. The Microsoft Office suite will be covered. The operating system will be covered along with structured programming in QBASIC.

CSC-142

COMPUTER SCIENCE

Lec 3 Lab 2 Credit 4

This course introduces computer programming including data types, expressions, input/output, control structures, functional and object-oriented programming, and simple data structures. Students will be exposed to problem-solving skills through program refinement, documentation, and programming style.

CSC-153

DATA STRUCTURES

Lec 3 Lab 2 Credit 4

This course continues the study of program design and construction began in CSC-142. An emphasis will be placed on data structures and practice in their specification, design, implementation, and use. Topics covered will include container classes, arrays, lists, stacks, queues, trees, graphs, algorithm analysis, object-oriented programming, data abstraction, and searching and sorting techniques. Prerequisite: CSC-142.

CSC-160

SOFTWARE DESIGN

Lec 3 Lab 2 Credit 4

This course builds on the foundation of basic programming skills acquired in CSC-142. An emphasis will be placed on the

Revised: 12/6/2023 9:07p.m.

design and development of software systems, including user interface programming, graphics and multimedia, networking and concurrency. This course provides experience developing software over an extended time period through long-term projects. Prerequisite: CSC-142.

Film and Theatre (DRA)

DRA-101

INTRODUCTION TO THEATRE

Lec 3 Credit 3

Orientation to the theatre, including a study of dramatic structure through selected play readings and through research in the basic theories of theatre.

DRA-110

INTRODUCTION TO FILM

Lec 3 Credit 3

This course introduces students to the various language systems of film, including film-making techniques, creators, genres, narratives, ideology and film theory/criticism. Students will explore the cultural importance of cinema as art by analyzing selected movies and clips which demonstrate artistic excellence.

DRA-141

THEATRE AND SPEECH PARTICIPATION I

Lec 0 Lab 2 Credit 1

A concentrated laboratory course in specific areas of speech or theatre projects. Supervised participation involving the research, analysis and preparation of a specific speech or theatre project. Students will perform or demonstrate their skills at speech contests, community organization programs or public performances sponsored by the College. The student must arrange for the area of participation prior to enrollment. May be repeated to a maximum of 4 semester hours.

DRA-142

THEATRE AND SPEECH PARTICIPATION II

Lec 0 Lab 4 Credit 2

A more extensive application of DRA-141. The student elects to participate in more than one area of speech or theatre programs or assumes a major role in assisting with speech or theatre performance. The student must arrange for the areas of participation prior to enrollment. May be repeated to a maximum of 4 semester hours.

DRA-165

STAGECRAFT

Lec 2 Lab 2 Credit 3

This hands-on course will introduce students to scenery, costume and property construction along with lighting and sound design. Included are stage development, theater safety and basic techniques involved in producing a live performance. Participation outside of class on a current production (either for SCC or a community production) is required.

Drafting (DRF)

DRF-113

FUNDAMENTALS OF TECHNICAL DRAFTING

Lec 1 Lab 4 Credit 3

Fundamentals of drawing techniques conveyed using free hand sketching. Emphasis is placed on the ability to visualize in three dimensions, neatness, accuracy, legibility, speed and use of computer graphics in the solution of graphic problems.

Early Childhood Education (ECE)

ECE-103

INTRODUCTION TO EARLY CHILDHOOD EDUCATION

Lec 3 Credit 3

This course is an overview of early childhood programs and curricula, historical and present, and an examination of qualities and skills necessary for working with young children.

ECE-123

FAMILY, TEACHER AND COMMUNITY INTERACTION

Lec 3 Credit 3

This course will provide an introduction to the family systems and parenting in a changing society. Principles of child development with family relationships applied to group and individual work with parents will be covered. This course will assist providers in developing skills that will help them effectively relate to parents. Topics will include: communication techniques, children's fears, discipline, nutrition, diversity, children's play and discovery as learning opportunities and school/community resources.

ECE-133

CHILD HEALTH, SAFETY AND NUTRITION

Lec 3 Credit 3

This course focuses on evidence-based concepts in the fields of health, safety and nutrition and their relationship to the growth and development of the young child ages birth to eight. The course blends current theory with problem solving, practical applications and assessments. The course includes collaboration with families, and assesses the role of culture, language and ability on health, safety and nutrition decisions in early childhood settings.

ECE-140

EARLY CHILDHOOD CURRICULUM PLANNING

Lec 3 Credit 3

This course examines and evaluates early childhood curriculum and methods leading to the development and implementation of appropriate curricula for young children. Corequisite: ECE-284.

ECE-158

EARLY CHILDHOOD CURRICULUM I

Lec 3 Credit 3

This course focuses on the development, implementation and assessment of appropriate environments and curricula for young children ages birth through eight. Students prepare to utilize evidence-based, developmentally appropriate practices in a context of children's family, culture, language and abilities. An emphasis will be placed on understanding children's developmental stages and developing appropriate learning opportunities, interactions and environments to support each

child in the following areas: dramatic play, art, music and fine and gross motor play.

ECE-159

EARLY CHILDHOOD CURRICULUM II

Lec 3 Credit 3

This course focuses on the development, implementation and assessment of appropriate environments and curricula for young children ages birth through eight. Students prepare to utilize developmentally appropriate, evidence-based practices in a context of children's family, culture, language and abilities. An emphasis will be placed on understanding children's developmental stages and developing appropriate learning opportunities, interactions and environments to support each child in the following areas: emergent literacy, math, science, technology and social studies. Prerequisite: ECE-158.

ECE-170

CHILD GROWTH AND DEVELOPMENT

Lec 3 Credit 3

This course reviews typical and atypical development of children from conception to adolescence in all developmental domains. Students will examine interactions between child, family and society within a variety of community and cultural contexts. The course will explore theories and evidence-based practices associated with understanding and supporting young children.

ECE-221

INFANT/TODDLER CARE AND EDUCATION

Lec 3 Credit 3

Focuses on care, education and assessment of children from birth to 36 months. Prepares students to utilize developmentally appropriate evidence-based practices including responsive caregiving, routines as curriculum, collaborative relationships with culturally, linguistically and ability diverse children and families, and a focus on the whole child in inclusive settings.

ECE-243

EARLY CHILDHOOD GUIDANCE

Lec 3 Credit 3

This course focuses on developmentally appropriate, evidence-based approaches and positive guidance strategies for supporting the development of each child. The course emphasizes supportive interactions and developmentally appropriate environments while using assessment to analyze and guide behaviors. Students will learn the impact of family and each child's culture, language and ability on child guidance.

ECE-284

FIELD EXPERIENCE II

Lec 1 Lab 2 Credit 2

This course includes supervised experience in selected early childhood settings serving children ages birth through eight. It includes integration of theory, research and reflective practice. The course will provide an understanding of developmentally appropriate practices and the developmental stages of diverse populations of adult/child interactions, basic curriculum planning and program routines. Students will explore the overall operation of a program. Students will complete 32 hours of observation for this course. Prerequisites: ECE-158 or ECE-159. Corequisites: ECE-140 or ECE-290.

ECE-290

EARLY CHILDHOOD PROGRAM ADMINISTRATION

Lec 3 Credit 3

This course addresses the basic principles common to administering quality early childhood programs. The course will emphasize a director's roles and responsibilities, state and federal regulations, business procedures, staff development and hiring, policy development, fiscal and facility management, marketing, program evaluation, child care advocacy, family and community involvement. The course is designed for second-year students and persons interested in becoming a program administrator. Prerequisite: ECE-159. Corequisite: ECE-932.

Economics (ECN)

ECN-110

INTRODUCTION TO ECONOMICS

Lec 3 Credit 3

An introductory economics course. Lessons will include both micro and macro economies. Competencies will include supply, demand, market structures, unemployment and international trade.

ECN-120

PRINCIPLES OF MACROECONOMICS

Lec 3 Credit 3

An introductory course in economics emphasizing macroeconomic theory and policy. The major topics will include economic systems, national income, national output, fiscal and monetary policy, unemployment, inflation, and, as time permits, international trade.

ECN-130

PRINCIPLES OF MICROECONOMICS

Lec 3 Credit 3

An introductory course in economics emphasizing micro-economic theory and contemporary problems. The major topics will include a description of the United States economy; demand and supply, price, output, and wage determination; domestic problems; international economics and the world economy.

Education (EDU)

EDU-120

COMMUNICATION, ETHICS AND CONFIDENTIALITY

Lec 2 Credit 2

This is the first course in preparation for the Para-Educator Certificate. In this course, the student will develop skills and strategies to enhance communication and examine situations where professionalism, ethical standards and confidentiality will guide correct course of action when working with colleagues, students, parents and others.

EDU-121

BEHAVIOR MANAGEMENT

Lec 2 Credit 2

This is the third course in the Para-Educator Certificate program. The student will gain knowledge, skills and strategies to assist, support and maintain the positive social, emotional and

behavioral development of children. Prerequisites: EDU-120 and EDU-122.

EDU-122

ROLES AND RESPONSIBILITIES

Lec 2 Credit 2

This is the second course in the Para-Educator certificate program. The student will develop skills and strategies to assist, support and maintain safe environments, educational activities, team interventions and technology integration when working with colleagues, students, parents and others. Prerequisite: EDU-120.

EDU-212

EDUCATIONAL FOUNDATIONS

Lec 3 Credit 3

This survey course is designed to examine the historical, philosophical, sociological, political, economic and legal foundations of the American public education system. Students will explore the nature of school environments, design and organization of school curriculum and characteristics of effective schools and instruction in grades P-12. Educational structures, practices and projections for the future will be studied. Corequisite: EDU-920.

EDU-220

HUMAN RELATIONS FOR THE CLASSROOM TEACHER

Lec 3 Credit 3

This course focuses on the changing and multi-faceted diversity seen in today's classrooms and communities in the United States. Students will examine their own understanding of the scope of this diversity and be able to see how this diversity can enrich the classroom experience for teachers and students. This course will also show future teachers how to bridge their personal views and knowledge of diversity into actual teaching strategies in order to have a culturally relevant and responsive classroom where every student can thrive.

EDU-235

CHILDREN'S LITERATURE

Lec 3 Credit 3

A survey of the history, critical issues and characteristics of children's literature and an examination of both writing and illustration as the basis for evaluating and selecting children's literature for use in the pre-school and elementary classroom.

EDU-240

EDUCATIONAL PSYCHOLOGY

Lec 3 Credit 3

This course examines the application of psychological principles, theories and methodologies to issues of teaching and learning. Theory and research concerned with human learning, development, behavior and motivation is reviewed with an emphasis on the cognitive, psychological and social factors that relate to and influence learning in educational settings. Prerequisite: PSY-111.

EDU-245

EXCEPTIONAL LEARNER

Lec 3 Credit 3

This is a survey course that provides an overview of special education regulations, policies and programs in educational settings. Birth through 12th grade pre-service teachers learn

the history of special education law, including IDEA and as it applies to the course with ESSA, characteristics of the categories of disabilities per federal and state regulations, characteristics of talented and gifted programs, and basic components of an IEP. This course is a required component for students seeking Birth through 12th grade teacher state licensure. Ten hours of observation will be required.

EDU-255

TECHNOLOGY IN THE CLASSROOM

Lec 3 Credit 3

Students will learn to integrate instructional technology into the PK-12 classrooms. Students will study a variety of software programs, presentation technology and telecommunication tools. The focus will also be on social, ethical, legal and human issues surrounding the use of technology.

EDU-920

FIELD EXPERIENCE

Lec 1 Lab 2 Credit 2

Field Experience provides the student an opportunity to observe a teacher in a local classroom and to work with students in that classroom under direct supervision of the cooperating teacher. Students will be required to complete 32 observation hours. The student will complete observation documents during their required hours in the classroom. Corequisite: EDU-212.

Engineering (EGR)

EGR-420

DIGITAL ELECTRONICS

Lec 2 Lab 2 Credit 3

This course is an introduction to fundamental digital circuits and systems is presented by study of integrated circuit logic modules. Emphasis is placed on troubleshooting techniques and tools.

Engineering Technology (EGT)

EGT-108

PRINCIPLES OF ENGINEERING

Lec 3 Credit 3

This course explores technology systems and manufacturing processes using the methodology of project-based engineering problem solving. Learning activities explore a variety of engineering disciplines and address the social and political consequences of technological change.

EGT-116

CONTINUOUS QUALITY MANAGEMENT

Lec 3 Credit 3

This introductory course will lead the student into the world of quality and the quality process. Students will be exposed to the basic principles of lean manufacturing and quality control inspection tools. Students will analyze the performance of a production process, formulate process adjustments or

improvements and carry out the strategies for process adjustment and/or improvement.

EGT-142

FLUID POWER 1

Lec 1 Lab 2 Credit 2

This course discusses the fundamentals of hydraulic technology. Students will learn hydraulic circuits, pumps, actuators, valves, fluid, safety, maintenance and troubleshooting. Students will also learn how to operate, install, analyze performance and design hydraulic systems.

EGT-143

FLUID POWER 2

Lec 1 Lab 2 Credit 2

This course discusses the fundamentals of pneumatic technology. Students will learn specific skills needed to understand the principles of pneumatics including circuits with compressed air power, air processing, valves, safety, maintenance and troubleshooting. Students will learn industry skills including how to operate, install, analyze and design pneumatic systems.

EGT-147

HYDRAULIC POWER SYSTEMS AND TROUBLESHOOTING

Lec 0.5 Lab 1 Credit 1

This course will cover the operation, diagnosis and maintenance of basic and complex hydraulic systems. Prerequisite: EGT-142.

EGT-174

FLUID POWER

Lec 1 Lab 2 Credit 2

This course discusses the fundamentals of hydraulic and pneumatic technology. Students will learn fluid power circuits, actuators, valves, safety, maintenance, and troubleshooting. Students will also learn how to operate, install, analyze performance, and design fluid power systems.

EGT-175

FLUID POWER CONTROL

Lec 1 Lab 2 Credit 2

This course introduces students to the use of electrical devices to control a fluid power system. Students will learn to identify and understand the uses of Electro-Fluid devices in a circuit. Students will also learn to design, draw, and build fluid power control circuits using relay logic and PLCs. Prerequisites: EGT-174 and ELT-263.

EGT-400

PLTW - INTRODUCTION TO ENGINEERING DESIGN

Lec 1 Lab 4 Credit 3

This course uses a design development process while enriching technical and engineering problem-solving skills; students create and analyze models using specialized computer software (AutoCAD Inventor).

EGT-420

PLTW - DIGITAL ELECTRONICS

Lec 2 Lab 2 Credit 3

This course is an introduction to fundamental digital circuits and systems is presented by study of integrated circuit logic modules. Emphasis is placed on troubleshooting techniques and tools.

www.scciowa.edu (319) 208-5000

Electronics Technology (ELE)

ELE-116

BLUEPRINT READING

Lec 1 Credit 1

This course discusses the specific data that is drawn on a blueprint and explains how to read and interpret the drawing format. Students will learn orthographic and isometric drawings to understand shapes, sizes and dimensions. Students will study building terms and construction features of carpentry, masonry, electrical, mechanical and plumbing trades.

ELE-127

TROUBLESHOOTING

Lec 0.5 Lab 1 Credit 1

This course introduces students to the fundamental sequence of steps that can be applied when attempting to locate and repair problems in electrical and mechanical equipment. Students will learn how to use proper testing equipment to assist in finding faulty components. Students will learn how to plan a course of action for troubleshooting and repairs of equipment. Prerequisites: ELT-264, EGT-175, EGT-147 and IND-251.

ELE-195

MOTOR CONTROLS

Lec 1 Lab 4 Credit 3

This course discusses Motor Controls, components, operation and service. Students will learn electric relay control of AC and DC electric motors found in industrial applications. Students will also learn industry-relevant skills including how to operate, install, design and troubleshoot AC and DC motor control circuits.

ELE-218

MOTION CONTROL

Lec 1 Lab 2 Credit 2

This course is an introduction to electronic motion control in industrial control systems. Students will work with motion control software, which communicates to servo controllers, servo drives and motion controllers in industrial control systems. Students will learn to design and program a motion control project using Studio 5000 software. Students will tune resolvers and encoders to control precise torque, velocity, and position of rotary and linear actuators. Prerequisite: ELT-264.

ELE-219

SUPERVISORY CONTROL AND DATA ACQUISITION

Lec 1 Lab 4 Credit 3

This course discusses concepts related to supervisory control and data acquisition (SCADA) to monitor automated control systems. Students will design and configure a SCADA control systems project using computer hardware, software, and networking. Prerequisites: ATR-118 and ELT-176.

ELE-310

INDUSTRIAL ELECTRICITY

Lec 1 Lab 2 Credit 2

This course discusses important properties of electricity and the common electrical elements found in industrial

Revised: 12/6/2023 9:07p.m.

settings. Students will learn how to install and wire electrical components. Students will also learn how to layout a project; estimate wiring quantities, lengths, and sizes between panels and properly size and install conduit. The course will introduce the national OSHA safety standards and upon completion of this course students will receive the OSHA 10 hour certification.

Electronics (ELT)

ELT-132

MOTOR DRIVES

Lec 0.5 Lab 1 Credit 1

This course discusses the fundamentals of motor drive operation and setup. Students will learn industrial AC electronic motor drives, which are used to provide accurate control of speed, position and acceleration of industrial motors. Students will also learn industrial skills on how to operate, install, tune and troubleshoot various industrial drives. Prerequisite: ELE-195.

ELT-176

INSTRUMENTATION

Lec 1 Lab 4 Credit 3

This course introduces students to the basic principles and concepts of process control, calibration, replacement, repair adjustment, troubleshooting and use of test equipment. Students will learn how to calibrate, adjust, install, operate, and connect process control systems. Students will also learn how to measure signals and connect devices in a wide variety of control configurations including: PID control, on/off control and manual control. Prerequisite: ELT-295.

ELT-232

PLC APPLICATIONS

Lec 2 Lab 4 Credit 4

This course provides a hands-on approach to develop fundamental knowledge of PLC (Programmable Logic Controller) principles by exposing the student to ladder logic circuits and their practical applications. Ancillary input and output devices used with PLC systems are included as well as elementary electrical machines. While the laboratory utilizes Allen-Bradley PLC's, a generic design approach is stressed during the lectures. Design of practical working control circuits is included to enhance understanding. Also included are the various number systems, digital codes and program commands used in PLC's and integrated systems. Prerequisite: CSC-140 or equivalent.

ELT-250

PROGRAMMABLE LOGIC CONTROLLERS

Lec 1 Lab 4 Credit 3

This course introduces students to PLC tasks such as programming, wiring, troubleshooting, communications and advanced programming. Students will learn industrial relevant skills on how to operate, interface, program and troubleshoot PLC systems. Students will learn how to set up software drivers, log onto networks, upload and download projects and search for documentation.

ELT-262

ADVANCED PLC AND SYSTEM INTEGRATION (MECHATRONICS)

Lec 2

Lab 8

Credit 6

This course introduces advanced topics in programmable logic controllers using the Allen-Bradley ControlLogix and RSLogix 5000 programming software including programming input, output, bit, timer, counter, compare, move and math instructions. Students will learn how to create and modify subroutines and configure devices. Students will learn industrial relevant skills on how to operate, program and troubleshoot PLC systems and learn system integration with, electrical, mechanical, pneumatic and robotic devices.

ELT-263

PROGRAMMABLE LOGIC CONTROLLERS I

Lec 1 Lab 2 Credit 2

This course introduces students to programmable logic controllers and the basic operations, programming, wiring, troubleshooting, and communications necessary in an industrial setting. Students will learn techniques and procedures to connect various inputs and outputs using PLCs. Prerequisites: MFG-155 and ELE-195.

ELT-264

PROGRAMMABLE LOGIC CONTROLLERS II

Lec 1 Lab 2 Credit 2

Students will learn how to perform advanced interfacing, programming, and troubleshooting using Studio 5000 software in PLC systems. Students will learn how to set up software drivers, create tags, monitor data, log on to networks, upload and download projects, and search for documentation. Prerequisite: ELT-263.

ELT-265

PLC AND SYSTEM INTEGRATION

Lec 2 Lab 6 Credit 5

This course reinforces topics in programmable logic controllers using the Allen-Bradley ControlLogix and RSLogix 5000 programming software including programming input, output, bit, timer, counter, compare, move, and math instructions. Students will learn how to create and modify subroutines and configure devices. Students will learn system integration with electrical, mechanical, pneumatic, robotic devices, and other relevant industrial equipment. Prerequisite: ELT-264.

ELT-266

SAFETY CIRCUITS AND DEVICES

Lec 1 Lab 2 Credit 2

This course introduces students to the various safety input and output devices, such as lasers, light curtains, and mats, used in industrial settings to maintain a safe working environment. Students will learn to properly identify, connect, and maintain safety circuits and integrate safety devices within automated work cells and other industrial settings. Prerequisites: ELE-116 and ELT-264.

