Automotive Technology - Diploma Automotive Technology - AAS Automotive Technology Management - AAS

The Automotive Technology program is an Automotive Service Excellence (ASE) certified program. This certification assures the student that the program meets the standards set by National Automotive Technicians Education Foundation (NATEF) regarding equipment, tools, scheduling, instructors, and curriculum.

In order for a technician to become ASE certified, they must have two years experience in addition to passing tests in the various areas of automotive repair. However, by attending the SCC Automotive Technology program, students may take these tests at any time during their education. If a student passes these tests, they will become ASE certified pro-tem upon graduation. After just one year of experience in the field, they become officially ASE certified.

The Automotive Technology - Automotive Mechanics diploma is awarded after successful completion of the first two semesters.

\*Diploma can be earned one time.

Please view the technical standards for this course.

For specific information regarding program rules and expectations, please view the Automotive Program Handbook.

## **Instructor and Staff**

Wes Carpenter Assistant Professor - Automotive Technology (319) 208-5109 wcarpenter@scciowa.edu

Austen Totsch Instructor - Automotive Technology (319) 208-5108 atotsch@scciowa.edu
