[Agriculture Certificate](#)

[Agriculture Diploma](#)

[Agriculture AAS](#)

The Agriculture program provides students an opportunity to experience the various aspects of the agricultural industry as they learn about agronomy/crop production, animal production, new technologies, and agriculture business. Through the use of hands-on experience, guest speakers, conferences, and field trips in addition to classroom lectures, students experience the impact of agriculture in the region and are prepared for entrance into a number of different career opportunities.

Students will complete two internships allowing students to network with industry partners, connect with the field of agriculture that interests them the most, and prepare for their future employment.

Students may choose from two pathways, Agribusiness and Animal Science. Students may also complete the Agriculture AAS fully online.

Students will take four credits of AGB-104 or HUM-287. In Spring II, students will complete two of the three courses in the agriculture course option listing.

The Agriculture Certificate is awarded after successful completion of first semester courses.

The Agriculture Diploma is awarded after successful completion of the first two semesters.