ELT-295

AC/DC FUNDAMENTALS

Lec 1 Lab 2 Credit 2

This course introduces students to the components used in most electronic circuits and how they are measured, tested and function. Students will learn the fundamentals of AC and DC electrical systems used for power and control in industrial

applications. Students will learn how to operate, install, design and troubleshoot basic AC and DC electrical circuits.

ELT-351 ELECTRONICS I

Lec 2 Lab 2 Credit 3

This course is designed to strengthen the students' understanding of AC and DC electricity and electronics including sources of electricity, basic circuits and components, and their applications to practical devices. Students will explore fundamentals of electricity, current, resistance, voltage, Ohm's Law, circuit components, DC measurements, power, magnetism, electromagnetism and AC measurements. Prerequisite: MAT-702.

ELT-354 ELECTRONICS II

Lec 2 Lab 2 Credit 3

In this course, students will develop an understanding of semiconductor devices and linear electronics. Students will be introduced to general terminology, types of semiconductors, safe operating practices and proper testing procedures of semiconductor devices. Students will also be able to explain circuit theory, construction techniques of linear circuits, proper equipment operation and applications of selected technological developments with linear electronic circuits. Prerequisite: ELT-351.

ELT-486 ELECTROMECHANICAL TECHNOLOGY

Lec 2 Lab 2 Credit 3

Students will use their previous knowledge in electronics to understand and apply real world mechanical applications in the industrial setting. Concepts learned will include fixturing, gearing, motors and linear motion. Prerequisite: ELT-355.

Emergency Medical Services (EMS)

EMS-201 EMERGENCY MEDICAL TECHNICIAN

Lec 5 Lab 2 OJT 4 Credit 7

This course is designed to instruct a student to the level of emergency medical technician who serves as a vital link in the chain of the health care team. Southeastern Community College's training program follows the National Highway Traffic Safety Administration's Department of Transportation (DOT) EMT curriculum. This course includes all skills necessary for the individual to provide emergency medical care at a basic life support level with an ambulance service or other specialized service. Southeastern Community College is approved by the Iowa State Department of Public Health (Bureau of EMS). Upon successful completion of this course, the student will be eligible to take the National Registry's practical and written exam for EMT certification. Students must be 17 years old to enroll. Prerequisite: Current basic life support certification (health care providers module).

EMS-663 PARAMEDIC I

www.scciova.edu (319) 208-5000

Lec 12 Lab 8 Clinical 1.5 Credit 16.5

This course prepares the student in the knowledge and skills needed in the pre-hospital environment. National Standard Paramedic Curriculum topics covered include: Well-being of the EMT, Illness and Injury Prevention, Ethics, EMS System, Roles and Responsibilities, Medical Legal Issues, Pathophysiology, Therapeutic Communications, Life-span Development, Airway Management and Ventilation, Patient Assessment, Communications, Documentation, Medication Administration, Pharmacology and Cardiology. Lab skills addressed include patient assessment, development of airway management skills, IV fluid management skills, communication skill development and cardiac monitoring skills. Prerequisite: Current Iowa EMT Certificate.

EMS-665 PARAMEDIC III

Lec 2 Lab 2 OJT 16 Credit 7

This course prepares the student in the knowledge and skills needed in the pre-hospital environment. National Standard Paramedic Curriculum topics covered include: Review of previous course material, Pediatrics, Geriatric, Psychiatric Disorders and Patients with Special Challenges. This course also includes hospital clinical internship. This internship provides the opportunity to apply, in the clinical setting, the didactic knowledge and skills developed in the classroom and lab. It serves to assist the student to become an employable EMS provider. Clinical skills addressed include pediatric assessment and management, gynecological management, geriatric management, trauma management, patient assessment, airway management skills, IV fluid management skills, communication skill development and cardiac monitoring skills. Prerequisite: EMS-663.

EMS-667 PARAMEDIC II

Lec 10 Lab 6 Clinical 12 Credit 17

This course prepares the student in the knowledge and skills needed in the pre-hospital environment. National Standard Paramedic curriculum topics covered include: Medication Administration and Medical and Trauma Emergencies of various body systems. This course has a hospital clinical internship. This internship provides the opportunity to apply, in the clinical setting, the didactic knowledge and skills developed in the classroom and lab. It serves to assist the student to become an employable EMS provider. Clinical skills addressed include trauma management, patient assessment and evaluation; airway management skills, IV fluid management skills, communication skill development and cardiac monitoring skills. Prerequisite: EMS-663.

English Composition (ENG)

ENG-013 BASIC WRITING IN ENGLISH

Lec 2 Lab 2 Credit 3

This course provides group instruction in basic writing skills: practice in all stages of the writing process; developing the skills to write a variety of focused, developed and organized sentences, paragraphs and short essays; writing to communicate with the reader; proofreading for spelling, grammar and punctuation errors. Students in this course should not have previous or concurrent enrollment in Composition I and/or II, Technical Writing, Business English or Writing for the Workplace.

Prerequisites: Meet minimum placement test score requirements. No Waivers.

**ENG-067
COMPOSITION I LAB****Lec 0 Lab 2 Credit 1**

A basic writing skills laboratory to assist selected students while they are enrolled in English Composition I. Graded on a Pass (P)/No Pass (Q) basis. Prerequisites: Meet minimum placement test score requirements or ENG-013 with a minimum grade of C-. Corequisite: ENG-105.

**ENG-105
COMPOSITION I****Lec 3 Credit 3**

A study of the principles of writing. Emphasis on rhetoric, mechanics and development of expository patterns: narration, description illustration, comparison/contrast, classification, process and cause/effect. Required for AA and AS Degrees. Prerequisite: Meet minimum test score requirements.

**ENG-106
COMPOSITION II****Lec 3 Credit 3**

A continuation of study of the principles of writing begun in ENG-105. Emphasis is placed on persuasive writing, critical analysis and the MLA research paper. Time will also be spent exploring print and electronic research sources and learning effective research strategies. Required for AA and AS Degrees. Prerequisite: ENG-105, with a minimum grade of C-.

**ENG-110
WRITING FOR THE WORKPLACE****Lec 3 Credit 3**

Writing for the Workplace prepares students for the various types of written communication required by professional employers. In this class, students learn how to write informal and formal documents and reports in the design and style of career-related communication with a focus on audience, purpose, subject and genre and how they affect our writing choices. This course also includes a review of grammar and usage skills, as well as emphasizes effective language use in real-world applications. Prerequisites: ENG-013 with a minimum grade of C- or meet minimum placement test score requirements. No Waivers.

**ENG-111
TECHNICAL WRITING (ONLINE)****Lec 3 Credit 3**

Studies the rhetorical techniques specifically oriented to industrial requirements. Applies expository patterns as incorporated within the report apparatus, including such specialized formats as process analysis, progress/ lab reports,

feasibility study and the proposal. Also includes correspondence and application of basic library research skills. Course designed to satisfy specified career program requirements. Prerequisite: Meet minimum placement test score requirements or a minimum grade of C- in ENG-013. No Waivers.

**ENG-131
BUSINESS ENGLISH****Lec 3 Credit 3**

This course teaches the fundamentals of written communication with focus on the elements of effectively written business documents. The emphasis is on the development of writing skills through a) exercises in grammar, mechanics, usage and spelling and b) application of these skills in a variety of written business documents. Prerequisite: Meet minimum placement test score requirements or a minimum grade of C- in ENG-013. No Waivers.

**ENG-221
CREATIVE WRITING****Lec 3 Credit 3**

Instruction and practice in multiple genres of creative writing. Students study the art, craft and discipline of creative writing by reading, discussing and critiquing the work of prominent writers; by experimenting with various writing methods and techniques; and by reading, discussing and critiquing student work. Instruction, practice and workshops will address elements of creative writing such as content, structure, form and style in particular and multiple genres. This course may be repeated for up to 6 credit hours. Prerequisite: ENG-105 with a minimum grade of C-.

**ENG-929
INDIVIDUALIZED PROJECTS****Lec 1-3 Credit 1-3**

Extensive writing based on the interest and experience of the student. May receive 1 - 3 credits, based upon consultation with instructor. May be repeated for up to 4 credit hours.

Environmental Science (ENV)

**ENV-111
ENVIRONMENTAL SCIENCE****Lec 3 Lab 2 Credit 4**

An interdisciplinary approach to the problems of the environment. An examination and evaluation will be made of man's impact on the environment. Specific topics that may be covered include, but are not limited to: population issues, atmospheric issues, water issues, energy issues, resource issues, wildlife issues and food issues.

**ENV-145
CONSERVATION BIOLOGY****Lec 3 Lab 2 Credit 4**

This course examines the ecological principles used in the preservation of biological diversity. Some topics explored are population dynamics, conservation genetics, island biogeography, mathematical modeling of ecological systems, disturbance ecology, Geographic Information Systems (GIS),

reserve theory and wildlife corridors. Laboratories will involve fieldwork, data analysis, computer work and research. Prerequisite: ENV-111

Intensive English as a Supplemental Language (ESI)

ESI-010 PHONETICS AND PRONUNCIATION

Lec 3 **Credit 3**

The study of English segments and intonation for non-native speakers. Emphasizes the use of phonetic alphabet. Focuses on using segmentations and intonation in informal language settings. Prerequisites: ESL-013, ESL-015 and ESL-018, or meet minimum placement test score requirements.

Non-Intensive English as a Supplemental Language (ESL)

ESL-002 CULTURAL ORIENTATION

Lec 0 **Lab 2** **Credit 1**

This course introduces new international students to American life, the educational system and the Burlington community. It covers such topics as culture shock, academic honesty, personal safety, driving in Iowa, etc. This course will be taken on a Pass/No Pass basis only.

ESL-006 GRAMMAR IN CULTURAL CONTEXT

Lec 2 **Credit 2**

Communicative grammar course for non-native speakers of English. Includes studying the usage of different grammatical structures and their application in various areas of interaction. Exposes students to English culture and cultural expectations.

ESL-008 COMMUNICATION IN CULTURAL CONTEXT

Lec 2 **Credit 2**

Communication course for non-native speakers of English. Includes usage of listening and speaking skills across various areas of interaction: idioms and slang, small talk and business interviews. Exposes students to English culture and cultural expectations in conversations and oral interaction. This course is recommended to be taken in conjunction with ESL-006 Grammar in Cultural Context.

ESL-013 LISTENING/SPEAKING I

Lec 4 **Credit 4**

This is a listening/speaking course for non-native speakers of English. The course helps students develop basic speech

www.scciowa.edu (319) 208-5000

competencies through integrated language skills. Students focus on language: pronunciation, word forms, word domains, idiomatic expressions, analogies using semantic context. It is recommended to take the course concurrently with ESL 015 and ESL-019.

ESL-015 READING/Writing I

Lec 4 **Credit 4**

This is a reading/writing course for non-native speakers of English. A beginning course designed to develop reading and writing skills; students learn new words and phrases, work on spelling and become familiar with the use of basic tenses. It is recommended to take the course concurrently with ESL-013 and ESL-019.

ESL-019 GRAMMAR I

Lec 4 **Credit 4**

This is a grammar course for non-native speakers of English. The course introduces students to the form, meaning and usage of basic structures in English. It provides opportunities to practice through extensive and varied exercises leading to communicative activities. Concentration is on present and past tenses, copular be, nouns and pronouns. It is recommended to take the course concurrently with ESL-015 and ESL-013.

ESL-033 LISTENING/SPEAKING II

Lec 3 **Credit 3**

This is a listening/speaking course for non-native speakers of English. This course further develops conversational skills in order to improve the ability to speak clearly and effectively. Authentic audio recordings, videotapes and listening to peers are used to develop listening skills. Daily work on pronunciation targeted at achieving an understandable accent. Prerequisite: ESL-013 or meet minimum placement test score requirements. It is recommended to take the course concurrently with ESL-035 and ESL-038.

ESL-035 READING/Writing II

Lec 3 **Credit 3**

This is a reading/writing course for non-native speakers of English. This course increases reading skills in comprehension, speed and fluency. It continues development of understanding and using English sentence patterns through written practice. Prerequisite: ESL-015 and meets minimum placement test score requirements. Prerequisite: ESL-015 or meet minimum placement test score requirements. It is recommended to take the course concurrently with ESL-033 and ESL-038.

ESL-038 GRAMMAR II

Lec 3 **Credit 3**

This is a grammar course for non-native speakers of English. The course introduces students to the form, meaning and usage of the English structures. Communicative approach provides students with the immediate applications of the knowledge gained in the class. Work on new grammar tenses, modal verbs, adjectives and adverbs. Prerequisites: ESL-019 or meet

minimum placement test score requirements. It is recommended to take the course concurrently with ESL-033 and ESL-035.

ESL-052
READING/WRITING III

Lec 3 **Credit 3**

This is a reading/writing course for non-native speakers of English. This course provides the students with intensive practice in applying reading strategies. Emphasis is placed on understanding the content while building vocabulary, identifying parts of speech, developing language skills and understanding main ideas and details. The students practice prewriting, organizing, revising and editing while expanding their vocabulary. Prerequisite: ESL-035 or meet minimum placement test score requirements. This course should be taken concurrently with ESL-056 and ESL-059.

ESL-056
LISTENING/SPEAKING III

Lec 3 **Credit 3**

This is a listening/speaking course for non-native speakers of English. This course is designed to develop fluency in English and to improve the listening and conversational skills needed for careers and academic study. Speaking skills focus on stress, rhythm and intonation. Theme-based pronunciation practice reinforces the vocabulary and content of the class. Prerequisite: ESL-033 or meet minimum placement test score requirements. This course should be taken concurrently with ESL-052 and ESL-059.

ESL-059
GRAMMAR III

Lec 3 **Credit 3**

This is a grammar course for non-native speakers of English. The class studies the structures of English with particular focus on patterns in grammar that are especially troublesome for nonnative speakers of English. Applications of these structures are performed through a variety of written exercises and extensive speaking and writing. Prerequisite: ESL-038 or meet minimum placement test score requirements. This course should be taken concurrently with ESL-052 and ESL-056.

ESL-102
READING/WRITING IV

Lec 3 **Credit 3**

This is a reading/writing course for non-native speakers of English. The course develops higher order comprehension skills such as distinguishing between fact and opinion, and mastering persuasion techniques. It emphasizes strategies and skills that will help increase reading speed and understanding of denotation and connotation. The course leads students through the writing process by providing a wide variety of activities to help them master skills necessary for academic writing. Prerequisite: ESL-052 or meet minimum placement test score requirements. This course should be taken concurrently with ESL-105 and ESL-108.

ESL-105
LISTENING/SPEAKING IV

Lec 3 **Credit 3**

This is a listening/speaking course for non-native speakers of English. The course emphasizes comprehension of oral language

as spoken by native English speakers. Students will practice pronunciation in academic discourse. The course will help develop skills in applying idiomatic expressions in negotiating and reducing miscommunication. Prerequisite: ESL-056 or meet minimum placement test score requirements. This course should be taken concurrently with ESL-102 and ESL 108.

ESL-108
GRAMMAR IV

Lec 3 **Credit 3**

This is an advanced course in grammar for non-native speakers of English, offering an introduction to such structures as gerunds, infinitives, various types of clauses and conditional sentences. Students will learn to apply the structures in classroom readings and in a variety of written tasks. Prerequisite: ESL-059 or meet minimum placement test score requirements. This course should be taken concurrently with ESL-102 and ESL-105.

Finance (FIN)

FIN-121
PERSONAL FINANCE (ONLINE)

Lec 3 **Credit 3**

A study and evaluation of financial problems which individuals and families encounter within their personal affairs. The topics covered are budgeting, saving, consumer credit, personal insurance, renting or owning a home, investments, transportation and taxes.

FIN-130
PRINCIPLES OF FINANCE (ONLINE)

Lec 3 **Credit 3**

An examination of the tools and techniques used in the world of finance. This course will introduce the student to basic financial concepts such as time value of money, asset valuation, risk analysis and return on investment. Evaluation and decision-making techniques will be used as they pertain to financial management in various business situations. Prerequisites: ACC-142, ACC-146 and ECN-120.

FIN-180
INTRO TO INVESTMENTS

Lec 3 **Credit 3**

This course introduces students to the theory and application of investment analysis and portfolio management with particular attention paid to asset allocation and systematic and nonsystematic risk. Topics include the analysis of fixed income instruments, equity, and derivative instruments.

Foreign Language - Spanish (FLS)

FLS-141
ELEMENTARY SPANISH I (ONLINE)

Lec 3 **Lab 2** **Credit 4**

This is an introductory course for those with no prior background in Spanish. Student is introduced to language skills

of understanding, speaking, reading and writing with emphasis given to the first two skills. Related lab activities.

FLS-142

ELEMENTARY SPANISH II (ONLINE)

Lec 3 Lab 2 Credit 4

A continuation of FLS-141 emphasizing all four language skills with special attention to further development of conversational skills. Cultural readings and lab activities. Prerequisite: FLS-141 or C grade on Proficiency Test, or permission of instructor.

FLS-231

INTERMEDIATE SPANISH I (ONLINE)

Lec 3 Credit 3

A review of the fundamentals of grammar, emphasizes oral communication among students. It also aims at increasing students' reading comprehension, vocabulary and a better understanding of Hispanic culture. Prerequisite: FLS-142 or C grade on Proficiency Test or permission of instructor.

FLS-232

INTERMEDIATE SPANISH II (ONLINE)

Lec 3 Credit 3

A continuation of Intermediate Spanish I, reviews the fundamentals of grammar while emphasizing oral communication among students. It also aims at increasing students' reading comprehension, vocabulary and a better understanding of Hispanic culture. Prerequisite: FLS-231 or C grade on Proficiency Test or permission of instructor.

Geography (GEO)

GEO-121

WORLD REGIONAL GEOGRAPHY

Lec 3 Credit 3

The study and analysis of the major physical and cultural elements of the world. Emphasis on processes of acquiring, treating and evaluating related information. For those with little or no prior background in the study of geography.

GEO-126

CULTURAL GEOGRAPHY

Lec 3 Credit 3

This course introduces students to fundamental concepts, skills, and practices of human geography. Place, space and scale serve as a framework for understanding patterns of human experience. Topics for discussion may include population and migration, culture, diffusion, political and economic systems, language, religion, gender and ethnicity.

Graphic Communications (GRA)

GRA-116

DIGITAL PREFLIGHT PRODUCTION

Lec 2 Lab 2 Credit 3

The main focus of this course is in preflighting techniques and color control. Advanced graphic design, color management skills and printing technologies will be used in complex projects. The www.scciova.edu (319) 208-5000

importance of communication between printer/pressroom and the graphic designer is also emphasized. This course integrates all facets of the graphic communications coursework and should be taken during the student's final semester. Prerequisite: GRA-275.

GRA-127

ILLUSTRATOR I

Lec 2 Lab 2 Credit 3

This course is designed to introduce the student to the application of rendering techniques. Emphasis is placed on controlling various media, methods, surfaces, design problems and the appropriate media selection process.

GRA-137

DIGITAL DESIGN

Lec 2 Lab 2 Credit 3

The student will gain familiarity with the function of graphic layout using electronic pagination software. Emphasis will be placed on publication design, development, reproducibility and utilization of proper design techniques. Students will use this publishing package to create a variety of print media.

GRA-140

DIGITAL IMAGING

Lec 2 Lab 2 Credit 3

This course is designed to introduce the student to image manipulation software used in the electronic and print media industry. Emphasis will be placed on scanning, image editing techniques, using painting tool sets, color correction, ethics and digital photography techniques.

GRA-158

WEB MULTIMEDIA

Lec 2 Lab 2 Credit 3

An introduction to the creation of multimedia for use with web pages, kiosks and CD/DVD. Video camcorders, digital cameras, digital recorders, touch screens and iPods will be utilized in conjunction with computer hardware and software for media creation and manipulation. Media covered in the course will include podcasting, streaming video, streaming audio, live broadcasts and presentations.

GRA-166

WEB ANIMATIONS

Lec 2 Lab 2 Credit 3

Animation can be an important part of information transfer from a web site to the viewer. Topics will include when animation is an appropriate tool to use, when animation should be avoided, what tools are the current standard for web animation and how animation can be used to present information. The class will be project-based, with the student solving animation-related problems based on real business situations.

GRA-173

TYPOGRAPHY

Lec 3 Credit 3

This course is designed to provide the student with an introduction to the history and mechanics of type and its application to layout and design. Topics include typographic fundamentals, anatomy, measurements, identification, type aesthetics, communicative aspects and production problems.

A working knowledge of type in relation to images will be emphasized.

GRA-175
GRAPHIC DESIGN PRINCIPLES

Lec 3 **Credit 3**

A beginning course in designing printed pieces. This course will provide the student with an introduction to some of the basic principles of design aesthetics for print and web media. A history of the desktop publishing process, basics of communication, basic document structure, typography, use of color and illustration will be covered.

GRA-190
ELECTRONIC MEDIA PROJECTS

Lec 1 **Lab 4** **Credit 3**

Students will interview originators to determine target audience, message and time and cost constraints for a project. They will then use various pagination software and graphic design skills to produce finished, print-ready pieces. Prerequisites: GRA-137 and GRA-175.

