Network Administration and Cyber Security - AAS

West Burlington Campus

The Networking Administration and Cybersecurity program offers hands-on experience with installation, maintenance and administration of PC networks. Students will spend time working on security principles and router, switch and firewall configuration. The program offers the latest equipment and software, plus experience with Microsoft and Linux operating systems. Students will leave with the skills and knowledge industry requires.

During the second semester, students will take NET-101 IT Fundamentals, where they have the opportunity to earn CompTIA IT Fundamentals certification.

The IT Technician Diploma is awarded after successful completion of the second semester.

Students will also take NET-153 Advanced Networking during the second year, which includes the CIW Network Technology Associates exam. The CIW NTA certificate is awarded after successful completion of this exam.

*Diploma can be earned one time.

For specific information regarding program rules and expectations, please view the Information Technology Programs Handbook.

Instructor and Staff

Brenda Wamsley Associate Professor - Information Technology (319) 208-5195 bwamsley@scciowa.edu

West Burlington Campus, and select courses available at the Keokuk Campus

Program Requirements

Fall Semester I		Credit
NET-277	IT Foundations	2
NET-142	Network Essentials	3
CIS-125	Introduction to Programming Logic with	3
	Language	
NET-442	Linux Operating System	3