GRA-275
ADVANCED GRAPHIC DESIGN

Lec 2 **Lab 2** **Credit 3**

This course is designed to continue to guide the student in proper design and layout aesthetics. Emphasis will be on utilization of design principles and techniques for both short and long documents, publication planning, budgeting, scheduling, finishing processes and working with outside printing companies. Prerequisite: GRA-175.

GRA-299
ELECTRONIC PORTFOLIO

Lec 2 **Lab 2** **Credit 3**

Electronic Portfolio will help prepare the student for the next step, whether that is moving into the work force or presenting to the teachers at a four-year institution. Skills taught in this class will include preparation of an electronic portfolio, career-advancement skills, resume writing and interviewing. Prerequisites: GRA-140, GRA-158, GRA-166 and WDV-101.

GRA-933
INTERNSHIP

Lec 0 **OJT 16** **Credit 4**

This course is designed to provide the student with a practical experience in graphic communications prior to completion of the associate of applied science degree. Placement will depend on student's skill level and the availability of appropriate training firms. The internship should be taken during the student's final semester.

Heavy Equipment (HEQ)

HEQ-131
SAFETY AND INTRODUCTION TO HEAVY EQUIPMENT

Lec 2 **Lab 2** **Credit 3**

This is an introduction to the equipment, jobs, working conditions, maintenance and safety of equipment operation.

History (HIS)

HIS-110
WESTERN CIVILIZATION: ANCIENT TO EARLY MODERN

Lec 3 **Credit 3**

Traces the Western tradition from the earliest times through the Modern sixteenth century. Emphasizes the process of change and the dynamics and interrelationships of events of the major societies, governance and cultures of the Ancient, Medieval and Renaissance.

HIS-111
WESTERN CIVILIZATION: EARLY MODERN TO PRESENT

Lec 3 **Credit 3**

Surveys Western history from the age of European exploration to the present.

HIS-131
WORLD CIVILIZATION I

Lec 3 **Credit 3**

This course is an economic, social, political and cultural survey of world civilization from earliest times to 1300, as these areas relate to contemporary civilization. Areas covered include: history of primitive, ancient, medieval religions, government and law; far Eastern and ancient European philosophy; primitive and ancient medieval fine arts.

HIS-132
WORLD CIVILIZATION II

Lec 3 **Credit 3**

This course is an economic, social, political and cultural survey of development of world civilization from 1300 to the present. It is a continuation of HIS-131. However, students may enter during any semester.

HIS-151
US HISTORY TO 1877

Lec 3 **Credit 3**

A survey of American social, political, economic and intellectual developments from the Colonial period to 1877.

HIS-152
US HISTORY SINCE 1877

Lec 3 **Credit 3**

A survey of American social, political, economic and intellectual developments since 1877.

HIS-211
MODERN ASIAN HISTORY

Lec 3 **Credit 3**

An introduction to the three dominant societies of modern Asia: China, Japan and India. Emphasis will be given to the transformation of cultural, economic, intellectual and social patterns brought about by the military power and economic demands of contemporary Western societies.

HIS-231
CONTEMPORARY WORLD AFFAIRS

Lec 3 **Credit 3**

This course deals with the immediate problems facing the world from 1945 to the present, efforts to establish peace, the decline of colonialism, developments in the Third World, the Cold War, conflicting ideologies of the twentieth century and their interpretation in conflicting international economics and power struggles.

HIS-251
US HISTORY: 1945 TO PRESENT**Lec 3** **Credit 3**

An intensive study of the history of the United States since 1945, with an emphasis upon America's national and international problems during this period.

HIS-257
AFRICAN AMERICAN HISTORY**Lec 3** **Credit 3**

A study of African American people from their African origins through the contemporary civil rights movement in the United States. This survey includes the study of slavery before the Civil War, the examination of the role of the African American during the war and Reconstruction period, growth of segregation and the fight for civil rights culminating in the current position of the African American in the United States.

HIS-266
THE CIVIL WAR**Lec 3** **Credit 3**

A study of the United States during the Civil War. A study of the political, social, economic, military and diplomatic history of the United States from 1850 to 1877. A look at the causes of the Civil War, the War and its impact on US society and the aftermath of the war.

HIS-271
AMERICAN FRONTIER HISTORY**Lec 3** **Credit 3**

An intensive study of the westward movement in American history. Topics to be covered include: the Indians, the fur trade, the development of transportation, the government land policy and the settlement of the Great Plains.

Health Information Technology (HIT)

HIT-211
BASIC MEDICAL INSURANCE AND CODING**Lec 2** **Lab 2** **Credit 3**

This course is designed to assist students in understanding the complexities of current insurance procedures encountered in today's medical facilities. The student will be familiarized with Blue Cross/Blue Shield, Medicaid, Medicare, TRICARE, CHAMPVA, and Worker's Compensation. A comprehensive unit on Procedural Coding, as well as Diagnostic Coding is incorporated into the course. Managed health care is explored in depth. Corequisites: HSC-114 or BIO-163.

Health Science (HSC)

HSC-114
MEDICAL TERMINOLOGY**Lec 2** **Lab 2** **Credit 3**

This course is designed to study the basic language related to medical science with emphasis on word analysis, construction, definitions, pronunciations, spelling and standard abbreviations.

HSC-168
NURSE AIDE**Lec 2.25** **Lab 1.3** **Clinical 2** **Credit 3.5**

This course is comprised of the state approved curriculum and laboratory module with the skills component. The class includes 32 hours of clinical training in a long term facility, 20 lab hours and 36 hours lecture. Students must attend a minimum of 30 clinical hours and 15 lab hours in order to pass the class. The course also includes a module on confidentiality, professionalism and communications. Clinical schedule will be arranged by the instructor and dates given the students on the first day of class and may include weekend hours.

HSC-181
FIRST AID/CPR FOR NON-HEALTH CARE WORKERS**Lec 1** **Lab 1** **Credit 1.5**

This course follows the American heart Association Basic Life Support (CPR) Heart Saver for the Lay Person. It includes AED and basic first aid. This course is not for health care workers.

HSC-212
PATHOPHYSIOLOGY (INDIAN HILLS CC COURSE)**Lec 3** **Credit 3**

The nature, cause and treatment of disease are the focus of pathophysiology. The characteristics and etiology of diseases are presented using appropriate medical terminology to help students understand the relationship between clinical signs and disease processes.

HSC-230
EMPLOYMENT PREPARATION (INDIAN HILLS CC COURSE)**Lec 1** **Credit 1**

This course is designed for students preparing to seek employment. Written documents, including letters and resumes, will be discussed and created. Job seeking techniques, including interviewing skills and human relations skills, will also be addressed.

Healthcare Technology Management (HTM)

HTM-100
**APPLIED HUMAN BIOLOGY FOR BIOMEDICAL
TECHNICIANS****Lec 3** **Credit 3**

This course is designed for students who have no previous experience and are unfamiliar with the human body systems, functions and medical terminology. The course provides

an introduction of medical terms and anatomy to develop a foundational awareness for the biomedical technician working in the healthcare technology management industry. The course will cover the components and meaning of medical words, hematology, body systems, the interplay of anatomy and medical equipment, bloodborne pathogens and infection control.

HTM-101 BIOMEDICAL EQUIPMENT I

Lec 2 Lab 2 Credit 3

In this course, students are introduced to the hierarchy of statutes, regulations, accreditation standards and hospital policies for healthcare equipment management and safety. The course focuses on performing extensive equipment testing to verify conformity with national standards and manufacturer specifications and learning standard practices for electrical safety testing, healthcare technology management and medical ethics. Also, the course introduces equipment management principles and troubleshooting techniques a BMET would employ to maximize the life span and minimize life-cycle costs while emphasizing resource and chemical use management.

HTM-102 HEALTHCARE TECHNOLOGY MANAGEMENT I

Lec 2 Lab 2 Credit 3

In this course, students are introduced to the structure and operations of the healthcare system, the need for clinical technicians in the healthcare system and their roles and responsibilities. The course will focus on the foundations of healthcare technology management, managing medical equipment and distinguishing the difference between standards, regulations and guidelines. Students will be able to provide a detailed explanation of the role of clinical engineering in the healthcare system, the application of systems engineering to healthcare technology and equipment and the policies which affect healthcare technology management.

HTM-103 INTRODUCTION TO DIGITAL AND MECHANICAL CONTROL SYSTEMS

Lec 2 Lab 2 Credit 3

This course will introduce theory, fabrication and testing of digital electronic circuits through manipulative experiences. The course will also strengthen the understanding of a broad range of motor types and the systems used to control them. Topics covered range from binary number systems, logic gates, microcomputer basics, pneumatic systems, hydraulic systems, motor types, and controls to installing and maintaining conventional controllers, electronic motor drives and programmable logic controllers. Corequisite: ELT-351.

HTM-104 BASIC X-RAY

Lec 2 Lab 2 Credit 3

This course is designed to explain the function of radiographic instrumentation used in medicine for diagnosis, treatment and life support including basic operation, repair, troubleshooting and preventive care maintenance.

HTM-105 BIOMEDICAL INFORMATION SYSTEMS

Lec 2 Lab 2 Credit 3

Healthcare Delivery Organizations include a vast interconnected network of people, places and things including the Healthcare Internet of Things (HIoT). This course includes an exploration of how hospitals and clinics are interconnected and the networked architecture of the modern hospital. The purpose of the course is to introduce the student to the principles of computer technology related to healthcare information systems with emphasis on computerized medical billing, healthcare data collection, storage, retrieval, security arrangement, presentation and verification. This course will also introduce the networked and interconnected components and requirements of the Healthcare Information System.

HTM-106 TROUBLESHOOTING THEORY AND METHODOLOGY

Lec 2 Lab 2 Credit 3

This course will introduce students to the basic concepts and theories of troubleshooting medical devices. The course focuses on troubleshooting methodologies to identify a problem and employ manageable, practical steps to correct the problem. These steps include identifying the problem, determining the probable cause, testing cause-hypothesis, creating a feasible solution, implementing and verifying the resolution and adjusting for re-engagement. Students will learn how to record the solution through quality documentation of actions, outcomes and lessons learned. These skills will be taught and reinforced using guided discussions, case studies and lessons learned from experiences in the BMET field from the instructor and fellow students. Prerequisites: HTM- 101, ELT-351 and NET-142.

HTM-107 HEALTHCARE DATABASE FUNDAMENTALS

Lec 2 Lab 2 Credit 3

This course is designed to teach students about databases and how to use them in a healthcare environment. Students will walk through the creation of an equipment tracking system. The course will teach students how to create forms, make queries, use fields and navigate a database. Additionally, students will create and explore a database designed specifically for healthcare facilities. Students will develop an understanding of database application in the centralization and coordination of all aspects of medical device maintenance and management in a Healthcare Delivery Organization(HDO).

HTM-108 SAFETY AND COMPLIANCE IN HEALTHCARE

Lec 3 Credit 3

In this course, students will be introduced to federal regulations, accepted standards and the accreditation procedure utilized by Healthcare Delivery Organizations (HDO's), nationally. The course will walk students through interpretation of federal regulations, NFPA guidelines for healthcare facilities, as well as the standards for both DNV and TJC Accreditation. Students will be exposed to the roles and responsibilities of the Healthcare Technology Management team and the specific individual technician responsibilities associated with healthcare compliance.

HTM-109 BIOMEDICAL TECHNICIAN CERTIFICATION PREPARATION

Lec 3 **Credit 3**

In this course, students will explore the Association for the Advancement of Medical Instrumentation (AAMI) Certified Associate of Biomedical Technician (CABT) certification standards. The course will equip students with the knowledge and skills necessary to obtain national certification and an entry-level position as a biomedical equipment technician. Students completing the certification preparation course will be prepared to complete the Association for the Advancement of Medical Instrumentation (AAMI) Certified Associate in Biomedical Technology (CABT) certification.

HTM-932**BIOMEDICAL TECHNICIAN INTERNSHIP****Lec 0** **OJT 8** **Credit 2**

The internship provides students applied healthcare technology management and service experience within a healthcare setting. During the internship, the student will learn and perform electrical safety inspections, preventative maintenance and minor repairs on selected pieces of medical equipment. Students are expected to adhere to all policies and regulations associated with their internship facilities. The schedule for meeting the requirements of the internship will be arranged between the student, faculty member and the internship site. Prerequisites: All program courses from semester 1-4.

Humanities (HUM)

HUM-101**INTRODUCTION TO HUMANITIES****Lec 3** **Credit 3**

This class introduces students to the various branches of the humanities: history, visual and performing arts, literature, language, music, religion and philosophy. The general focus of this class is to help students explore and understand the humanities by researching the human experience. This class has several themes that will incorporate multiple disciplines in the humanities to give a well-rounded and representative understanding of each subject.

HUM-114**MULTICULTURAL PERSPECTIVES****Lec 3** **Credit 3**

Selected readings from the critical perspectives of race, class and gender will provide the theoretical framework for class discussions. At the same time, films and works of literature from different cultural points of view will help students reach a new understanding of their own and other cultures and will open themselves up for a multicultural understanding of society.

HUM-145**LANGUAGE AND SOCIETY****Lec 3** **Credit 3**

This course is an introduction to sociolinguistics exploring the relationship between social and linguistic behavior. Analyzes factors influencing the choice of sounds, grammatical elements and vocabulary; it codes the social function of a language. Focuses on the history of the language, various dialects, jargon, slang and differences between male and female language.

HUM-287

www.scciowa.edu (319) 208-5000

LEADERSHIP DEVELOPMENT STUDIES**Lec 3** **Credit 3**

This course is designed to provide emerging and existing leaders the opportunity to explore the concept of leadership and to develop and improve their leadership skills. The course integrates readings from the humanities, experiential exercises, films/videos and contemporary readings on leadership.

HUM-290**A CALL TO LEAD****Lec 3** **Credit 3**

This course is designed to put leadership into practice by exploring the concept of self-leadership and servant leadership. The curriculum of this class will improve and expand on current leadership skills by building a strong foundation in values clarification, communication skills, group development, conflict management and diversity education. Prerequisite: HUM-287.

Industrial Technology (IND)

IND-104**INDUSTRIAL PUMPS****Lec 0.5** **Lab 1** **Credit 1**

This course discusses the principles and applications of centrifugal pumps. Students will learn centrifugal pump construction, uses, system properties, monitoring and troubleshooting techniques. Students will also learn the skills they need to select, operate, install, maintain and repair the many different types of pumps used in industry.

IND-106**MACHINE SHOP II****Lec 1** **Lab 2** **Credit 2**

This course introduces students to the basics of calculating cutting speeds and feeds for machining ferrous, non-ferrous and plastics materials on the lathe. It also demonstrates the fundamentals of mounting a chuck on an engine lathe and truing a work piece in a chuck and introduces students to the three methods of facing work to length in a chuck. The course will show students how to straight turn a work-piece to two concentric diameters in a four-jaw independent chuck. Students will learn the correct procedures for taking both roughing and finishing cuts. They will also learn to turn between centers. Finally, students will learn the proper method of finishing one end of work to one diameter, reversing the work in the chuck and finishing the other end to another diameter. It will demonstrate how to perform four internal machining operations on the engine lathe; drilling, boring, counter-boring and reaming.

IND-107**VALVES****Lec 1** **Credit 1**

This course gives students a fundamental understanding of the various shutoff valve constructions including wedge, ball, plug, globe, pinch and diaphragm types, basic maintenance techniques and the sources of many problems. From this foundation, students will be better able to develop maintenance skills through plant training programs or on-the-job experiences. The

course also provides basic guidelines for installing various types of shutoff valves.

IND-141

POWER TRANSMISSION

Lec 1 Lab 2 Credit 2

This course discusses the fundamentals of mechanical transmission systems used in industry. Students will learn industrial skills on how to operate, install, analyze performance and design basic mechanical transmission systems using chains, v-belts, spur gears, bearings and couplings.

IND-179

BOILER OPERATION AND CONTROL

Lec 1 Lab 2 Credit 2

This course is designed to help students understand the evolution of the boiler system from the first century to modern day and understand the principles and applications of steam traps. This course will provide an overview of the operation of the boiler plate system, beginning with basic principles of steam energy and boiler plate design. This course will describe steam, steam trapping and different types of steam traps including sizing, installation and monitoring.

IND-180

INDUSTRIAL HEATING AND COOLING

Lec 1 Lab 2 Credit 2

This course is designed to help students understand the fundamentals of HVAC & R. The students will learn chiller, air handler, cooling tower and condenser operations as well as how to perform basic preventative maintenance tasks. The course also shows how preventative maintenance practices can be used in troubleshooting common HVAC & R problems.

IND-212

SAFETY PRACTICES

Lec 1 Lab 2 Credit 2

This course will introduce OSHA safety standards, and upon completion of this course, students will receive the OSHA 10 hour general industry certification. This course relates OSHA as it applies to employers and employees engaged in a variety of businesses. Students will demonstrate how to safely use fall safety and other PPE to stay safe in the work place. Students will learn how to interpret a Safety Data Sheet to properly handle hazardous materials.

IND-252

POWERTRAIN AND PUMP OPERATION

Lec 1 Lab 4 Credit 3

This course discusses the principles and applications of various pumps and mechanical transmission systems. Students will learn the skills they need to select, operate, install, maintain, and repair the many different types of pumps used in the industry. Students will learn industrial skills on how to install, operate, and maintain basic mechanical transmission systems using chains, v-belts, spur gears, bearings, and couplings.

Legal Assistant (LGL)

LGL-173

LEGAL ASSISTANT LITIGATION

Lec 3

Credit 3

This course prepares legal administrative assistant students to aid an attorney in litigation procedures. Students receive instruction regarding the detail necessary for trial preparation from the instant the dispute requires the services of an attorney.

LGL-280

LEGAL CASE STUDIES

Lec 2 Lab 2 Credit 3

Designed to lead students through real and simulated court cases from beginning to end. Students will follow and research trials such as those involving criminal activity, family law, estate law, probate and bankruptcy. Students will learn the steps and timing for creating and filing corresponding court documents relevant to each case. Research, ethics, confidentiality, deadlines and accuracy will be emphasized. Prerequisite: LGL-173.

Literature (LIT)

LIT-101

INTRODUCTION TO LITERATURE

Lec 3 Credit 3

Designed to promote an appreciation of excellence in literature through illustrative types of short fiction, poetry and drama. Emphasis is placed on the reader's interpretive skills in examining an author's craft, intent and format.

LIT-120

AMERICAN NOVEL

Lec 3 Credit 3

A survey of the American novel with emphasis on 20th century works.

LIT-121

AMERICAN SHORT STORY

Lec 3 Credit 3

A survey of the American short story from Edgar Allen Poe to the present.

LIT-131

NATIVE AMERICAN LITERATURE

Lec 3 Credit 3

A survey of all genres, fiction and non-fiction, produced by Native Americans. Elements of study include the oral tradition influences, regional folklore and autobiographical and historical materials created by contemporary and historical Native American authors. Off-campus visits to centers of Native American study will be conducted whenever possible.

LIT-150

WORLD LITERATURE I

Lec 3 Credit 3

A survey of important works of literature from the ancient world through the Renaissance. This will include selections of prose, poetry and drama that represent the spirit of the times in which they were written.

LIT-151

WORLD LITERATURE II

Lec 3 Credit 3

A survey of important works of literature from the Renaissance to the present. This will include selections of prose, poetry and

drama that represent the spirit of the times in which they were written.

LIT-184

YOUNG ADULT LITERATURE

Lec 3 Credit 3

A discussion and evaluation of the literature written for adolescents. Types of literature for this age group and methods of utilizing this literature in school and home are addressed. Course concerns focus on the study of various Young Adult Literature genres, the reading/writing connection, authors' styles and themes and censorship.

LIT-209

FORMS OF LITERATURE: FILM ADAPTATION

Lec 3 Credit 3

Focuses on the relationship between literary works (fiction, drama, nonfiction, poetry or graphic literature) and their adaptations to film. Students explore the adaptation of literature to film; how the elements of plot, character, setting, point of view, symbol and theme are adapted or altered from literature to film; and how film adaptations influence our understanding of both literature and film. Prerequisite: Minimum grade of C- in ENG-105.

Medical Assistant (MAP)

MAP-121

ADMINISTRATIVE PROCEDURES I: MEDICAL OFFICE

Lec 2 Lab 4 Credit 4

This course is designed to acquaint students with the front office administrative responsibilities of the medical assistant. Competencies will include appointment scheduling, telephone techniques, professional correspondence, billing and collecting procedures, accounting methods and payroll preparation. The student will also be introduced to telehealth and navigator responsibilities. Prerequisite: BIO-163 with a C or higher.

MAP-122

ADMINISTRATIVE PROCEDURES II: MEDICAL OFFICE

Lec 2 Lab 2 Credit 3

This course introduces basic computer concepts and emphasizes the practical applications approach using simulated medical office management programs. The student is guided through a series of computer applications that highlight the most common aspects of the modern medical office including electronic claim filing. Resume development and job-seeking skills are also presented. Prerequisite: MAP-121 with a C or higher.

MAP-139

INTRODUCTION TO ELECTRONIC HEALTH RECORDS

Lec 1 Lab 2 Credit 2

Introduction to Electronic Health Records involves the student in the management and application of health records. This includes the implementation and management of electronic schedule, creating patient medical records, electronic correspondence, laws and regulation of medical records.

MAP-364

CLINICAL PROCEDURES FOR MEDICAL OFFICE I

Lec 3 Lab 8 Credit 7

This course will provide basic clinical skills and techniques needed for competency in the medical office. Fundamental skills include: medical and surgical aseptic techniques; sanitation, disinfection and sterilization of medical equipment; techniques used to obtain accurate vital sign data; assisting with patient examinations; preparation and assisting with minor office surgeries; preparation and performance of urinalysis testing; and techniques used to perform eye and ear assessment in the medical office. Prerequisite: Acceptance into the program.

MAP-369

CLINICAL PROCEDURES FOR MEDICAL OFFICE II

Lec 4 Lab 6 Credit 7

This course is designed to acquaint the student with the knowledge and skills required in the preparation, administration and documentation of various forms of medications. Dosage calculations and the physiological actions of drugs on the human body are addressed. Students will gain knowledge of venipuncture and use of quality controls. The student will gain knowledge of blood chemistries, serology, microbiology and hematology. Student will gain knowledge regarding the electronic medical record and its application in the clinical setting. Prerequisite: MAP-364 with a C or higher.

MAP-370

SPECIALTY PROCEDURES

Lec 2 Lab 4 Credit 4

This course expands on basic clinical procedures with advanced theory and procedural techniques in the medical practice. Student will gain knowledge and skills in gynecology, obstetrics, cardiopulmonary and pediatric procedures in the medical office. Student will also focus on knowledge and skills to prepare and respond to common emergency situations in a medical practice. Prerequisite: MAP-364 with a C or higher.

MAP-401

MEDICAL LAW AND ETHICS

Lec 1 Credit 1

This course is designed to familiarize the student with legal concepts of standard of care, scope of employment, criminal and civil acts, contracts, negligence and ethical concepts.

MAP-431

HUMAN RELATIONS

Lec 1 Credit 1

This course includes fundamental principles related to human relations. Basic psychological and developmental theorists, factors that influence behavior, professional attitudes and behavior, self-improvement, and communication in the health care setting are emphasized.

MAP-532

HUMAN BODY: HEALTH AND DISEASE

Lec 3 Credit 3

This course is designed to acquaint the student with the basic concepts and characteristics of disease processes, to impart basic knowledge of the etiology of the disease and to enable the student to understand the relationship between clinical signs and the disease process. Diagnostic tests, common treatments and patient education will also be discussed. Prerequisite: BIO-163 with a C or higher.

MAP-602
CLINICAL EXTERNSHIP SEMINAR

Lec 1 **Credit 1**

This course will discuss job related concerns and current medical office procedures. The student will complete a comprehensive medical assistant assessment of their knowledge; and prepare for national certification testing. Prerequisites: All previous program classes passed with a C or higher. Corequisite: MAP-615.

MAP-615
CLINICAL EXTERNSHIP

Lec 0 **OJT 20** **Credit 5**

Following successful completion of the academic hours, the student is placed in a selected medical office or clinic for a required clinical practicum, working directly under supervision of the medical provider. The student will experience both administrative and clinical areas of the medical facility during this training period. Students are unable to receive monetary compensation for the practicum/externship. Prerequisites: All previous program classes with a C or higher. Corequisite: MAP-602.

Math (MAT)

MAT-016
ALGEBRA LAB

Lec 0 **Lab 4** **Credit 2**

Algebra Lab provides lessons in the underlying skills and concepts required for better understanding in the corequisite Intermediate Algebra course. Topics will include algebraic vocabulary, operations with real numbers, polynomials, solving equations and more. This lab will also provide for more practice time and opportunity to receive assistance from the instructor in a face-to-face setting. It is mandatory for anyone enrolled in Intermediate Algebra who did not earn a qualifying math placement score. Corequisite: MAT-092.

MAT-052
PRE-ALGEBRA

Lec 2 **Lab 2** **Credit 3**

Designed for students who have not mastered the basic skills of arithmetic or for students who need to review arithmetic. Topics studied include operations on whole numbers, fractions, decimals, percents, measurement, basic statistics, beginning geometry and beginning algebra. These topics are similar to those topics covered in Math Skills I and II with an emphasis on problem solving techniques. Prerequisite: Meet minimum placement test score requirements.

MAT-062
ELEMENTARY ALGEBRA

Lec 2 **Lab 2** **Credit 3**

This course is a beginning level course for students needing a start, or fresh start, in algebra. Topics covered include performing math operations on signed numbers, solving linear equations in one and two variables, solving systems of linear equations, applying exponent rules, performing math operations on polynomials and factoring polynomials. Prerequisite: MAT-052 or equivalent with a minimum grade of C- or meet minimum placement testing requirements.

MAT-079
ELEMENTARY GEOMETRY

Lec 1 **Lab 2** **Credit 2**

This course is designed for college students who have completed an introductory algebra course but did not take high school geometry or took it so long ago they need a review. This will be equivalent to one year of high school geometry. Prerequisite: MAT-062 or meet minimum placement testing requirements.

MAT-092
INTERMEDIATE ALGEBRA

Lec 3 **Lab 2** **Credit 4**

This course is recommended for students with at least one year of high school algebra or equivalent. It serves as a foundation for many other math, science and business courses. Students will learn to apply algebraic models and standard solution methods to applied and theoretical problems, using technology when appropriate. Topics include a review of factoring polynomials, performing math operations on functions, solving rational equations, solving radical equations, solving and graphing quadratic functions, solving and graphing logarithmic and exponential equations. Prerequisite: Minimum placement testing requirements or Corequisite: MAT-016 if minimum placement score is not met.

MAT-094
INDEPENDENT STUDY - MATH

Lec 0 **Lab 2** **Credit 1**

This course is designed to provide the student an opportunity to select a specific mathematical area to explore in greater depth than is possible in other available courses. Independent Study topics will be determined by consultation between the student and instructor. Typical topics could include geometry, trigonometry, estimating, carpentry/mechanical/electrical preparation, etc. Credit earned in this course will not count toward the A.A., A.S., or A.A.S. degree requirements.

MAT-099
COMBINED ALGEBRA

Lec 5 **Credit 5**

This course is designed as a combined beginning and intermediate level algebra course. It serves as a foundation for many other math, science and business courses. Students will learn to apply algebraic models and standard solution methods to applied and theoretical problems, using technology when appropriate. Topics include linear equations and inequalities in one and two variables, systems of linear equations, exponents, polynomials, functions, rational equations, radical equations, quadratic functions and exponential/logarithmic equations. Prerequisite: MAT-052 or equivalent with a minimum grade of C- or meet minimum placement testing requirements.

MAT-110
MATH FOR LIBERAL ARTS

Lec 3 **Credit 3**

Math for Liberal Arts is a survey course for students who have little background in mathematics. Topics include critical thinking, survey of sets, probability, statistics, logic and personal finance. Additional topics may include voting theory, graph theory and geometry. This course is not intended for Mathematics and Science majors.

MAT-117**MATH FOR ELEMENTARY TEACHERS****Lec 3** **Credit 3**

This course is recommended for students pursuing a teaching degree in elementary education. It provides opportunities to better understand mathematical content practices as a foundation for teaching mathematics in an elementary classroom. Topics will include the NCTM Principles and Standards for School Mathematics, problem-solving strategies, set theory, number systems, operations in the real number systems, informal geometry, elementary probability, and statistics. Prerequisite: MAT-092 with a minimum grade of C- or meet minimum placement testing requirements.

MAT-120**COLLEGE ALGEBRA****Lec 3** **Credit 3**

This course is a study of rational, exponential, logarithmic and polynomial functions and relations, their graphs and related equalities. The study of the curricular functions, graphs and applications is included. This course may be taken concurrently with MAT-134. Prerequisite: MAT-092 or MAT-099 with a minimum grade of C- or meet minimum placement testing requirements.

MAT-128**PRECALCULUS****Lec 4** **Credit 4**

This course is an in-depth review of mathematical concepts necessary in preparing students for calculus. Problem solving is emphasized. Topics from algebra, trigonometry and analytic geometry essential in calculus are covered in this course. Topics include: properties of lines and quadratics, absolute value equations and inequalities, functions and their graphs, polynomial and rational functions, exponential and logarithmic functions, trigonometric functions, analytic trigonometry, vectors, conics in both the rectangular and polar coordinate systems, parametric equations, systems of equations and inequalities, matrices, three-dimensional coordinate geometry, partial fractions, sequences and mathematical induction. Prerequisites: MAT-120 and MAT-134 with a minimum grade of C- or meet minimum placement testing requirements.

MAT-134**TRIGONOMETRY AND ANALYTIC GEOMETRY****Lec 3** **Credit 3**

The student will study degree and radian angles; apply basic geometric and trigonometric concepts to solve triangles; apply and graph trigonometric functions and their inverses to solve applied problems; verify trigonometric identities; convert paired data between rectangular and polar notation systems; apply math operations on vectors and complex numbers; graph polar equations; and analyze/graph elliptic, hyperbolic, and other conic equations. Prerequisite: MAT-120 with a minimum grade of C- or meet minimum placement test score requirements. Corequisite: This course may be taken concurrently with MAT-120.

MAT-140**FINITE MATH****Lec 3****Credit 3**

This course is designed for Business and Social Science majors. It introduces them to matrix solutions, to linear equations, linear programming, matrix algebra, mathematics of finance, computer applications, value of slope of a line and exponential/logarithmic functions. Application problems are taken from Business Management and Social Science areas. Prerequisite: MAT-120 with a minimum grade of C- or meet minimum placement testing requirements.

MAT-149**LINEAR ALGEBRA****Lec 3** **Credit 3**

This course will include the study of systems of equations, matrices, determinants, vector spaces, inner product spaces, linear transformations, eigenvalues and eigenvectors. Applications relating to these topics will be investigated. Prerequisite: MAT-216 or meet minimum placement testing requirements.

MAT-150**DISCRETE MATH****Lec 3** **Credit 3**

This course introduces concepts in discrete mathematics as applied to computer science logic, methods of proof, sets, counting techniques, discrete probability, permutations and combinations, graphs and trees, mathematical induction, and recursion are included. Connections between discrete math and programming concepts are emphasized. Prerequisites: MAT-120 or equivalent course, or ALEKS score of 50.

MAT-156**STATISTICS****Lec 3** **Credit 3**

This course is an applied course in statistics, designed to introduce students to some of the concepts, symbols, procedures and vocabulary used in the field of statistics. Topics covered in this course include: organizing and graphing data, descriptive statistics, probability, various distributions, the sampling distribution of the mean, estimating a population mean, confidence intervals, inferential statistics (hypothesis testing), comparing two population parameters, analysis of variance, correlation, simple linear and multiple regression, contingency tables and nonparametric statistics, (time permitting). Prerequisites: MAT-092 or MAT-099 with a minimum grade of C- or meet minimum placement testing requirements.

MAT-165**BUSINESS CALCULUS****Lec 3** **Credit 3**

This course is intended for Business Management and Social Science majors. It introduces them to theorems for finding derivatives, applications to maximum and minimum, related rates, graphing of functions, marginal cost and revenue, supply and demand, partial derivatives, antiderivatives, definite integral, tests for increasing and decreasing functions, concavity, maximum and minimum of functions of more than one variable, area under a curve, separable differential equations, growth and decay and applications of above to Business Management and Social Sciences. Prerequisites: 3 years of high school college prep math AND meet minimum placement testing

score requirements, MAT-120 with a minimum grade of C or MAT-140 with a minimum grade of C-.

MAT-210 CALCULUS I

Lec 4 Credit 4

This course includes the study of limits and continuity, derivatives and differentiation, differentials, maximum and minimum function values and techniques of graphing, applications and an introduction to integration. Prerequisites: MAT-120 AND MAT-134 with a minimum grade of C- or meet minimum placement testing requirements.

MAT-216 CALCULUS II

Lec 4 Credit 4

This course is a study of integration, techniques of integration, applications and accompanying mathematical structure. Prerequisite: MAT-210 with a minimum grade of C-.

MAT-219 CALCULUS III

Lec 4 Credit 4

This is a course on multivariable calculus which covers topics from the functions of several variable and vector valued functions. The course includes directional derivative, gradients, the curl, the divergence, multiple integrals over regions and volumes. Line and surface integrals will be covered. Double integral in the polar coordinates will be covered. Prerequisite: MAT-216 with a minimum grade of C-.

MAT-227 DIFFERENTIAL EQUATIONS WITH LAPLACE

Lec 4 Credit 4

This course is the study of elementary theory and applications of ordinary differential equations. The course includes first and second order differential equations. Prerequisite: MAT-216 with a minimum grade of C-.

MAT-702 INTRODUCTION TO MATH APPLICATIONS

Lec 2 Lab 2 Credit 3

This course is offered to students who can profit from an applied course in mathematics and will prepare students who need to develop skills for MAT-704. It is designed as an introductory level algebra course recommended for students with one year of high school algebra. Emphasis is on the building of basic algebra skills and the application of these mathematical techniques. The course studies the relationship of geometry and algebra as they apply to various fields. This course will also cover whole numbers/decimals, integers, fractions/percents, direct measurement, basic geometric concepts/relationships, linear equations and right-triangle trigonometry. Prerequisite: MAT-052 or meet minimum placement testing requirements.

MAT-704 MATH APPLICATIONS

Lec 5 Credit 5

This course is offered to technical and other students who can profit from an applied course in mathematics. It is designed as an intermediate level algebra course recommended for students with at least one year of high school algebra. Emphasis is on the application of mathematical techniques. Students will

study the relationship of geometry and algebra as they apply to electronics and mechanical technology problems. Algebraic manipulation of formulas, equations, radicals, exponents, logarithms, polynomials, rational expressions, systems of linear equations, plane trigonometry, vectors and graphs of equations are studied. Prerequisite: MAT-062 or MAT-702 or meet minimum placement testing score requirements.

MAT-712 BUSINESS MATH

Lec 3 Credit 3

This course provides a study of math fundamentals and their application to business situations. Topics covered include banking procedures, payroll and taxes, weights and measurements, fractions and percentages, commissions, discounts, mark-ups/mark-downs, borrowing and interest, and insurance copays and deductibles. Microsoft Excel and traditional methods will be used to make common business decisions.

MAT-772 APPLIED MATH (ONLINE)

Lec 3 Credit 3

This course covers all fundamental arithmetic concepts and more routine algebraic operations. Arithmetic concepts are fractions, percentages, graphing, decimals, ratios, word problems, metrics, areas and volumes. Algebraic work includes solving simpler equations, proportions and formula rearrangement. Appropriate CPT score on math assessment or prerequisite course.

Manufacturing (MFG)

MFG-142 GEOMETRIC DIMENSIONING TOLERANCING

Lec 3 Credit 3

This course introduces the student to the use of Geometric Dimensioning and Tolerancing. It consists primarily of learning the names, meanings and applications of the symbols used on engineering drawings that include GD&T. Prerequisites: CAD-101 and DRF-113.

MFG-155 INDUSTRIAL MACHINE PROGRAMMING

Lec 1 Lab 4 Credit 3

This course introduces students to the use of microprocessors. Students will learn how inputs and outputs interact with microprocessors and how to program them. Students will also learn to read and understand coordinates on a blueprint and to write CNC programs using G and M codes.

MFG-156 INTRODUCTION TO CNC MACHINING

Lec 1 Lab 4 Credit 3

This course introduces basic operations of a CNC vertical mill. The course covers basic and advanced tooling and programming using G & M codes and CAM software. Teamwork, critical thinking, and problem solving skills will be emphasized through hands-on experience and practical applications.

MFG-165 ENGINEERING MATERIALS

Lec 3 Credit 3

A study of materials, their production, properties and uses in engineering design. Ferrous and nonferrous metals, polymeric and ceramic materials are covered. Methods of selecting acceptable materials based on their costs, availability and properties are discussed. Prerequisites or Corequisites: PHY-106 or PHY-160 and MFG-212.

MFG-206**MANUFACTURING PROCESSES I****Lec 1 Lab 4 Credit 3**

Basic course in measurements related to manufacturing, material removal, hard mold casting, powder metallurgy, plastics and rubber, material shearing, material forming, the use and manufacture of screw threads, abrasive removal methods, automation and introduction to numerical control. Lab sections demonstrate and give hands-on experiences in reading simple blue prints, layout, measurements and machining on tool room quality machine tools. Prerequisite: MAT-702.

MFG-209**MACHINE SHOP PRACTICES****Lec 1 Lab 4 Credit 3**

Classroom and hands on training will be provided in machine shop safety and the use of machine shop tools and machines. Training will include proper use of hand tools, measuring tools, milling machines, grinders, lathes, drills and saws.

MFG-212**BASIC MACHINE THEORY****Lec 1 Lab 4 Credit 3**

Introduction to basic machining processes involving drill press, lathe, mills, drills, saws, bench tools, measuring tools and grinders. Classes will cover safety, tooling, metal removal methods and different various pieces of equipment. The course will introduce the national OSHA safety standards, and upon completion of this course, students will receive the OSHA 10 General Industry card.

MFG-228**MACHINE OPERATIONS II****Lec 2 Lab 4 Credit 4**

Covers advanced setup and operation of lathes, mills and grinders using different materials and cutters. Productivity and safe operation are emphasized. Prerequisite: MFG-237.

MFG-237**INTRODUCTION TO MACHINE TRADES****Lec 1 Lab 4 Credit 3**

Explores basics of machining, raw materials, use of hand tools, safety and maintenance. Includes measurement techniques, materials, safety, machine tool math, quality control and maintenance. Emphasizes teamwork, critical thinking and problem solving through hands-on experience and practical applications. Corequisite: MAT-702.

MFG-303**ADVANCED CNC PROGRAMMING****Lec 3 Lab 6 Credit 3**

Continuation of MFG-156, Introduction to CNC Machining adding canned cycles, looping, sub-routines and interpretation of programs written by others. Internal machining on the lathes

is covered. More complex parts and production of multiple parts will be undertaken. Prerequisite: MFG-156.

MFG-323**MASTERCAM DESIGN****Lec 1 Lab 2 Credit 2**

This course provides an introduction to computer aided design and drafting. Actual hands-on experience in designing, drawing and dimensioning, surface and solid modeling using Mastercam Design software will be provided. The course presents logical step-by step instruction about the Mastercam commands, drawing aids, shortcuts and other valuable characteristics of Mastercam. This course will also feature 2D geometry and dimensioning, creating 3D surface geometry and 3D solids geometry and using Mastercam software to create solid models using wireframe geometry. Finished copies of the students' work will be made on a printer or plotter.

MFG-398**INTRODUCTION TO MACHINE SHOP****Lec 2 Lab 2 Credit 3**

This course will explore the basics of machining, raw materials, use of hand tools, safety and maintenance. The course will include measurement techniques, machine tool math, quality control, understanding drawings, manual machines and layout. Students will focus on interpretation of drawing information, description of basic symbols, notation and maintenance. The course will emphasize teamwork, critical thinking and problem solving through hands-on experience and practical application.

MFG-520**PREDICTIVE MAINTENANCE****Lec 1 Lab 2 Credit 2**

This course discusses the principles of machinery oil analysis, thermography, ultrasonics and machine vibration. Students will learn how to properly diagnose an equipment failure. Students will also learn steps to prevent equipment failures and keep equipment running efficiently.

Management (MGT)

MGT-101**PRINCIPLES OF MANAGEMENT****Lec 3 Credit 3**

This course provides an intensive examination of the basic fundamentals of organization and management underlying the solution to management problems.

MGT-110**SMALL BUSINESS MANAGEMENT****Lec 3 Credit 3**

This course introduces the student to various types of small business opportunities. Students will use concepts from the course to develop a business plan designed to guide the startup of a new business. The course also covers topics relevant to small business management, and regulations.

MGT-130**PRINCIPLES OF SUPERVISION****Lec 3 Credit 3**

This course provides an overview of the principles involved in supervision, including planning, organizing, motivating, staffing

and appraising. Also covered are interpersonal skills including communication, decision making, conflict and team work.

MGT-165

PRINCIPLES OF QUALITY

Lec 3 Credit 3

This course is designed to assist the student in acquiring the knowledge to create and develop successful teams in the workplace. The team concept has proven to be successful in improving productivity, quality, customer satisfaction and coworker morale. It has also reduced labor costs and helped organizations operate more lean and efficiently. The challenge can be transforming the workforce from individuals into a successful team. We will also cover the principles of success factors for Quality Improvement that focus on the skills and knowledge needed to lead quality improvement within a work group. Philosophies, concepts and improvement actions pertaining to quality will be covered in detail. Standards and Certification programs will be discussed and class members will prepare a Quality Improvement Plan for their work groups.

MGT-170

HUMAN RESOURCE MANAGEMENT

Lec 3 Credit 3

This course provides an overview of the principles involved in human resources management including strategy, legal environment, EEO, and job analysis and job design. Also covered are acquiring human resources, training and developing employees, compensation issues and labor relations.

Marketing (MKT)

MKT-110

PRINCIPLES OF MARKETING

Lec 3 Credit 3

This introductory class uses the managerial approach to study a market-directed system of marketing. The emphasis is on market strategy planning from the viewpoint of the marketing manager. The "4 Ps"-product, place, price and promotion-provide the structure underlying the organization of this course.

MKT-121

DIGITAL MARKETING

Lec 2 Lab 2 Credit 3

A complete overview of how to promote a business online, this course covers the basics of traditional marketing before going on to explore how these core concepts can be specifically applied to digital media. Students will learn the role that websites, social media, search engine placement, email and mobile marketing play in their overall marketing strategy and how best to take advantage of each.

MKT-140

PRINCIPLES OF SELLING

Lec 3 Credit 3

Fundamental terminology, principles and techniques of direct and indirect selling as well as promotional methods. Emphasis on human behavior and the motivation, rewards, duties and qualifications of a person in sales. This course is designed for an individual preparing for initial or improved employment.

MKT-150

196

PRINCIPLES OF ADVERTISING

Lec 3 Credit 3

A detailed look into the study and practice of advertising with special emphasis placed on allowing students to plan and think more strategically, evaluate alternative courses of action, develop more creative solutions to problems, analyze why people behave the way they do, express themselves and their ideas and persuade others to their point of view by using advertising terms, concepts and procedures. Prerequisite: MKT-110 or MKT-121.

MKT-160

PRINCIPLES OF RETAILING

Lec 3 Credit 3

Retailing organization, buying, selling, promotion, inventory control, pricing and location and layout.

Mass Media (MMS)

MMS-111

VIDEO PRODUCTION I

Lec 1 Lab 4 Credit 3

Video Production introduces video equipment operation, techniques in video production and specific production skills, including proper use of the non-linear editing systems, microphones, cameras, lighting equipment and tripods. For approximately 50 percent of the course, students experience hands-on application of material covered in lecture. Students produce both short and long format programs.

Medical Transcription (MTR)

MTR-158

INTRODUCTION TO MEDICAL SCRIBE

Lec 2 Lab 6 OJT 8 Credit 7

This course is designed to prepare students to create a patient care record under the direct supervision of a physician. Students will learn to recognize and obtain a chief complaint, history of present illness, past medical, social and family histories, review of systems and physical exam. Medical procedures, lab results and other pertinent patient information for a patient visit will also be covered. Practical experience will include transcription/editing of history and physical reports, consultation reports, SOAP notes, progress notes and office notes. Students will obtain knowledge in classification of drugs, normal routes of administration, usage, and generic and brand names. Routine patient encounters, management of chronic diseases and characteristics of disease processes will be discussed. Students will identify the importance and challenges of medical documentation, including guidelines for evaluation and management of visits.

Applied Music (MUA)

MUA-101

APPLIED VOICE

Lec 1 Credit 1

Private instruction on band and orchestra instruments, voice, piano and organ. The students will be expected to perform on their instrument or voice at a public recital at the end of the term. Credit is granted for the specific areas studied, based on the amount of work, time and involvement as specified by the music faculty before enrollment. An additional fee is charged for each applied music area selected.

MUA-104

APPLIED VOICE

Lec 2 Credit 2

Private instruction on band and orchestra instruments, voice, piano and organ. The students will be expected to perform on their instrument or voice at a public recital at the end of the term. Credit is granted for the specific areas studied, based on the amount of work, time and involvement as specified by the music faculty before enrollment. An additional fee is charged for each applied music area selected.

MUA-108

ITALIAN/LATIN/ENGLISH DICTION FOR SINGERS

Lec 2 Credit 2

Italian/Latin/English is the first of a two-semester two-credit hour course for singers. The course is required for vocal majors at Southeastern Community College and is also open to interested singers of all ages. Students will be introduced to the International Phonetic Alphabet and its application in fostering correct pronunciation when singing. Application of concepts through singing and written exams is an aspect of the course.

MUA-120

APPLIED PIANO

Lec 1 Credit 1

Private instruction on band and orchestra instruments, voice, piano and organ. The students will be expected to perform on their instrument or voice at a public recital at the end of the term. Credit is granted for the specific areas studied, based on the amount of work, time and involvement as specified by the music faculty before enrollment. An additional fee is charged for each applied music area selected.

MUA-121

APPLIED PIANO II

Lec 2 Credit 2

Private instruction on band and orchestra instruments, voice, piano and organ. The students will be expected to perform on their instrument or voice at a public recital at the end of the term. Credit is granted for the specific areas studied, based on the amount of work, time and involvement as specified by the music faculty before enrollment. An additional fee is charged for each applied music area selected.

MUA-124

APPLIED GUITAR

Lec 1 Credit 1

Private instruction on band and orchestra instruments, voice, piano and organ. The students will be expected to perform either vocal or instrumental at a public recital at the end of the term. Credit is granted for the specific areas studied, based on the amount of work, time and involvement as specified by the music

faculty before enrollment. An additional fee is charged for each applied music area selected.

MUA-125

APPLIED GUITAR II

Lec 2 Credit 2

Private instruction on band and orchestra instruments, voice, piano and organ. The students will be expected to perform either vocal or instrumental at a public recital at the end of the term. Credit is granted for the specific areas studied, based on the amount of work, time and involvement as specified by the music faculty before enrollment. An additional fee is charged for each applied music area selected.

MUA-126

APPLIED STRINGS

Lec 1 Credit 1

Private instruction on band and orchestra instruments, voice, piano and organ. The students will be expected to perform either vocal or instrumental at a public recital at the end of the term. Credit is granted for the specific areas studied, based on the amount of work, time and involvement as specified by the music faculty before enrollment. An additional fee is charged for each applied music area selected.

MUA-127

APPLIED STRINGS II

Lec 2 Credit 2

Private instruction on band and orchestra instruments, voice, piano and organ. The students will be expected to perform either vocal or instrumental at a public recital at the end of the term. Credit is granted for the specific areas studied, based on the amount of work, time and involvement as specified by the music faculty before enrollment. An additional fee is charged for each applied music area selected.

MUA-170

APPLIED WOODWINDS

Lec 1 Credit 1

Private instruction on band and orchestra instruments, voice, piano and organ. The students will be expected to perform either vocal or instrumental at a public recital at the end of the term. Credit is granted for the specific areas studied, based on the amount of work, time and involvement as specified by the music faculty before enrollment. An additional fee is charged for each applied music area selected.

General Music (MUS)

MUS-100

MUSIC APPRECIATION

Lec 3 Credit 3

This is a general overview course which includes basic music concepts and elements of the art, a general historical look and critical approach. Music as it has evolved from the beginning to present-day is studied. This involves listening to musical examples.

MUS-102

MUSIC FUNDAMENTALS

Lec 3 **Credit 3**

This course is designed for students who wish to learn how to read music for either further study as a major or for personal reasons. It is open to all students and is recommended for elementary education majors.

MUS-120
MUSIC THEORY I**Lec 3** **Credit 3**

This course is offered to students who wish to increase their musicianship through better understanding of the materials and structure of music and to those who plan to major or minor in music. The general purpose of the course is to help the student gain the necessary basic concepts of music fundamentals and harmony which will support more advanced theoretical instruction. Prerequisite: MUS-102. Corequisite: MUS-135.

MUS-121
MUSIC THEORY II**Lec 3** **Credit 3**

This course is a continuation of Music Theory I. Requires attendance at music programs as specified by the music faculty. Prerequisite: MUS-120. Corequisite: MUS-136.

MUS-135
MUSIC THEORY LAB I**Lec 0** **Lab 2** **Credit 1**

This course is to develop skills in reading and hearing pitch, rhythm, melodic and harmonic sounds of music. The course is based on the principal that a qualified musician must develop reading, singing and notation skills in order to achieve acuity of aural perception and make this acuity effective in the use of these skills. Corequisite: MUS-120.

MUS-136
MUSIC THEORY LAB II**Lec 0** **Lab 2** **Credit 1**

Continuation of MUS-135. Prerequisite: MUS-135. Corequisite: MUS-121.

MUS-140
CONCERT CHOIR**Lec 0** **Lab 2** **Credit 1**

Open to all college students who enjoy the aesthetic experience of choral singing. The choir is a performing group which meets regularly and performs a wide variety of choral literature. The choir presents programs throughout the college area and participates in state community college music activities. Maximum of 4 semester hours may be earned.

MUS-161
CLASS VOICE**Lec 0** **Lab 2** **Credit 1**

Class Study in Vocal Performance. Fundamentals of Vocal Performance: Resonance, Breath Management, Intonation, Phrasing and Stage Presence. Prerequisite: Consent of voice faculty.

MUS-162
INSTRUMENTAL ENSEMBLES**Lec 0** **Lab 2** **Credit 1**

This course is open to students who seek creative expression through ensemble performance. Credit is granted to those who meet requirements for rehearsals and performances through

participation in the Southeast Iowa Symphony Orchestra, the Southeast Iowa Concert Band or an established instrumental ensemble at Southeastern Community College. A maximum of 4 semester hours may be earned.

MUS-185
CLASS PIANO I**Lec 1** **Credit 1**

Class Piano I introduces the student to fundamental aspects of playing the piano including music reading, appropriate performance technique, and keyboard understanding as it relates to basic melodic and harmonic structures.

MUS-204
HISTORY OF ROCK AND ROLL**Lec 3** **Credit 3**

This introductory course traces the history of rock and roll from its inception as a fusion of African-American and white music traditions amidst the youth culture of post WWII era in America to its present state as an internationally known musical style. This course will develop listening skills and incorporate extensive exposure to recorded music.

MUS-205
JAZZ HISTORY AND APPRECIATION**Lec 3** **Credit 3**

Studies the elements and history of jazz music with concentration on critical listening skills. Includes a review of jazz history, styles, genres, form and content, composers and social and historical events of the past and present that influence music selections.

MUS-250
MUSICAL PLAY PRODUCTION**Lec 0** **Lab 2** **Credit 1**

This course provides college credit for student involvement in the production of a musical play. Areas of focus may include: singing, acting, set work, props, sound reinforcement and lighting. Auditions will be announced in advance. This course may be repeated for up to four semester hours of credit.

MUS-306
DIGITAL MUSIC PRODUCTION I**Lec 3** **Credit 3**

Digital Audio Production I introduces students to basic theories and techniques of digital audio recording, editing and mixing. Instruction utilizes current industry software digital audio workstation and covers the fundamentals of the operation of the software, as well as audio and MIDI recording and editing. This course provides students with real-world examples and frequent hands-on assignments, that will provide a solid foundation in all aspects of audio production. Prerequisites: MUS-120 or MUS-185. Corequisite: MUS-185, if prerequisite is not met.

MUS-307
DIGITAL MUSIC PRODUCTION II**Lec 3** **Credit 3**

Digital Music Production II builds upon student skills navigating and using software digital audio workstations. Instruction covers working with expanded hardware and software configurations, developing versatile tools for manipulating and editing both audio, MIDI, and CV data, and implementing a range of techniques that encompass larger, more sophisticated production

scenarios. This course provides real-world examples and frequent hands-on assignments designed to enhance abilities in all aspects of audio production. Prerequisite: MUS-306 with a C or better.

Computer Networking (NET)

NET-101 IT FUNDAMENTALS

Lec 1 **Credit 1**

This course will provide students with the fundamental technical knowledge about personal computers that is needed to work efficiently in the IT career field. Upon successful completion, students will be able to setup basic workstations, including installing basic hardware and software and establishing network connectivity and troubleshoot compatibility issues. It will also assist the students for preparing and taking the CompTIA IT Fundamentals exam. Prerequisites: NET-122 and NET-142.

NET-118 BASIC COMPUTER NETWORKING/HARDWARE

Lec 2 **Lab 2** **Credit 3**

This course is an introductory course about basic computer networking concepts and computer hardware. It will provide a foundation for anyone needing basic computer knowledge. It covers network and hardware terminology, hardware devices, network protocols, topologies and connections. The student will get hands-on experience adding and replacing hardware and network components.

NET-122 COMPUTER HARDWARE BASICS

Lec 2 **Lab 2** **Credit 3**

This course is designed to improve the student's understanding of computer hardware and peripherals. The student shall gain an ability to determine the source of elementary equipment problems and the ability to isolate problems relating to software and hardware. Through hands-on labs, the student will obtain and demonstrate knowledge of installation, configuration and repair.

NET-142 NETWORK ESSENTIALS

Lec 3 **Credit 3**

This course is designed to provide students with the background necessary to understand the local area networking information in Microsoft courses on workstations and networking. This course provides students with the information needed to build a foundation in current networking technology for local area networks, wide area networks and the Internet.

NET-153 ADVANCED NETWORKING

Lec 2 **Lab 4** **Credit 4**

This course will allow the student to take knowledge from previous networking courses and apply it in a hands-on environment. The Microsoft network operation system will be emphasized. The student will also receive exposures to other advanced technologies. These technologies may include: switch/
www.scciova.edu (319) 208-5000

router configuration, computer forensics, computer ethics and cryptography. Prerequisites: NET-122, NET-142, NET-310 and NET-314.

NET-261 VIRTUALIZATION/CLOUD OPERATIONS

Lec 2 **Lab 2** **Credit 3**

This course prepares students to be able to implement, manage, and troubleshoot virtualization concepts used for desktops and servers. Students will learn to develop, manage, and maintain cloud services as well as the cloud operation concepts of SaaS, PaaS, and IaaS. This course also leads students to have the skills necessary to pass the CompTIA Cloud+ certification exam. Prerequisites: NET-142 and NET-442.

NET-314 WINDOWS SERVER

Lec 2 **Lab 4** **Credit 4**

Windows Server covers the issues of setting up a client/server environment using Windows Server software. The course begins with file server basics. Determining the cost of a network and choosing appropriate network hardware are included. Students will receive hands-on experience in preparing client computers, installing Windows Server software and setting up a complete client/server environment. They will learn how to configure a domain environment with DNS/DHCP, and remote access. There will be hands-on troubleshooting in the labs. Prerequisites: NET-122 and NET-142.

NET-442 LINUX OPERATING SYSTEM

Lec 2 **Lab 2** **Credit 3**

This course will cover the essentials of installing, configuring, maintaining, administering and troubleshooting the Linux operating system.

NET-627 SYSTEM SECURITY

Lec 2 **Credit 2**

This course will provide students with practical knowledge needed for strong information security for an organization's daily operations. Students will have hands-on learning on handling day-to-day operations to secure an organization's data. Prerequisite: ENG-105 and NET-637, or Instructor Approval.

NET-637 NETWORK INTRUSION INVESTIGATION

Lec 2 **Lab 2** **Credit 3**

This course enables students to use penetration-testing tools and techniques that ethical hackers and security testers utilize to protect computer networks. Skills and techniques include footprinting, social engineering, port scanning, enumeration and cryptography. This course incorporates a lab component in which students practice skills designed to secure network connections and prevent attacks. Prerequisites: ENG-105, NET-142, NET-314 and NET-442, or Instructor Approval.

NET-716 DATABASE ADMINISTRATION/SERVICE APPLICATION

Lec 2 **Lab 2** **Credit 3**

Database Administration/Service Application will provide the student with experience installing, configuring, maintaining and administering SQL Server and SharePoint. The key concepts

of Structured Query Language are studied, including the basic structure of relational databases, how to read and write simple and complex SQL statements and advanced data manipulation techniques.

NET-717

EMAIL APPLICATIONS

Lec 2 Lab 2 Credit 3

This course will provide the student with experience installing, configuring, maintaining and administering Exchange Server, as well as, an Exchange hybrid environment, where part of the mailboxes can be hosted in the cloud. Prerequisite: NET-314.

NET-820

NETWORK INTERNSHIP

Lec 0 OJT 16 Credit 4

This course is designed to provide the Network Administration & Cyber Security student with a practical experience in information technology prior to completion of the Associate of Applied Science degree. The internship is supervised by the program coordinator and should be taken during the student's last spring or fall semester on campus. Prerequisites: CIS-504, CFR-100, NET-101, NET-310, NET-627 and NET-637.

NET-825

INTERNET/WEB INTERNSHIP

Lec 0 OJT 16 Credit 4

This course is designed to provide the Web Design and Administration student with a practical experience in information technology prior to completion of the Associate of Applied Science Degree. The internship is supervised by the program coordinator and should be taken during the student's last spring or fall semester on campus. Prerequisite: Student must be in final semester of Web Design and Development AAS degree.

Physical Education Activities (PEA)

PEA-187

PE ACTIVITY - WEIGHT TRAINING I

Lec 0 Lab 2 Credit 1

Participation emphasizing physical conditioning, personal habits conducive to physical fitness, individual and team games and hygienic practices with a view toward carry-over value in future leisure time activities. A maximum of 4 semester hours may be earned.

Coaching/Officiating (PEC)

PEC-101

INTRODUCTION TO COACHING

Lec 3 Credit 3

Introduction to Coaching consists of a four-part course that includes coaching theory, sports medicine, sports psychology

and sports physiology. It leads to coaching authorization for the State of Iowa as a junior high or senior high coach.

PEC-116

ATHLETIC DEVELOPMENT AND HUMAN GROWTH

Lec 2 Credit 2

A study of the physical, cognitive and psychosocial stages of development during middle childhood and adolescence and how these stages impact the coaching profession. This is one of the four courses leading to the coaching and authorization issued by the Iowa Department of Education as a head coach or assistant coach of any interscholastic athletic activity.

PEC-120

BODY STRUCTURE AND FUNCTION

Lec 1 Credit 1

An introduction to the physiological processes and anatomical features of the human body which are related to and affected by physical activity and training. This is one of the four courses leading to the coaching and authorization issued by the Iowa Department of Education as a head coach or assistant coach of any interscholastic athletic activity.

General Physical Education and Health (PEH)

PEH-102

HEALTH

Lec 3 Credit 3

A survey of individual problems and community health problems. Aspects of mental illnesses; communicable, infectious, congenital, degenerative and vitamin deficiency diseases; hormone imbalance and harmful effects of narcotic drugs and alcohol are stressed. Measures involving the preventing, controlling and promoting of better mental health and physical health in general are emphasized. Designed to stimulate the formation of desirable attitudes toward the health of the individual and the community.

PEH-142

FIRST AID

Lec 3 Credit 3

A study in theory and practice to develop an understanding of the principles and procedures of emergency care in the case of accidents, sudden illness, or disaster; and to develop basic skills of handling these cases until the services of a physician are available. The three-credit component of First Aid will involve creation of a functional first aid kit. (ICCOC)

PEH-161

INTRODUCTION TO PHYSICAL EDUCATION

Lec 2 Credit 2

Orientation and exploration in the physical education field, career opportunities, responsibilities to the profession, ethical sports practices, historical background and social forces that act upon organized as well as informal sports.

Physical Education Training (PET)

PET-105

BASIC ATHLETIC TRAINING

Lec 3 Credit 3

This course serves as an introduction to the profession of athletic training. Students will be instructed in basic skills and theories of the profession including: measurement of vital signs, taping, wrapping and immobilization. Students will become familiar with the roles, functions and professional preparation of an athletic trainer as well as the history of the profession and its governing structures.

PET-140

ATHLETIC TRAINING PRACTICUM I

Lec 0 Lab 2 Credit 1

Athletic training skills instruction for the beginning student athletic trainer. Practical examinations cover material taught during scheduled meeting times and observation hours. Observation of athletic training skills and techniques used concurrent with athletic events. The purpose of this class is to provide students with clinical rotations during their freshman year. The rotation will be at multiple sites and sports with supervision from the Certified Athletic Trainer. Students will be expected to attend practices and games as assigned. At this time they will practice and demonstrate skills taught in the classroom. They will be in charge of a daily journal of activities and hours. Prerequisite: PET-105.

PET-230

CARE AND PREVENTION OF ATHLETIC INJURIES

Lec 2 Lab 2 Credit 3

This course will introduce the student to athletic injuries, assessment and treatment. This course includes laboratory instruction in athletic taping and basic athletic training skills. The course also involves a directed observation requirement. Prerequisite: PET-105.

Intercollegiate Physical Education (PEV)

PEV-115

VARSITY BASEBALL

Lec 0 Lab 2 Credit 1

This course is designed for students who wish to compete at the NJCAA Intercollegiate athletic level representing Southeastern Community College. Team members will gain knowledge and develop skills through conditioning, practice, game preparation and/or weight training. The team roster may be determined according to program limitations with students selected on ability and availability. Participants must meet eligibility requirements as deemed by the sports/activities governing body. This course is a one credit course (2 lab hours) and can be repeated for a maximum of four credit hours.

PEV-121

VARSITY BASKETBALL, MEN

Lec 0 Lab 2 Credit 1

This course is designed for students who wish to compete at the NJCAA Intercollegiate athletic level representing Southeastern Community College. Team members will gain knowledge and develop skills through conditioning, practice, game preparation and/or weight training. The team roster may be determined according to program limitations with students selected on ability and availability. Participants must meet eligibility requirements as deemed by the sports/activities governing body. This course is a one credit course (2 lab hours) and can be repeated for a maximum of four credit hours.

PEV-122

VARSITY BASKETBALL, WOMEN

Lec 0 Lab 2 Credit 1

This course is designed for students who wish to compete at the NJCAA Intercollegiate athletic level representing Southeastern Community College. Team members will gain knowledge and develop skills through conditioning, practice, game preparation and/or weight training. The team roster may be determined according to program limitations with students selected on ability and availability. Participants must meet eligibility requirements as deemed by the sports/activities governing body. This course is a one credit course (2 lab hours) and can be repeated for a maximum of four credit hours.

PEV-125

BOWLING

Lec 0 Lab 2 Credit 1

This course is designed for students who wish to compete at the NJCAA Intercollegiate athletic level representing Southeastern Community College. Team members will gain knowledge and develop skills through conditioning, practice, game preparation and/or weight training. The team roster may be determined according to program limitations with students selected on ability and availability. Participants must meet eligibility requirements as deemed by the sports/activities governing body. This course is a one credit course (2 lab hours) and can be repeated for a maximum of four credit hours.

PEV-130

VARSITY CROSS COUNTRY

Lec 0 Lab 2 Credit 1

This course is designed for students who wish to compete at the NJCAA Intercollegiate athletic level representing Southeastern Community College. Team members will gain knowledge and develop skills through conditioning, practice, game preparation and/or weight training. The team roster may be determined according to program limitations with students selected on ability and availability. Participants must meet eligibility requirements as deemed by the sports/activities governing body. This course is a one credit course (2 lab hours) and can be repeated for a maximum of four credit hours.

PEV-133

VARSITY TRACK AND FIELD

Lec 0 Lab 2 Credit 1

This course is designed for students who wish to compete at the NJCAA Intercollegiate athletic level representing Southeastern Community College. Team members will gain knowledge and

develop skills through conditioning, practice, game preparation and/or weight training. The team roster may be determined according to program limitations with students selected on ability and availability. Participants must meet eligibility requirements as deemed by the sports/activities governing body. This course is a one credit course (2 lab hours) and can be repeated for a maximum of four credit hours.

**PEV-140
VARSITY GOLF**

Lec 0 Lab 2 Credit 1

This course is designed for students who wish to compete at the NJCAA Intercollegiate athletic level representing Southeastern Community College. Team members will gain knowledge and develop skills through conditioning, practice, game preparation and/or weight training. The team roster may be determined according to program limitations with students selected on ability and availability. Participants must meet eligibility requirements as deemed by the sports/activities governing body. This course is a one credit course (2 lab hours) and can be repeated for a maximum of four credit hours.

**PEV-145
SPORTS SHOOTING**

Lec 0 Lab 2 Credit 1

This course is designed for students who wish to compete at the NJCAA Intercollegiate athletic level representing Southeastern Community College. Team members will gain knowledge and develop skills through conditioning, practice, game preparation and/or weight training. The team roster may be determined according to program limitations with students selected on ability and availability. Participants must meet eligibility requirements as deemed by the sports/activities governing body. This course is a one credit course (2 lab hours) and can be repeated for a maximum of four credit hours. A Criminal Background Check is required.

**PEV-150
VARSITY SOCCER**

Lec 0 Lab 2 Credit 1

This course is designed for students who wish to compete at the NJCAA Intercollegiate athletic level representing Southeastern Community College. Team members will gain knowledge and develop skills through conditioning, practice, game preparation and/or weight training. The team roster may be determined according to program limitations with students selected on ability and availability. Participants must meet eligibility requirements as deemed by the sports/activities governing body. This course is a one credit course (2 lab hours) and can be repeated for a maximum of four credit hours.

**PEV-160
VARSITY SOFTBALL**

Lec 0 Lab 2 Credit 1

This course is designed for students who wish to compete at the NJCAA Intercollegiate athletic level representing Southeastern Community College. Team members will gain knowledge and develop skills through conditioning, practice, game preparation and/or weight training. The team roster may be determined according to program limitations with students selected on ability and availability. Participants must meet eligibility requirements as deemed by the sports/activities governing

body. This course is a one credit course (2 lab hours) and can be repeated for a maximum of four credit hours.

**PEV-170
VARSITY VOLLEYBALL**

Lec 0 Lab 2 Credit 1

This course is designed for students who wish to compete at the NJCAA Intercollegiate athletic level representing Southeastern Community College. Team members will gain knowledge and develop skills through conditioning, practice, game preparation and/or weight training. The team roster may be determined according to program limitations with students selected on ability and availability. Participants must meet eligibility requirements as deemed by the sports/activities governing body. This course is a one credit course (2 lab hours) and can be repeated for a maximum of four credit hours.

**PEV-180
WRESTLING**

Lec 0 Lab 2 Credit 1

This course is designed for students who wish to compete at the NJCAA Intercollegiate athletic level representing Southeastern Community College. Team members will gain knowledge and develop skills through conditioning, practice, game preparation and/or weight training. The team roster may be determined according to program limitations with students selected on ability and availability. Participants must meet eligibility requirements as deemed by the sports/activities governing body. This course is a one credit course (2 lab hours) and can be repeated for a maximum of four credit hours.

**PEV-190
VARSITY CHEER/DANCE**

Lec 0 Lab 2 Credit 1

This course is designed for students who wish to compete at the NJCAA Intercollegiate athletic level representing Southeastern Community College. Team members will gain knowledge and develop skills through conditioning, practice, game preparation and/or weight training. The team roster may be determined according to program limitations with students selected on ability and availability. Participants must meet eligibility requirements as deemed by the sports/activities governing body. This course is a one credit course (2 lab hours) and can be repeated for a maximum of four credit hours.

Philosophy (PHI)

**PHI-101
INTRODUCTION TO PHILOSOPHY**

Lec 3 Credit 3

A topical introduction to the major areas of philosophical inquiry.

**PHI-105
INTRODUCTION TO ETHICS**

Lec 3 Credit 3

A survey of the major ethical emphases from ancient to modern times with pertinent reading in the works of representative philosophers.

Pharmacy Technician (PHR)

PHR-100 **INTRO TO PHARMACY TECHNICIAN (INDIAN HILLS CC COURSE)**

Lec 3 **Credit 3**

This course will provide students with the history of pharmacy, law and ethics of pharmacy, ways to protect patient confidentiality and the different roles of pharmacy technicians. Students will obtain appropriate communication, management and teamwork skills necessary to healthcare field. Safety and infection control policies and procedures, continuing education and major trends in the pharmacy profession will also be presented.

PHR-110 **PHARMACY TECHNICIAN I (INDIAN HILLS CC COURSE)**

Lec 3 **Credit 3**

This course provides the student with the roles and responsibilities of the Pharmacy Technician. The different areas of patient-care settings, dosage forms, abbreviations, referencing, competency, communication, prescription processing, over-the-counter medications, complementary alternative medicine and hospital pharmacy will be presented.

PHR-115 **PHARMACY TECHNICIAN II (INDIAN HILLS CC COURSE)**

Lec 4 **Lab 1** **Credit 5**

Prescription processing, repackaging, compounding, aseptic technique, pharmacy stock, billing and psychopharmacology will be discussed. Body systems and related pharmaceuticals will be examined. Students will be introduced to the basic sciences for pharmacy technicians, pharmacy organizations and the future of technicians.

PHR-130 **PHARMACEUTICAL CALCULATIONS (INDIAN HILLS CC COURSE)**

Lec 1 **Credit 1**

This course provides the student with the knowledge and skill necessary to perform dosage conversions and calculations. The apothecary system, metric system and common household measurements are presented. Mathematical calculations used to determine drug dosage is demonstrated.

PHR-141 **PHARMACY OPERATIONS (INDIAN HILLS CC COURSE)**

Lec 3 **Credit 3**

Procurement, billing, reimbursement, inventory management, and patient and medication safety will be discussed. Students will be introduced to tech-check-tech and the future of technicians.

PHR-145 **PHARMACY SIMULATION I (INDIAN HILLS CC COURSE)**

Lec 0 **Lab 2** **Credit 1**

This simulation experience provides the student with the opportunity to apply knowledge and develop skills as a
www.scciova.edu (319) 208-5000

pharmacy technician in an environment without impact, or potential impact, on patients.

PHR-148 **PHARMACY SIMULATION II (INDIAN HILLS CC COURSE)**

Lec 0 **Lab 2** **Credit 1**

This advanced simulation experience provides the student with the opportunity to apply knowledge and develop skills as a pharmacy technician in an environment without impact, or potential impact, on patients.

PHR-150 **PHARMACY TECHNICIAN PRACTICUM (INDIAN HILLS CC COURSE)**

Lec 0 **Clinical 6** **Credit 2**

This course provides students with the opportunity to experience the profession of pharmacy at both community and hospital pharmacy sites. Practicum experiences will help the students decide which area of the profession they would like to pursue at program completion.

Physical Science (PHS)

PHS-120 **EXPLORING PHYSICAL SCIENCE**

Lec 3 **Lab 2** **Credit 4**

This is a combined lecture and lab course where lab/lecture are directly integrated. Topics covered come from physics, astronomy, chemistry, geology and meteorology. Course intended for non-science majors. Prospective elementary and middle school teachers may find this course especially helpful.

PHS-151 **INTRODUCTION TO ASTRONOMY**

Lec 2 **Lab 2** **Credit 3**

A survey of astronomy including historical considerations, the solar system, the universe and special topics. Topics may include the laws, the methods and current research. Each planet will be studied as well as major stars and galaxies. Special topics include: cosmology, cosmogony, nova, pulsars, quasars, relativity, space travel, black holes and other space mysteries. Lab to include: experiments, observations, slides and movies.

PHS-165 **INTRODUCTION TO METEOROLOGY**

Lec 3 **Credit 3**

Introduction to atmospheric sciences and meteorology. Includes physical elements and process of weather, climatic types and regions, forecasting and associated activity.

PHS-185 **INTRODUCTION TO EARTH SCIENCE**

Lec 3 **Credit 3**

An introduction to geologic processes that have generated and continue to alter the surface of the earth. Covers: major types of rocks and the rock cycle; rock deformation, weathering, transport and deposition by fluid agents; plate tectonics, volcanoes, earthquakes, orogeny; absolute and relative time and the geologic column. Includes segment on the history of geology.

Physics (PHY)

PHY-106

SURVEY OF PHYSICS

Lec 3 Lab 2 Credit 4

This class is designed as an introduction to the basic concepts of physics. Measurement, the scientific method, motion, forces, work and energy, simple machines, temperature and heat plus electricity and magnetism will be covered. Lab will be an integral part with activities augmenting the lecture concepts.

PHY-162

COLLEGE PHYSICS I

Lec 3 Lab 2 Credit 4

This course is designed to provide a working knowledge of physics for those who need physics but do not need the rigor of a calculus-based physics course. The topics covered will include motion, force, energy, work, power, torque, linear momentum, rotational motion, angular momentum and thermodynamics. The conservation laws will be stressed. Topics in thermodynamics are covered as time permits. Solving practical problems will be a major emphasis.

PHY-172

COLLEGE PHYSICS II

Lec 3 Lab 2 Credit 4

This course is a continuation of College Physics I. Topics to be covered include oscillations, waves, electricity, magnetism and optics. Topics in modern physics may be covered if time permits. Prerequisite: PHY-162.

PHY-212

CLASSICAL PHYSICS I

Lec 4 Lab 2 Credit 5

Classical Physics introduces the students to the classical topics of motion in one, two and three dimensions (Kinematics and dynamics), gravitation, work and energy, relativistic dynamics, rotational and oscillatory motion and thermodynamics. This physics course depends very much on the calculus of reals and vector integral calculus. Prerequisite or Corequisite: MAT-210.

PHY-222

CLASSICAL PHYSICS II

Lec 4 Lab 2 Credit 5

Classical Physics II continues in the second semester with emphasis on the theory of electricity and magnetism. The concept of a field is applied to the electrostatic charge. The laws of Coulomb and Gauss are to be developed and applied to various types of charge distribution. Electric current and magnetic force are to be discussed in connection with their application to electromagnetic induction. Prerequisite: PHY-212.

Practical Nursing (PNN)

PNN-160

INTRODUCTION TO NURSING PRACTICE

Lec 2 Credit 2

This course provides the student with an introduction to nursing concepts and principles. From a historical perspective, the

student will explore the roles and challenges of the nurse in the health care continuum. The nursing process is introduced and serves as the foundation for the development of critical thinking and test taking strategy skills for success in the nursing program. Communication, stress and adaptation, wellness, professional accountability, information technology, time management and priority setting are also introduced. Prerequisites: BIO-168, BIO-173 and BIO-186 with a minimum grade of C or higher. Corequisites: PSY-121 and ENG-105 with a minimum grade of C or higher.

PNN-222

PHARMACOLOGY I

Lec 1 Credit 1

This course introduces the student to the basics of pharmacology. Principles of drug administration and dosage calculation will be introduced. Legal/ethical considerations, as related to drug therapy, are discussed. An overview of drug classifications, drug actions, common adverse reactions and nursing interventions are included. Emphasis is placed on nursing responsibilities in drug therapy. Prerequisites: BIO-168, BIO-173 and BIO-186 with a minimum grade of C or higher. Corequisites: PNN-160 and ENG-105.

PNN-311

PN ISSUES AND TRENDS

Lec 1 Credit 1

This course is an overview of the role of the licensed practical nurse. Ethical and legal responsibilities of the nurse are identified. Levels of practice, licensure, career opportunities, and beginning the job-seeking skills are addressed. Opportunities for professional growth are explored. Prerequisite: PNN-534. Corequisite: BIO-186.

PNN-534

NURSING I

**Lec 8 Lab 2 Clinical Credit 12.5
10.5**

This course builds on concepts previously presented in the curriculum. A systematic approach is utilized in providing nursing care to individuals, families and groups across the lifespan. The course emphasizes selected common and chronic alterations in health and includes essential content in fundamental nursing concepts and care. An opportunity is provided for students to apply theoretical knowledge, to utilize the nursing process and to practice nursing techniques in clinical settings. Prerequisites: PNN-160, PNN-222, BIO-168, BIO-173 and BIO-186 with a grade of C or higher. Corequisite: PSY-121.

PNN-535

NURSING II

Lec 8 Clinical 12 Credit 12

This course continues to incorporate concepts previously presented in the curriculum. A systematic approach is utilized in providing nursing care to individuals, families and groups across the lifespan. This course emphasizes selected common and chronic alterations in health and includes essential content related to maternal-child care. An opportunity is provided for students to apply theoretical knowledge, to utilize the nursing process, and to practice nursing techniques in clinical settings. Prerequisite: PNN-534 with a grade of C or higher. Corequisite: PNN-311.

Political Science (POL)

POL-110

INTRODUCTION TO POLITICAL SCIENCE

Lec 3 Credit 3

An introduction to the field of political science by illustrating the kind of contemporary issues political scientists deal with, the diversity of approaches they make and the significant results they hope to achieve. It will also acquaint students with the complex and vitally important subject of contemporary government and politics.

POL-111

AMERICAN NATIONAL GOVERNMENT

Lec 3 Credit 3

A survey of the American federal system of government which includes a description and analysis of interest groups, political parties, public opinion, the presidency, the Congress, the court system and foreign policy making.

Paralegal (PRL)

PRL-284

LEGAL ETHICS

Lec 2 Credit 2

This course covers legal ethics with an emphasis on how the rules affect legal administrative assistants. Students learn about the regulation of the legal profession, including the rules of conduct that govern both attorneys and legal administrative assistants. Topics include the meaning and importance of the unauthorized practice of law, the attorney-client privilege and its related work product doctrine, confidentiality, the rules governing conflicts of interest, and other topics relative to ethics in law. Prerequisite: ADM-198.

Psychology (PSY)

PSY-102

HUMAN AND WORK RELATIONS

Lec 3 Credit 3

This is a course that includes the understanding of the applications of psychological principles, theory and research related to the work setting.

PSY-111

INTRODUCTION TO PSYCHOLOGY

Lec 3 Credit 3

A basic course in the understanding of behavior, designed to give the student a scientific background in the fundamental problems and techniques covered in the field of psychology.

PSY-121

DEVELOPMENTAL PSYCHOLOGY

Lec 3 Credit 3

A systematic study of life-span development. Individual differences in behavior as well as cultural norms are considered in relation to heredity and environment.

PSY-211

www.scciowa.edu (319) 208-5000

PSYCHOLOGY OF ADJUSTMENT

Lec 3 Credit 3

A study of the adjusting/coping behavior of the individual in various aspects of life situations. Prerequisite: PSY-111.

PSY-226

PSYCHOLOGY OF AGING

Lec 3 Credit 3

This course will examine the physical, cognitive, social and psychological changes that occur across the adult years and the factors influencing development in each area. Individual differences in the aging process will be emphasized with attention to the factors contributing to individual differences and the relevance of individual differences in addressing aging issues. The influence of society and societal attitudes toward older adults and the aging process will also be addressed. Additional learning opportunities will include interactions with older adults in various situations including those in nursing homes, assisted living homes, retirement homes and living independently in the community.

PSY-228

DEATH AND DYING

Lec 3 Credit 3

This course will introduce students to the study of death and dying and the cultural, social, biological and psychological aspects of death and dying. Topics to be covered include the reality and definition of death, the grief process, care of the dying, cultural customs related to death and dying, views and attitudes toward death and dying, and the scientific, legal and ethical issues surrounding death and dying. Exploration of one's own views and attitudes concerning death and dying will be encouraged. In addition, opportunities to visit death-related industries such as funeral homes and cemeteries and to interact with professionals in the field such as hospice workers, grief counselors and funeral directors will be provided.

PSY-241

ABNORMAL PSYCHOLOGY

Lec 3 Credit 3

A survey of the history of mental illness including a study of normal and abnormal behavior as related to various cultures. Personality development, individual adjustment and description of the various clinical entities and their relevance to present day life will be covered. Character disorders and personality structures which cause maladjustment are reviewed. A review of the theories of personality is included. Prerequisite: PSY-111.

PSY-251

SOCIAL PSYCHOLOGY

Lec 3 Credit 3

The study of interpersonal relations, social attitudes, group dynamics, intergroup relations, class and cultural influence in a psychological context. Prerequisite: PSY-111.

Respiratory Therapy (RCP)

RCP-231

INTRODUCTION TO RESPIRATORY CARE

Revised: 12/6/2023 9:07p.m.

Lec 3 Credit 3

An introduction to the respiratory care profession. Topics include respiratory care and the healthcare system; the economics of healthcare, communication, documentation, evidence –based practice; and the ethical and legal implications of practice. Students will also be introduced to entry level modalities such as oxygen and aerosol therapy. This is a companion course to RCP-232 where competencies for this course will be practiced and evaluated in the laboratory or simulation center setting prior to hands-on clinical practice with adult patients in a hospital setting. Prerequisite: Admission into the Program. Corequisites: RCP-232 and RCP-233.

RCP-232**RESPIRATORY CARE MODALITIES****Lec 0 Lab 3 Credit 1.5**

This course allows the entry level respiratory care student an opportunity to practice procedures using equipment in the respiratory care lab and simulation center. This is a companion course to RCP-231 and RCP-233, in which competencies related to recall, application and analysis using respiratory equipment are practiced and tested prior to patient care. Prerequisite: Admission to the Program. Corequisites: RCP-231 and RCP-233.

RCP-233**INTRODUCTION TO CLINICAL PRACTICE****Lec 3 Credit 3**

This course focuses on the interaction between patients and the respiratory therapist for the purpose of providing healthcare service(s) or assessing the health status of a patient. Subjects included in this course are infection control, informatics, preparation for patient encounter, taking a medical history, performing a patient interview, cardiopulmonary symptoms, vital signs, physical examination of the chest, evaluation of breath sounds, review and analysis of laboratory studies and interpretation of ABGs. This is a companion course to RCP-232, where competencies for this course will be practiced and evaluated in the laboratory or simulation center setting prior to hands-on clinical practice with adult patients in a hospital setting. Prerequisite: Admission to the Program. Corequisites: RCP-231 and RCP-232.

RCP-331**RESPIRATORY CARE II****Lec 3 Credit 3**

This course is a continuation of Introduction to Respiratory Care and will build on the equipment and therapeutic modalities essential to clinical practice. Major topics include airway management and airway clearance techniques, respiratory mechanics and control of breathing, arterial blood gases and methods of non-invasive ventilation. Prerequisites: RCP-231, RCP-232 and RCP-233. Corequisites: RCP-332, RCP-333, RCP-350 and RCP-751.

RCP-332**RESPIRATORY CARE MODALITIES II****Lec 0 Lab 2 Credit 1**

This course allows respiratory care students an opportunity to practice procedures using equipment in the respiratory lab and simulation center. The primary focus of this skills lab course is the practice and preparation for required Competency

Evaluations for Respiratory Care II. Prerequisites: RCP-231, RCP-232 and RCP-233. Corequisites: RCP-331, RCP-333, RCP-350 and RCP-751.

RCP-333**CARDIOPULMONARY PHARMACOLOGY****Lec 2 Credit 2**

Introduces general pharmacological principles and management relative to the cardiopulmonary system. Includes management and treatment of specific cardiopulmonary disorders and drugs used in advanced cardiac life support (ACLS). Prerequisites: RCP-231, RCP-232 and RCP-233. Corequisites: RCP-332, RCP-333, RCP-350 and RCP-751.

RCP-350**PULMONARY PATHOLOGY****Lec 3 Credit 3**

This course presents an overview of acute and chronic diseases affecting the pulmonary system. Diagnosis, assessment, treatment and management of the disease will be discussed. Prerequisites: RCP-231, RCP-232 and RCP-233. Corequisites: RCP-331, RCP-332, RCP-333 and RCP-751.

RCP-440**CARDIO/PULMONARY DIAGNOSTICS****Lec 2 Credit 2**

This course will present various cardiopulmonary diagnostic tests and the role of the respiratory care practitioner. Contents included: pulmonary function testing, cardiopulmonary exercise testing, specialized test regimens and quality assurance in the pulmonary function laboratory. Prerequisites: RCP-350, RCP-524 and RCP-755. Corequisites: RCP-450, RCP-620 and RCP-761.

RCP-450**RESPIRATORY CARE IV****Lec 2.5 Lab 1 Credit 3**

This course will focus on advanced equipment and therapeutic modalities used in the practice of Respiratory Care. Major topics include ECGs, hemodynamic monitoring, cardiac pharmacology, polysomnography and pulmonary rehabilitation. Prerequisite: RCP-524. Corequisites: RCP-440 and RCP-620.

RCP-480**ADVANCED CARDIAC CARE****Lec 2 Lab 1 Credit 2.5**

This course provides theory and laboratory practice in managing specific life-threatening cardiac dysrhythmias. Includes a review of basic life support, use of mechanical aids to establish an airway and maintain ventilation, ECG monitoring and recognition of life-threatening dysrhythmias, cardiac defibrillation and initiating appropriate cardiac drug therapy. Prerequisites: RCP-331, RCP-332, RCP-333, RCP-350 and RCP-751. Corequisites: RCP-524 and RCP-755.

RCP-524**RESPIRATORY CARE III****Lec 4.5 Lab 1 Credit 5**

This course introduces the concepts of mechanical ventilation used in the respiratory support of the critically ill patient, with emphasis on indications for ventilation, parameters monitored during ventilation, function and clinical applications.

Prerequisites: RCP-331, RCP-332, RCP-333, RCP-350 and RCP-751. Corequisite: RCP-755.

RCP-620
NEONATAL/PEDIATRIC RESPIRATORY CARE

Lec 4 Lab 2 Credit 5

This course will cover the assessment of the newborn and pediatric patient. Fetal circulation, congenital anomalies, respiratory disorders of the newborn, ventilation of the newborn, surfactant replacement, oxygen and aerosol therapy of the newborn and pediatric patient, as well as child development will be discussed. Prerequisites: RCP-524 and RCP-755. Corequisites: RCP-440, RCP-450 and RCP-761.

RCP-751
RESPIRATORY CARE CLINIC I

Lec 0 Clinical 15 Credit 5

Learners are assigned to various clinical experiences within the hospital and homecare settings in order to apply principles and skills learned in RCP-331, RCP-332, and RCP-333. Prerequisites: Satisfactory completion of RCP-231, RCP-232 and RCP-233. Must be currently enrolled in or have satisfactorily passed RCP-331, RCP-332, RCP-333 and RCP-350.

RCP-755
RESPIRATORY CARE CLINIC II

Lec 0 Clinical 4 Credit 1

Learners are assigned to various clinical experiences within a health care setting to apply principles learned in the respiratory curriculum. Prerequisites: RCP-331, RCP-332, RCP-333, RCP-350 and RCP-751. Corequisites: RCP-524 and RCP-480.

RCP-761
RESPIRATORY CARE CLINIC III

Lec 0 Clinical 15 Credit 5

Learners are assigned to various clinical experiences within a hospital and homecare setting to apply principles learned in the respiratory curriculum. Prerequisites: RCP-524 and RCP-755. Corequisites: RCP-440, RCP-450 and RCP-620.

RCP-767
RESPIRATORY CARE CLINIC IV

Lec 0 Clinical 24 Credit 8

Learners are assigned to various clinical experiences within a health care setting to apply principles learned in the respiratory curriculum. Prerequisites: RCP-440, RCP-450 RCP-620 and RCP-761. Corequisites: RCP-910 and RCP-810.

RCP-810
RESPIRATORY CARE PROFESSIONAL

Lec 2 Credit 2

The purpose of this course is to assist second year respiratory care students in preparing for autonomous professional practice. The role of the professional: duties to client, employer and public; professional responsibilities; involvement in continuing education and professional career development will be explored. Prerequisites: RCP-440, RCP-450, RCP-620 and RCP-761. Corequisites: RCP-766 and RCP-880.

RCP-910
RESPIRATORY CARE RRT REVIEW

Lec 2 Credit 2

This course is designed to test the student's ability to successfully earn passing scores on advanced-level examinations. Although advanced-level examinations will be the focus of this course, review of entry-level examination concepts will also be provided. Mock board examinations will be administered after completion of a comprehensive review seminar. Prerequisites: RCP-440, RCP-450, RCP-620 and RCP-761. Corequisites: RCP-810 and RCP-767.

Reading (RDG)

RDG-045
KEYS TO READING

Lec 2 Lab 2 Credit 3

A beginning course designed to build basic reading skills: identifying topics and main ideas, identifying supporting details, making inferences and recognizing patterns in paragraphs. A pretest will determine the student's appropriate level for vocabulary skill building and students will work on vocabulary development at the appropriate level.

Religion (REL)

REL-101
SURVEY OF WORLD RELIGIONS

Lec 3 Credit 3

A survey of the major religions of the eastern and western world. Each religion is placed in its historical context and its major tenets are explored. This course includes a general understanding of the various religions studied, some specific insights into each religion's belief structures and discussion of the general function of religion in human experience.

Science (SCI)

SCI-115
BASIC ELECTRICITY

Lec 1 Lab 2 Credit 2

An introduction to basic electricity and magnetism. A study of the relationship between voltage, current and resistance. Power generation, power transfer and their applications. A basic understanding of the applied electrical circuits.

SCI-123
FORENSIC SCIENCE

Lec 3 Lab 2 Credit 4

Explores forensic science and its impact on science, society and the criminal justice system. Focuses on basic concepts in selected areas of chemistry, biochemistry, cell and molecular biology, and anatomy and physiology. This course is designed to educate liberal arts students about basic sciences, and the realities and limitations of scientific methods when applied specifically to criminal investigation.

SCI-928
INDEPENDENT STUDY

Lec 0 Lab 2-6 Credit 1-3

Individual study in a science area determined by consultation between the student and the department instructional staff. Study to be based in interest of student and capabilities of college facilities. Prerequisite: 12 hours of science work.

Student Development (SDV)

**SDV-108
THE COLLEGE EXPERIENCE**

Lec 1 Credit 1

This course is designed to empower new students to successfully transition to college. Students will learn academic success skills, strategies for personal development and exploration, college culture and expectations, and how to access college resources and services.

**SDV-125
WORKPLACE READINESS**

Lec 1 Credit 1

This course is designed to assist students in obtaining and maintaining employment. Topics include making career decisions, using labor market information, developing a portfolio and demonstrating positive attitudes and behaviors in the workplace.

**SDV-130
CAREER EXPLORATION**

Lec 1 Credit 1

This course is designed for students in developing an awareness of and skillfulness in career development process emphasizing self-assessment, occupational exploration and job placement.

**SDV-148
EDUCATIONAL PROGRAM EXPLORATION**

Lec 1 Credit 1

This class assists students in examining post-secondary educational programs as they relate to career choices. The focus is on technical programs, transfer programs, course requirements, career awareness, and educational awareness as they relate to the process of career choices. Self-assessment instruments and/or field trips and/or job shadowing will help identify tentative educational plans and programs to assist students in designing an individualized career plan.

**SDV-153
PRE-EMPLOYMENT STRATEGIES**

Lec 2 Credit 2

This course is designed to aid students in developing the materials and skills necessary to obtain and maintain employment. Topics include character development associated with job success, job seeking skills, the application & hiring process, communication, teamwork skills and leadership skills.

**SDV-812
EXPERIENTIAL CREDITS**

Lec 0 OJT 12-36 Credit 3-9

This supervised internship is designed to provide participation in a living and learning experience through an approved business

establishment. This course may not be substituted for program specific internships. The course can be repeated for up to a total of 9 credits.

Social Media Marketing (SMM)

**SMM-108
SOCIAL MEDIA ENGAGEMENT**

Lec 2 Lab 2 Credit 3

This course explores the history of social networks and introduces students to social media for organizations. It provides students opportunities to implement the use of social media tools as part of a marketing strategy and work with social media analytic tools.

**SMM-220
NAVIGATING THE MEDIA MINEFIELD**

Lec 3 Credit 3

This course explores the legal and regulatory issues surrounding social media platforms. Students will learn how to avoid common legal pitfalls and anticipate situations that may have potential legal consequences. Course content includes defamation, privacy issues, copyright and trademark, commercial speech, cyberbullying and free speech boundaries.

Sociology (SOC)

**SOC-110
INTRODUCTION TO SOCIOLOGY**

Lec 3 Credit 3

An analysis of social organization (or the social order). This course deals with the nature of sociology as a science, the original nature of man, the socialization of the individual, the development of groups and group behavior, the nature of culture and culture patterns, the organization of institutions, the nature of social order, the organization of human stratification and examination of major social processes. Special emphasis is placed upon the American cultural patterns.

**SOC-114
CONFLICT RESOLUTION IN THE WORKPLACE**

Lec 3 Credit 3

Conflict Resolution in the Workplace will study conflict resolution theories and applications in the workplace. The course will provide students with the opportunity to develop their own effective interpersonal conflict resolution skills as well as skills needed to help employees resolve their conflicts with one another and the skills needed to negotiate contracts. Students will also be introduced to theories and skills needed to apply culturally sensitive principles to conflict resolution.

**SOC-115
SOCIAL PROBLEMS**

Lec 3 Credit 3

An investigation into a selection of social problems involving alternative solutions. Topics may include drug and alcohol

abuse, crime, violence, prejudice and discrimination, and human sexuality.

SOC-120 MARRIAGE AND FAMILY

Lec 3 Credit 3

A critical approach to the problems of the modern family with some information given to the historical perspective. Such topics as courtship and marriage, marital adjustment, the achievement of family unity, minority family types, parent-child relationships, economic and social changes in family organizations and family control will be covered.

SOC-160 INTRODUCTION TO SOCIAL WORK

Lec 3 Credit 3

The introductory course in social welfare systems and social work practice surveys the historical development of the social work profession in conjunction with the development of social welfare services in the United States, social welfare system responses to a variety of current social problems; generalist social work as a distinct profession; and specific settings and methods of social work practice.

SOC-161 INTRODUCTION TO SOCIAL WORK LAB

Lec 0 OJT 4 Credit 1

Students will complete 72 hours of volunteer service in a social service setting. They will complete a paper analyzing the agency and evaluating their work in the agency. Corequisite: SOC-160.

SOC-212 DIVERSITY

Lec 3 Credit 3

This course studies gender, race, class, sexuality and other issues of diversity. The curriculum highlights the duality of oppression and privilege and the ways in which race, gender, class and sexuality shape daily life. Special focus is on learning how to demonstrate course concepts as social action. Social justice is practiced as students become educated in these concepts of diversity and engage in diversity conscious social action.

SOC-230 JUVENILE DELINQUENCY

Lec 3 Credit 3

A study of juvenile delinquency as an individual and social problem. This course includes theories of delinquency causations, law enforcement procedures, methods of corrections and prevention of juvenile delinquency.

SOC-240 CRIMINOLOGY

Lec 3 Credit 3

Criminology is the study of crime from a social perspective; the causes of crime, the social impact of crime, and the criminals involved in crime. Criminology is studied in an attempt to better understand what motivates the criminal to act in a criminal manner. Prerequisite: CRJ-100.

Speech (SPC)

SPC-101

www.scciowa.edu (319) 208-5000

FUNDAMENTALS OF ORAL COMMUNICATION

Lec 3 Credit 3

Explores communication in a variety of contexts including interpersonal relationships, the workplace, small groups and public speaking. Emphasis on the application and practice of communication theories and skills, particularly public speaking.

SPC-112 PUBLIC SPEAKING

Lec 3 Credit 3

This course examines both the theoretical and practical basis of speech communication, particularly public speaking. Emphasis is on speech preparation, organization, support, delivery and audience analysis.

SPC-120 INTERCULTURAL COMMUNICATION

Lec 3 Credit 3

This course emphasizes communication theory across cultures, including identifying the cultural foundations of beliefs, attitudes, values and behaviors. Interactive assignments are used for the purpose of recognizing commonalities across cultures, developing a multicultural perspective, identifying and appreciating other cultural orientations and recognizing and assigning cultural explanations of specific behaviors.

SPC-122 INTERPERSONAL COMMUNICATION

Lec 3 Credit 3

Emphasizes group problem-solving, semantics and communication exercises leading toward better working relationships between individuals. Areas covered for this course would be language theory, nonverbal communication, perception theory, listening, group process and influences.

SPC-132 GROUP COMMUNICATION

Lec 3 Credit 3

Group Communication will examine how people effectively and ineffectively use communication in a variety of small groups including work teams, discussion groups and decision-making bodies. Topics of concentration include the principles and processes of small group communication, individual roles in groups, leadership, group climate, decision making, problem solving and conflict resolution. Prerequisite: SPC-101 or SPC-112.

Sport Management (SPT)

SPT-101 INTRODUCTION TO SPORT MANAGEMENT

Lec 3 Credit 3

As an introduction to the field of sport management, this course examines various facets of sport management as they relate to the ever-changing and expanding sport industry. Topics such as basic principles of sport management, marketing, law, finance and ethics will be introduced. This course will also explore career opportunities available in the field of sport management.

SPT-102 CONTEMPORARY ISSUES IN SPORT

Revised: 12/6/2023 9:07p.m.

209

Lec 3 Credit 3

This course exposes students to an extensive array of contemporary issues relevant to the sport industry. Current global, national and regional issues will be explored that will challenge students' traditional way of thinking about sport and recreation, as well as foster an innovative approach to the management and delivery of sport.

SPT-107**SPORT PROMOTION AND MARKETING****Lec 3 Credit 3**

This course explores and examines general marketing principles while specifically studying marketing and promotion as it relates to the sport industry. Some of the topics included in this course are marketing research and strategy, branding, sponsorships, licensing, digital marketing and social media. Prerequisite: SPT-101 or Instructor Approval.

SPT-108**SPORT PROGRAM ADMINISTRATION****Lec 3 Credit 3**

In this course, students will gain a understanding of the practical demands and risks of preparing an athletic arena or recreational facility for an event. In addition to facilities, the course will also examine topics such as transportation, accommodations and security. Special emphasis will be placed on junior college athletic events. Prerequisite: SPT-101 or Instructor Approval.

SPT-109**SAFETY AND RISK MANAGEMENT****Lec 3 Credit 3**

This course explores issues of safety and risk management as they apply to all levels of sports. Because it is the ultimate responsibility of coaches and administrators to reduce the risks of participation for athletes involved, this course will cover topics such as facilities management, equipment, traveling, athletic training and supervision. Prerequisite: SPT-101 or Instructor Approval.

Work Based Learning (WBL)

WBL-100**EXPLORING CAREERS****Lec 1-3 Credit 1-3**

This course will provide guidance in choosing a career goal and preparing for employment. Emphasis will be placed on identifying interests, abilities, and values, and exploring options for careers. Students will learn how to access labor market information and employment trends. Additionally, students will develop the skills and aptitudes necessary to obtain employment, emphasizing the development of characteristics associated with job success.

WBL-102**EXPLORING CAREERS: SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS****Lec 1-3 Credit 1-3**

This course will provide guidance in choosing a career goal and preparing for employment in Science, Technology, Engineering, 210

Revised: 12/6/2023 9:07p.m.

or Mathematics careers. Emphasis will be placed on identifying interests, abilities, and values, and exploring options for careers. Students will learn how to access labor market information and employment trends. Additionally, students will develop the skills and aptitudes necessary to obtain employment in these fields, emphasizing the development of characteristics associated with job success.

WBL-103**EXPLORING CAREERS: HUMAN SERVICES****Lec 1-3 Credit 1-3**

This course will provide guidance in choosing a career goal and preparing for employment in Human Services careers. Emphasis will be placed on identifying interests, abilities and values and exploring options for careers. Students will learn how to access labor market information and employment trends. Additionally, students will develop the skills and aptitudes necessary to obtain employment in these fields, emphasizing the development of characteristics associated with job success.

WBL-104**EXPLORING CAREERS: HEALTH SCIENCES****Lec 1-3 Credit 1-3**

This course will provide guidance in choosing a career goal and preparing for employment in Health Sciences careers. Emphasis will be placed on identifying interests, abilities, and values, and exploring options for careers. Students will learn how to access labor market information and employment trends. Additionally, students will develop the skills and aptitudes necessary to obtain employment in these fields, emphasizing the development of characteristics associated with job success.

WBL-105**EXPLORING CAREERS: BUSINESS, FINANCE, MARKETING, AND MANAGEMENT****Lec 1-3 Credit 1-3**

This course will provide guidance in choosing a career goal and preparing for employment in Business, Finance, Marketing and Management careers. Emphasis will be placed on identifying interests, abilities, and values, and exploring options for careers. Students will learn how to access labor market information and employment trends. Additionally, students will develop the skills and aptitudes necessary to obtain employment in these fields, emphasizing the development of characteristics associated with job success.

WBL-106**EXPLORING CAREERS: INFORMATION SOLUTIONS****Lec 1-3 Credit 1-3**

This course will provide guidance in choosing a career goal and preparing for employment in Information Solutions careers. Emphasis will be placed on identifying interests, abilities, and values, and exploring options for careers. Students will learn how to access labor market information and employment trends. Additionally, students will develop the skills and aptitudes necessary to obtain employment in these fields, emphasizing the development of characteristics associated with job success.

WBL-107**EXPLORING CAREERS: APPLIED DIGITAL, VISUAL, AND COMMUNICATION ARTS**

Lec 1-3 Credit 1-3

This course will provide guidance in choosing a career goal and preparing for employment in Applied Digital, Visual and Communication Arts careers. Emphasis will be placed on identifying interests, abilities, and values and exploring options for careers. Students will learn how to access labor market information and employment trends. Additionally, students will develop the skills and aptitudes necessary to obtain employment in these fields, emphasizing the development of characteristics associated with job success.

**WBL-108
EXPLORING CAREERS: INDUSTRIAL TECHNOLOGY****Lec 1-3 Credit 1-3**

This course will provide guidance in choosing a career goal and preparing for employment in Industrial Technology careers. Emphasis will be placed on identifying interests, abilities, and values, and exploring options for careers. Students will learn how to access labor market information and employment trends. Additionally, students will develop the skills and aptitudes necessary to obtain employment in these fields, emphasizing the development of characteristics associated with job success.

**WBL-110
EMPLOYABILITY SKILLS****Lec 1-3 Credit 1-3**

This course is designed to assist students in developing the skills necessary to obtain employment, and to learn and practice the skills and attitudes required for job success. Students will practice resume writing, job application completion and interviewing techniques. Additionally, students will practice work-place problem solving strategies and demonstrate skills required to work in a diverse environment. Prerequisite: WBL-150 is recommended.

**WBL-140
WORKPLACE PROJECT BASED LEARNING****Lec 1 Lab 2-4 Credit 2-3**

Students in this course learn the concept of project based learning in the workplace and develop and implement projects in cooperation with local businesses, community organizations, or non-profit agencies. Teamwork and communication skills are emphasized. Projects are developed under the supervision of a college faculty member.

**WBL-142
WORKPLACE PROJECT BASED LEARNING: SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS****Lec 1 Lab 2-4 Credit 2-3**

Students in this course learn the concept of project based learning in the workplace, and develop and implement projects in cooperation with local businesses, community organizations, or non-profit agencies in the Applied Sciences, Technology, Engineering and Manufacturing employment sector. Teamwork and communication skills are emphasized. Projects are developed under the supervision of a college faculty member.

**WBL-143
WORKPLACE PROJECT BASED LEARNING: HUMAN SERVICES****Lec 1 Lab 2-4 Credit 2-3**

Students in this course learn the concept of project-based learning in the workplace, and develop and implement projects in cooperation with local businesses, community organizations, or non-profit agencies in Human Services. Teamwork and communication skills are emphasized. Projects are developed under the supervision of a college faculty member.

**WBL-144
WORKPLACE PROJECT BASED LEARNING: HEALTH SCIENCES****Lec 1 Lab 2-4 Credit 2-3**

Students in this course learn the concept of project based learning in the workplace, and develop and Implement projects in cooperation with local businesses, community organizations, or non-profit agencies in the Health Sciences employment sector. Teamwork and communication skills are emphasized. Projects are developed under the supervision of a college faculty member.

**WBL-145
WORKPLACE PROJECT BASED LEARNING: BUSINESS FINANCE, MARKETING, AND MANAGEMENT****Lec 1 Lab 2-4 Credit 2-3**

Students in this course learn the concept of project based learning in the workplace, and develop and Implement projects in cooperation with local businesses, community organizations, or non-profit agencies in the Business, Finance, Marketing and Management employment sector. Teamwork and communication skills are emphasized. Projects are developed under the supervision of a college faculty member.

**WBL-146
WORKPLACE PROJECT BASED LEARNING: INFORMATION SOLUTIONS****Lec 1 Lab 2-4 Credit 2-3**

Students in this course learn the concept of project based learning in the workplace, and develop and implement projects in cooperation with local businesses, community organizations, or non-profit agencies in the Information Solutions employment sector. Teamwork and communication skills are emphasized. Projects are developed under the supervision of a college faculty member.

**WBL-147
WORKPLACE PROJECT BASED LEARNING: APPLIED DIGITAL, VISUAL, AND COMMUNICATION ARTS****Lec 1 Lab 2-4 Credit 2-3**

Students in this course learn the concept of project based learning in the workplace, and develop and implement projects in cooperation with local businesses, community organizations, or non-profit agencies in the Applied Digital, Visual and Communication Arts employment sector. Teamwork and communication skills are emphasized. Projects are developed under the supervision of a college faculty member.

**WBL-148
WORKPLACE PROJECT BASED LEARNING: INDUSTRIAL TECHNOLOGY****Lec 1 Lab 2-4 Credit 2-3**

Students in this course will learn the concept of project-based learning in the workplace, and develop and implement projects

in cooperation with local businesses, community organizations, or non-profit agencies in the Industrial Technology employment sector. Teamwork and communication skills are emphasized. Projects are developed under the supervision of a college faculty member.

WBL-150

JOB SHADOWING

Lec 0.5-1 Lab 1-2 Credit 1-2

Students in this course will explore a field of interest while developing research skills, professionalism, and building occupational knowledge. Students will visit workplaces of interest to learn about specific jobs, professional requirements, and develop a basic knowledge of an organization's structure and values.

WBL-152

JOB SHADOWING: JOB SHADOWING: SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS

Lec 0.5-1 Lab 1-2 Credit 1-2

Students in this course will explore the field of Science, Technology, Engineering and Mathematics while developing research skills, professionalism and building occupational knowledge. Students will visit workplaces in this employment sector to learn about specific jobs, professional requirements and develop a basic knowledge of an organization's structure and values.

WBL-153

JOB SHADOWING: HUMAN SERVICES

Lec 0.5-1 Lab 1-2 Credit 1-2

Students in this course will explore a field of Human Services while developing research skills, professionalism, and building occupational knowledge. Students will visit workplaces of interest to learn about specific jobs, professional requirements, and develop a basic knowledge of an organization's structure and values.

WBL-154

JOB SHADOWING: HEALTH SCIENCES

Lec 0.5-1 Lab 1-2 Credit 1-2

Students in this course will explore the field of Health Sciences while developing research skills, professionalism and building occupational knowledge. Students will visit workplaces in this employment sector to learn about specific jobs, professional requirements and develop a basic knowledge of an organization's structure and values.

WBL-155

JOB SHADOWING: JOB SHADOWING: BUSINESS, FINANCE, MARKETING, AND MANAGEMENT

Lec 0.5-1 Lab 1-2 Credit 1-2

Students in this course will explore the fields of Business, Finance, Marketing and Management while developing research skills, professionalism and building occupational knowledge. Students will visit workplaces in this employment sector to learn about specific jobs, professional requirements and develop a basic knowledge of an organization's structure and values.

WBL-156

JOB SHADOWING: JOB SHADOWING: INFORMATION SOLUTIONS

Lec 0.5-1 Lab 1-2 Credit 1-2

Students in this course will explore the field of Information Solutions while developing research skills, professionalism and building occupational knowledge. Students will visit workplaces in this employment sector to learn about specific jobs, professional requirements and develop a basic knowledge of an organization's structure and values.

WBL-157

JOB SHADOWING: APPLIED DIGITAL, VISUAL, AND COMMUNICATION ARTS

Lec 0.5-1 Lab 1-2 Credit 1-2

Students in this course will explore the field of Applied Digital, Visual and Communication Arts while developing research skills, professionalism and building occupational knowledge. Students will visit workplaces in this employment sector to learn about specific jobs, professional requirements and develop a basic knowledge of an organization's structure and values.

WBL-158

JOB SHADOWING: INDUSTRIAL TECHNOLOGY

Lec 0.5 Lab 1 Credit 1-2

Students enrolled in this course will explore the field of Industrial Technology while developing research skills, professionalism and building occupational knowledge. Students will visit workplaces in this employment sector to learn about specific jobs, professional requirements and develop a basic knowledge of an organization's structure and values.

WBL-200

PRACTICUM/FIELD EXPERIENCE

Lec 0.5-2 OJT 2-8 Credit 1-4

Offered under the guidance of an instructor and employer mentor/supervisor, this course provides students an opportunity to learn in a work setting while obtaining practical experience in their chosen field of study. Students will participate in job training and will complete assignments to develop workplace communication skills, gain an understanding of industry and organizational structures and learn problem solving skills in a work environment. Prerequisite: WBL-100. Recommended: WBL-110 or Instructor Consent.

WBL-201

PRACTICUM/FIELD EXPERIENCE AGRICULTURE, FOOD, AND NATURAL RESOURCES

Lec 0.5-2 OJT 2-8 Credit 1-4

Offered under guidance of an instructor and employer mentor/supervisor, this course provides students an opportunity to learn in a work setting while obtaining practical experience in Agriculture, Food and Natural Resources careers. Students will participate in job training and will complete assignments to develop workplace communication skills, gain an understanding of industry and organizational structures and learn problem solving skills in a work environment. Prerequisite: WBL-100. Recommended: WBL-110 or Instructor Consent.

WBL-202

PRACTICUM/FIELD EXPERIENCE: SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS

Lec 0.5-2 OJT 2-8 Credit 1-4

Offered under the guidance of an instructor and employer mentor/supervisor, this course provides students an opportunity

to learn in a work setting while obtaining practical experience in the Applied Sciences, Technology, Engineering and Mathematics careers. Students will participate in job training and will complete assignments to develop workplace communication skills, gain an understanding of industry and organizational structures and learn problem solving skills in a work environment. Prerequisite: WBL-100. Recommended: WBL-110 or Instructor Consent.

WBL-203

PRACTICUM/FIELD EXPERIENCE: HUMAN SERVICES

Lec 0.5-2 OJT 2-8 Credit 1-4

Offered under the guidance of an instructor and employer mentor/supervisor, this course provides students an opportunity to learn in a work setting while obtaining practical experience in Human Services careers. Students will participate in job training and will complete assignments to develop workplace communication skills, gain an understanding of industry and organizational structures and learn problem solving skills in a work environment. Prerequisite: WBL-100. Recommended: WBL-110 or Instructor Consent.

WBL-204

PRACTICUM/FIELD EXPERIENCE: HEALTH SCIENCES

Lec 0.5-2 OJT 2-8 Credit 1-4

Offered under the guidance of an instructor and employer mentor/supervisor, this course provides students an opportunity to learn in a work setting while obtaining practical experience in Health Science careers. Students will participate in job training and will complete assignments to develop workplace communication skills, gain an understanding of healthcare and organizational structures and learn problem solving skills in a work environment. Prerequisite: WBL-100. Recommended: WBL-110 or Instructor Consent.

WBL-205

PRACTICUM/FIELD EXPERIENCE: BUSINESS, FINANCE, MARKETING, AND MANAGEMENT

Lec 0.5-2 OJT 2-8 Credit 1-4

Offered under the guidance of an instructor and employer mentor/supervisor, this course provides students an opportunity to learn in a work setting while obtaining practical experience in Business, Finance, Marketing and Management Careers. Students will participate in job training and will complete assignments to develop workplace communication skills, gain an understanding of industry and organizational structures and learn problem solving skills in a work environment. Prerequisite: WBL-100. Recommended: WBL-110 or Instructor Consent.

WBL-206

PRACTICUM/FIELD EXPERIENCE: INFORMATION SOLUTIONS

Lec 0.5-2 OJT 2-8 Credit 1-4

Offered under the guidance of an instructor and employer mentor/supervisor, this course provides students an opportunity to learn in a work setting while obtaining practical experience in Information Solutions careers. Students will participate in job training and will complete assignments to develop workplace communication skills, gain an understanding of industry and organizational structures and learn problem solving skills in a work environment. Prerequisite: WBL-100. Recommended: WBL-110 or Instructor Consent.

www.scciova.edu (319) 208-5000

WBL-207

PRACTICUM FIELD/EXPERIENCE: APPLIED DIGITAL, VISUAL, AND COMMUNICATION ARTS

Lec 0.5-2 OJT 2-8 Credit 1-4

Offered under the guidance of an instructor and employer mentor/supervisor, this course provides students an opportunity to learn in a work setting while obtaining practical experience in Applied Digital, Visual and Communication Arts careers. Students will participate in job training and will complete assignments to develop workplace communication skills, gain an understanding of industry and organizational structures and learn problem solving skills in a work environment. Prerequisite: WBL-100. Recommended: WBL-110 or Instructor Consent.

WBL-208

PRACTICUM/FIELD EXPERIENCE: INDUSTRIAL TECHNOLOGY

Lec 0.5-2 OJT 2-8 Credit 1-4

Offered under the guidance of an instructor and employer mentor/supervisor, this course provides students an opportunity to learn in a work setting while obtaining practical experience in Industrial Technology careers. Students will participate in job training and will complete assignments to develop workplace communication skills, gain an understanding of industry and organizational structures and learn problem solving skills in a work environment. Prerequisite: WBL-100. Recommended: WBL-110 or Instructor Consent.

Web Development (WDV)

WDV-101

INTRODUCTION TO HTML AND CSS

Lec 2 Lab 2 Credit 3

Introduces current standards of HTML, XHTML and CSS. Students will code HTML and CSS web pages, test them in browser and publish them to a web server. Page layouts will use various CSS techniques. Tables and forms will be used as well. A current version of Dreamweaver will be used to build more complex pages.

WDV-120

INTERFACE DESIGN

Lec 2 Lab 2 Credit 3

This course covers the design, prototyping and evaluation of user interfaces to computers which is often called Human-Computer Interaction (HCI). Students will gain a strong understanding of user interface design. This covers references, user experience (UX), and usability principles. Topics include psychological and interaction principles, requirements analysis, designing for different screens (web, TVs and mobile devices), design standards, style guides, techniques and visual design principles. Prerequisite: GRA-175.

WDV-132

MOBILE APPLICATION DEVELOPMENT

Lec 2 Lab 2 Credit 3

This course will introduce students to the skills required for building both web based and native mobile applications (apps).

Revised: 12/6/2023 9:07p.m.

Students will explore when and why an app makes sense over a mobile web site and develop a range of small apps that take advantage of native device functionality. The differences between mobile OS will be explored along with the various distribution methods and publishing requirements currently available. Prerequisites: WDV-101 and CIS-125.

WDV-341

INTRODUCTION TO PHP

Lec 2 Lab 2 Credit 3

This course will introduce PHP as a server side scripting language. It will introduce the MySQL database and the SQL language for use with PHP. Students will embed PHP and SQL code into html pages and publish them to a PHP enabled server. Students will create a web application that will allow for user login pages, as well as add, delete and updates of database content to web pages. Prerequisites: WDV-101, CIS-125 and CIS-332.

Welding (WEL)

WEL-111

WELDING BLUEPRINT READING

Lec 2 Lab 2 Credit 3

A course concerned with basic fundamentals of interpreting drafting as applied in the welding trade. Emphasis is placed on developing the ability to interpret blueprints from which the welder must work. A thorough coverage of welding symbols is integrated within the course.

WEL-130

OXYACETYLENE WELDING

Lec 1 Lab 2 Credit 2

To provide a thorough technical understanding of metallurgy, oxyacetylene welding, flame cutting and brazing fundamentals, and to develop skills necessary to produce high quality fillet and square groove welds in 3/16" plate and schedule 50 carbon steel pipe. Students develop understanding of weld hazards and safety procedures throughout the course. Can be taken for additional credit. Approval of Instructor.

WEL-160

ARC WELDING I (SMAW)

Lec 2 Lab 6 Credit 5

Provides a thorough technical understanding of shielded metal arc welding fundamentals, weld hazards and weld safety, power sources and electrode selection. Provides ample time and direction to develop skills necessary to make high quality welds on 16 gauge to 1/4" mild steel in all positions.

WEL-164

ARC WELDING II (SMAW)

Lec 1 Lab 6 Credit 4

An advanced course designed to develop skills, integrity, and confidence necessary to pass skill tests on pre-qualified joints on plate and structural steel as required of code welding by the American Society of Mechanical Engineers and American Welding Society. Prerequisite: WEL-160.

WEL-172

ADVANCED SHIELDED METAL ARC WELDING II

Lec 1 Lab 6 Credit 4

Provides understanding and skill development necessary to produce high quality welds on 3/8" to 1" mild steel in all positions. Includes information relating to air-arc cutting and gouging, procedures and welder qualifications, testing of welds and metals identification. Prerequisite: WEL-160.

WEL-182

FLUX CORED ARC WELDING

Lec 1 Lab 2 Credit 2

Provides thorough technical understanding of the flux cored arc welding process including adjustment and operation of power source, types of arc shielding, and safe operating procedure. Quality welds are produced on 3/8" to 1" carbon steel in all positions. Prerequisite: WEL-186.

WEL-186

GAS METAL ARC WELDING

Lec 2 Lab 4 Credit 4

Provides a technical understanding of the gas metal arc welding process, power sources and adjustment, metal transfer, shielding gases and weld safety. Develops skills necessary to produce high quality welds of 1/16" at 3/8" mild steel in all positions. Students will develop skills necessary to produce and bend-test single vee groove welds on 3/8" carbon steel in all positions according to American Welding Society code requirements.

WEL-192

GAS TUNGSTEN ARC WELDING

Lec 2 Lab 4 Credit 4

Provides a thorough technical understanding of the TIG (Heliarc) process including metal characteristics, electrode, filler metals and shielding gases with emphasis on weld safety and procedures.

WEL-197

GAS TUNGSTEN ARC WELDING - TUBE

Lec 1 Lab 4 Credit 3

Develops skills necessary for making high quality all position welds on schedule 10 to schedule 40 carbon steel pipe; preparation and testing of pipe is included. Prerequisite: WEL-192.

WEL-198

ADVANCED GAS METAL ARC WELDING - ALUMINUM

Lec 1 Lab 2 Credit 2

An advanced gas metal arc welding course designed for the student who wishes to develop skills necessary to weld 0.050" to 0.250" aluminum in all positions. Prerequisite: WEL-186.

WEL-235

LAYOUT AND FABRICATION

Lec 0 Lab 8 Credit 4

Teaches layout & fitting skills applicable to an industrial welding shop, including reading prints, estimating and ordering materials, performing layout and cutting work, and welding procedures applicable to fabricating a finished product. Emphasizes problem solving and cooperation within an industrial-like environment. Safety, accuracy and a commitment to excellence is emphasized. Prerequisite: Completion of first 3 semesters of welding program curriculum or Instructor Approval.

WEL-292

PIPE WELDING/SAW - UPHILL

Lec 1 Lab 6 Credit 4

Provides thorough technical understanding of uphill pipe welding procedures and application. Students produce welds using schedule 40 and 60 carbon steel pipe in 1G, 2G, 4G and 6G positions with a degree of skill necessary to meet American Society of Mechanical Engineer's code requirements. Prerequisites: WEL-160 and WEL-172.

WEL-720

INTRODUCTION TO ROBOTIC ARC WELDING

Lec 1 Lab 2 Credit 2

This course is an overview of robots used in the welding industry. Basic mechanisms, hydraulics, and pneumatics are covered. Students receive hands-on experience in programming a robot to weld fixture parts using the GMAW process. Prerequisite: WEL-186.

Placeholders (ZZZ)

ZZZ-ALS

ADVANCED LAB SCIENCE COURSE

Lec 3-4 Lab 2 Credit 4-5

Courses fulfilling the Advanced Lab Science requirement provide a deeper investigation of a scientific discipline in order to prepare students for more advanced study. Courses that fulfill this requirement for the Associate of Science degree are: BIO-112, BIO-113, BIO-163, BIO-168, BIO-173, BIO-186, CHM-165, CHM-175, CHM-263, CHM-273, PHY-162, PHY-172, PHY-212, and PHY-222. Please see your Student Success Advocate to help choose the best option for you.

ZZZ-CUL

CULTURAL AWARENESS COURSE

Lec 3 Credit 3

Courses fulfilling the Cultural Awareness requirement address the diversity of culture within the United States and across the world. These courses span a wide range of academic disciplines. Please see your Student Success Advocate to help choose the best option for you.

ZZZ-ELE

ELECTIVE COURSE

Lec 2-4 Lab 0-2 Credit 3-5

Any course of 100-level or higher from Arts and Sciences or Career Technical Education can be used to fulfill an Elective. Please see your Student Success Advocate to help choose the best option for you.

ZZZ-ENL

ENGLISH OR LITERATURE COURSE

Lec 3 Credit 3

The English Transfer Major requires at least one other English or literature course in addition to ENG-105, ENG-106, ENG-221, LIT-101, LIT-150, and LIT-151. ENG courses may only fulfill this requirement if they are at the 200-level or higher. Please see your Student Success Advocate to help choose the best option for you.

ZZZ-HUM

HUMANITIES COURSE

Lec 3 Credit 3

Courses fulfilling the Humanities requirement address human history, languages, literature, philosophy, and the arts. These courses span a wide range of academic disciplines. The Associate of Arts and Associate of Science degrees require Humanities courses from at least two different disciplines. Please see your Student Success Advocate to help choose the best option for you.

ZZZ-LAB

LAB SCIENCE COURSE

Lec 2-4 Lab 2 Credit 3-5

Courses fulfilling the Lab Science requirement incorporate hands-on experimentation and observation by students in the study of science. Any science course of 100-level or above including laboratory credit from the disciplines of biology, chemistry, physics, physical science, science, or environmental science can fulfill this requirement. Please see your Student Success Advocate to help choose the best option for you.

ZZZ-MAT

MATHEMATICS COURSE

Lec 3-4 Credit 3-4

Courses fulfilling the Mathematics requirement address the properties and relationships of numbers, formulas, and operations, as well as the real world application of these concepts to analyze data. Any mathematics course of the 100-level or above can fulfill this requirement. Please see your Student Success Advocate to help choose the best option for you.

ZZZ-MSC

MATH OR SCIENCE COURSE

Lec 2-4 Lab 0-2 Credit 3-5

Courses fulfilling the Math or Science requirement address quantitative and/or scientific reasoning skills. Any course of 100-level or above from mathematics or a science discipline can fulfill this requirement. Please see your Student Success Advocate to help choose the best option for you.

ZZZ-PSY

PSYCHOLOGY COURSE

Lec 3 Credit 3

The Psychology Transfer Major requires at least one other psychology course in addition to Introduction to Psychology, Developmental Psychology, and Social Psychology. Please see your Student Success Advocate to help choose the best option for you.

ZZZ-SCI

SCIENCE COURSE

Lec 2-4 Lab 0-2 Credit 3-5

Courses fulfilling the Science requirement address the knowledge and concepts used to understand the physical and natural world through observation and experiment. Any course of 100-level or above from the disciplines of biology, chemistry, physics, physical science, or environmental science can fulfill this requirement. Please see your Student Success Advocate to help choose the best option for you.

ZZZ-SOC

SOCIAL SCIENCE COURSE

Lec 3**Credit 3**

Courses fulfilling the Social Science requirement address the behavior of humans as individuals and groups. These courses cover the academic disciplines of economics, geography, history, political science, psychology, and sociology. The Associate of Arts and Associate of Science degrees require Social Science courses from at least two different disciplines. Please see your Student Success Advocate to help choose the best option for you.
